

Proposition 128
Voter Protection Act; Court Determinations
Fiscal Analysis

Estimated Impact

Proposition 128 would allow the Legislature to do any of the following by majority vote if an approved initiative or referendum measure has been found to contain illegal or unconstitutional language by the Arizona Supreme Court or the U.S. Supreme Court:

- 1) Amend an initiative or referendum measure;
- 2) Appropriate or divert funds created by initiative or referendum; and
- 3) Adopt a measure that supersedes any initiative or referendum measure.

As the impact of the proposition depends on future initiative and referenda measures, we cannot estimate a fiscal impact.
