

**Proposition 129
Initiatives; Single Subject; Title
Fiscal Analysis**

Estimated Impact

Proposition 129 would require that an initiative measure must embrace only one subject and matters connected to that subject. The proposition also states that if a subject covered in an initiative measure is not expressed in the title, subjects not covered in the title are considered void from the initiative measure.

As the impact of the proposition depends on future initiative measures, we cannot estimate a fiscal impact.
