Revenue and Budget Update

January 18, 2018

JLBC

A Summary of State General Fund Conditions
- The ‘19 JLBC Baseline

- The Baseline compares revenues with funding formula requirements to provide a guideline of available resources
- Both the current budget and ’19 Baseline have projected shortfalls:
  - ‘18 = $(20) M and ‘19 = $(108) M

JLBC

The Caveats

- The shortfall is likely greater since the Baseline eliminates $89 M in “1-time” ’18 spending that appears ongoing in nature
- Federal tax conformity not scored in Baseline or Executive. Projections are highly speculative.
  - DOR ‘19 estimate: $50 M to $250 M ($236 M detail)
  - JLBC ‘19 estimate: $133 M

Arizona Ranks 14th in Economic Momentum

- Same Rank as a Year Ago

	AZ Rate	AZ Rank
Change in Personal Income (Sept)	2.4%	20
Change in Population (July)	1.6%	6
Change in Employment (Nov)	1.5%	18
Unemployment Rate (Nov)	4.3%	29

Momentum calculations via State Policy Reports – Joint NGA/NCSL Project

’18 YTD Growth Higher than ‘17

	’17 Actual	’18 YTD
Sales	4.5%	6.0%
Individual Income	4.1%	10.3%
Corporate Income	(35.5)%	(25.0)%
Insurance Premium	2.8%	3.1%
Other	(2.9)%	(9.3)%
Overall	1.5%	6.1%

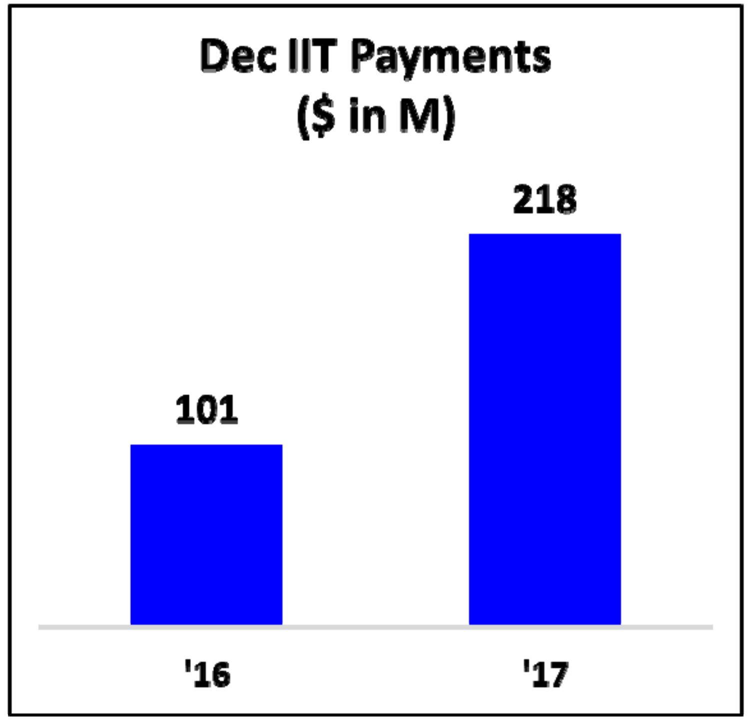
- Includes preliminary December estimates
- Revenues exclude fund transfers and urban revenue sharing
- Through December, year-to-date revenues $143 M above forecast

JLBC

December Income Tax Payments Doubled

- Blip or Trend? Need to Monitor

- Why? We don't know
- Payments due Jan. 15 – a processing issue?
- Avoid '18 Fed SALT cap?
- Capital gains from 25% '17 stock market gain?
- Pass-through profitability?



JLBC

Beyond Conformity, How Could Federal Tax Bill Affect AZ Revenue?

- Wide difference of opinion on the long run impact on the economy
- More general consensus that lower tax burden will generate growth in the next 2 years
  - 90% of 62 economists in Wall Street Journal survey concur
  - But no consensus on magnitude of growth
  - JLBC revenue forecast does not reflect legislation
- 47% of WSJ respondents thought that stimulus would last more than 2 years
  - Disagreement about long run impact on the federal deficit and the corresponding impact on interest rates
- Historical Context: by end of ’19, we will have tied record for post WW2 expansion

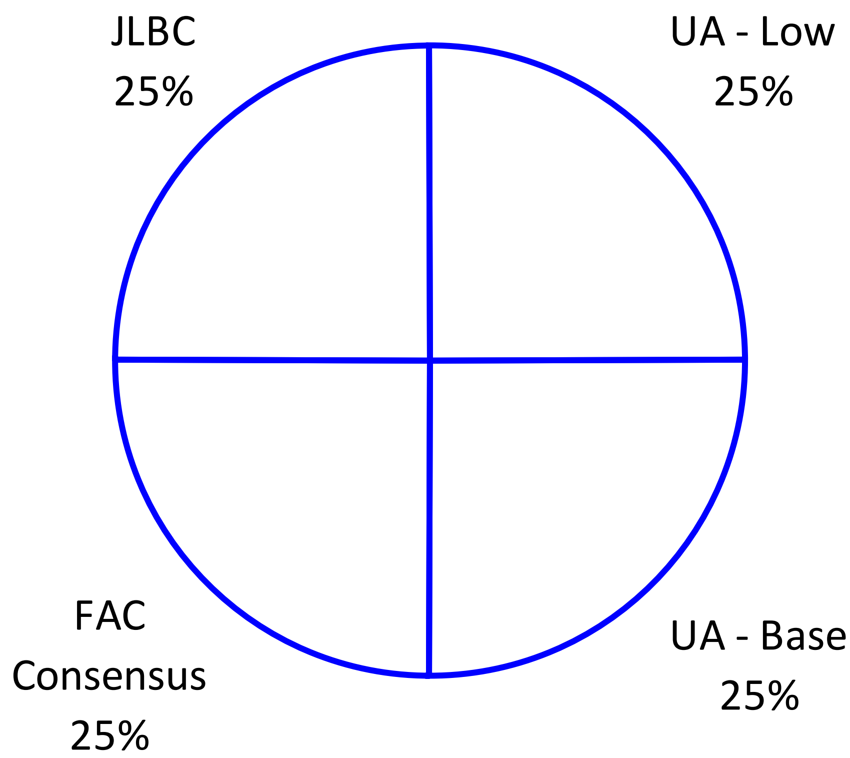
How Does JLBC Forecast Revenues?
- Four-Sector Consensus Forecast

4-sector forecast equally weights:

- FAC average
- UofA model – base
- UofA model – low
- JLBC Staff forecast

Model Includes:

- Sales Tax
- Individual Income Tax
- Corporate Income Tax
- Insurance Premium Tax
- Remaining revenues (5% of total) are staff forecast



JLBC

Tax Conformity Issues

How Will Federal Tax Law Changes Affect AZ?

- AZ uses income on the federal form as the starting point for our own individual and corporate income tax

- When feds change their income definition, AZ has to decide whether to conform in statute

- Conformity is not automatic – state needs to enact legislation

When Are AZ and Federal Taxes Linked?

	Linked
❑ Tax Rates • Feds lowered both individual and corporate rates, but no AZ impact	No
❑ Deductions • We do not conform to feds' standard & medical deductions • AZ currently conforms to most others • Feds have now reduced deductions, which would generate more state revenue	Yes/No

JLBC

Conformity Is Very Difficult to Estimate

- Federal legislation includes over 100 provisions, is very complex and is the largest revision in the tax code in 30 years
- Some provisions can be estimated using AZ-specific data
- Most provisions, however, require prorating national data
  - Some national estimates are highly speculative
  - AZ's percent share of national estimates further adds to the speculation
- JLBC Staff's conformity projection is a $133 M net gain in '19

JLBC

Main Conformity Provisions
- Assumes Current Delinking Continues

	$ in M
❑ Conform Itemized Deductions	138
• Eliminate 2% Business/Employee Expenses	
• Cap State & Local Taxes at $10 K	
❑ Limit Pass-Through Losses to $250k/$500k	32
❑ Higher Bonus Depreciation/Business Expensing	(47)
❑ Expand Simplified Cash Accounting	(24)
❑ Limit Interest Expense Deduction to 30% of Earnings	17
❑ Net of All Other	17
Total	133

JLBC

Key Conformity Assumptions

- Continue any current "delinking"
  - Medical expenses
  - Limit bonus depreciation to individual filers. Expanding to corporate filers costs $68 M
  - No taxation of foreign profits

- Discount estimates for safety factor
  - 25% on any prorated federal estimates
  - 10% on DOR model runs (itemized deduction calculations)

Thoughts on US:

- Regulatory reform, tax policy, infrastructure investment all matter.
- Stock market over responded.
- Higher up means greater fall.
- Should be ok for a while.

Insurance Premium Tax

INSURANCE PREMIUM TAX

WHO PAYS

All authorized insurers are subject to the insurance premium tax. Additionally, the tax applies to health care service organizations, prepaid dental plan organizations, and prepaid legal insurance corporations. [A.R.S. § 20-206, A.R.S. § 20-224, A.R.S. § 20-401.05, A.R.S. § 20-416, A.R.S. § 20-837, A.R.S. § 20-1010, A.R.S. § 20-1060, A.R.S. § 20-1097.07].

DISTRIBUTION

Except for a portion of the tax on fire insurance premiums and an additional tax paid on vehicle insurance premiums, these tax revenues are deposited in the state's General Fund [A.R.S. § 20-227].

Eighty-five percent of the fire insurance premium tax is transferred to cities and towns and legally organized fire districts which procure the services of private fire companies and to cities and towns which have their own fire department or legally organized fire district. The proceeds are to be used to assist in funding pension plans for fire fighting personnel. The other 15% is deposited into the state's General Fund [A.R.S. § 20-224, A.R.S. § 9-951, and A.R.S. § 9-952].

An additional tax of 0.4312% paid on insurance carried on vehicles is separately accounted for and transferred to the Public Safety Personnel Retirement System for deposit in the Highway Patrol Account to assist in funding the pension plan for highway patrol personnel [A.R.S. § 20-224.01].

REVENUE BASE

The tax applies to premiums paid for insurance covering liabilities that exist within the state. The tax is levied on the net premium income, which is defined as the total amount received from premiums after deducting cancellations, returned premiums, policy dividends, and refund reductions. The specific types of insurance that are taxed are described in the *Taxable Lines of Insurance* section.

TAX RATE

The insurance premium tax rate on life, vehicle, and other property and casualty lines of insurance is 1.9% in calendar year (CY) 2017. Over the following 5 years, Laws 2016, Chapter 358 decreases the tax rate by (0.05)% annually until it is phased down to 1.7% in CY 2021 and later years. Except for fire insurance and surplus line insurance, the tax rate for most other types of insurance is 2.0% of net premium income [A.R.S. § 20-224].

The tax rate for fire insurance is 0.66% for insurance on properties located in an incorporated city or town which procures the services of a private fire company. The rate on all other fire insurance is 2.2% [A.R.S. § 20-224].

The tax rate on premiums paid to brokers selling surplus line insurance and industrial insurance contracts procured from unauthorized insurers is 3% of the net premium income [A.R.S. § 20-401.07 and A.R.S. § 20-416].

PAYMENT SCHEDULE

Payment of the preceding calendar year's insurance premium tax liability is due on or before March 1 of each year. [A.R.S. § 20-224].

Prior to CY 2018, any insurer that paid or is required to pay a tax of $2,000 or more for the preceding calendar year is required to pay an "installment" payment of 15% of that amount on or before the 15th day of each month from March through August. Laws 2017, Chapter 153 increases the threshold of tax liability above which an insurer is required to make installment payments, from $2,000 to $50,000 in the preceding calendar year, beginning in CY 2018. Installment payments are credited against the insurance premium tax due on March 1 of the following year [A.R.S. § 20-224].

TAXABLE LINES OF INSURANCE

The table at the end of this section lists the Insurance Premium Tax revenue collections to the General Fund from FY 2010 to FY 2017, by line item. Each of the insurance lines in the table is described below.

AHCCCS Contractors: The Arizona Health Care Cost Containment System (AHCCCS) makes predetermined monthly capitation payments to managed care organizations that provide Medicaid health insurance to qualifying low income individuals. The state and federal government share in the costs of the program. With some exceptions, the state's Medicaid program covers individuals with family incomes up to 133% of the federal poverty level (about $32,700 for a family of 4).

Since FY 2004, capitation payments to AHCCCS contractors have been subject to Insurance Premium Tax. Both the state and federal portions of capitation payments are subject to the tax. Tax collections from this line were about 42% of Insurance Premium Tax General Fund revenues in FY 2017. The revenue growth of 11% in FY 2014, 24% in FY 2015, and 17% in FY 2016 in this line was largely driven by the expansion of eligible income levels for the program on January 1, 2014. Growth slowed to 1.2% in FY 2017 as Medicaid enrollment slowed.

Accident and Health: Includes insurance policies for medical risks and accidental injury or death. Much of this line consists of personal and employer-sponsored health insurance plans. Federal law, though, exempts employer self-insured plans from state insurance premium tax. Collections from the line made up about 20% of Insurance Premium Tax General Fund revenues in FY 2017. Revenue growth of this line in FY 2014 through FY 2016 was bolstered by increased health plan enrollment following the January 1, 2014 implementation of federal health exchanges and an individual mandate to have health insurance.

Vehicle: This line consists of insurance against damage to vehicles and accidental injury or death or damage to non-vehicle property caused while using a vehicle. According to DOI, private passenger automobile insurance accounts for 90% of this line's premiums while insurance for commercial risks account for the remaining 10% of premiums. Collections from this line were 19% of Insurance Premium Tax General Fund revenues in FY 2017.

Other Property and Casualty: Consists of numerous types of property and casualty insurance that together were 12% of Insurance Premium Tax General Fund revenue in FY 2017. The largest sub-category of insurance in this line is homeowners insurance, which makes up about one-third of the line's taxable premiums. Some other major sub-categories of this line include property in transit, commercial multi-peril, and medical professional liability.

Life: Includes temporary or permanent policies that insure human life. Collections from this line made up about 8% of Insurance Premium Tax General Fund revenues in FY 2017.

Surplus Lines: Includes types of insurance that are not sufficiently offered by authorized insurers and therefore may be procured from an unauthorized out-of-state insurer. Collections from this line were 3% of Insurance Premium Tax General Fund revenues in FY 2017.

Fire: Includes insurance against damage or loss from fire, beyond the level of coverage from other forms of property insurance. Collections from this line were less than 1% of Insurance Premium Tax General Fund revenues in FY 2017.

Retaliatory Payments: Out-of-state insurers pay the greater of the Arizona insurance premium tax or the tax imposed by their home state on Arizona insurers. Retaliation applies to taxes, fees, assessments or other charges levied in the insurance company's home state. Collections from this line were 2% of Insurance Premium Tax General Fund revenues in FY 2017.

Tax Credits: Tax revenues from the insurance lines above are reduced by Insurance Premium Tax credits. Growth of tax credit use in recent years has largely been driven by the 20% annual increases in the cap on Private School Tuition Organization - Low Income Students credits. Dollar impacts of the specific Insurance Premium Tax credits in FY 2017 are listed in the table below.

Economic Indicators

Monthly Indicators December 2017

NATIONAL

According to the U.S. Department of Commerce Bureau of Economic Analysis, the **U.S. Real Gross Domestic Product (GDP)** increased at an annual rate of 3.3% in the third quarter of 2017, following growth of 3.1% in the second quarter. The latest readings represented the first consecutive quarters of at least 3.0% growth since the third quarter of 2014. GDP has been bolstered by strong growth in consumption expenditures, business fixed investment, and exports. Increases in these categories were partly offset by decreases in residential fixed investment.

The Conference Board's **U.S. Consumer Confidence Index** increased by 2.6% to 129.5 in November. The latest reading is 18.4% above the index in November 2016 and is at its highest level since November 2000. The increase in November reflected continued widespread improvement in consumers' assessments and near-term expectations of the economy. Economists expect that the upward trend in confidence over the past year has largely been in response to improving labor markets and rising asset prices.

According to the U.S. Department of Commerce Bureau of Economic Analysis, the **U.S. Personal Consumption Expenditure Price Index (PCEPI)** increased 0.1% in October. Monthly growth was boosted by prices on services, which rose 0.3% during the month. Despite the monthly increase, the index's year-over-year growth rate dropped from 1.7% in September to 1.6% during the month, and remains below the Federal Reserve Bank's (Fed) 2.0% annual inflation target. The index for core inflation (all items less food and energy) was 1.4% above the reading in October 2016. The Fed chose to raise short-term interest rates by 0.25% at its December meeting, under the expectation that inflation is set to gradually rise to its 2.0% target.

Consumer prices, as measured by the **U.S. Consumer Price Index (CPI),** increased 0.4% in November and increased 2.2% above November 2016 prices. The index increase is primarily due to a 3.9% increase in the energy index, driven by a 7.3% increase in the gasoline index. Core inflation (all items less food and energy) increased 0.1%, and other increases include the indexes for motor vehicle insurance, used vehicles and shelter. The indexes for apparel, airline fares, and household furnishings saw decreases for the month.

ARIZONA

Housing

Single-family housing construction is increasing. In October, Arizona's 12-month total of **single-family building permits** was 27,099, or 13.1% more than a year ago. The comparable single-family permit growth rate for the entire U.S. was 10.4%.

The 12-month total of multi-family building permits has been increasing recently. In October, Arizona's total of 11,255 **multi-family building permits** was 10.9% more than in 2016. Nationwide multi-family permits were (1.7)% less than in 2016.

Tourism

Revenue per available room was $82.83 in October, which was 6.5% above the amount in October 2016. **Ridership** through Phoenix Sky Harbor Airport during the month was up 2.4% compared to October 2016.

Employment

OEO reported that 15,538 **initial claims for unemployment insurance** were filed in November, a decrease of (3.5)% compared to the same month last year.

According to OEO, the state had a total of 22,900 claimants receiving **unemployment insurance benefits** in November, a decrease of (11.9)% from October. This figure is (11.3)% below the November 2016 level.

In October, the **Average Weekly Hours** worked by individuals in Arizona's private sector was 36.2 hours. This workload was 4.3% above the level during the prior month, as well as 4.3% above the level in October 2016.

The **Average Hourly Earnings** received by private sector workers was $25.23, which is (1.3)% below the average in the prior month. Year-over-year growth in earnings dropped steeply from 5.6% in September to 3.2% in October and is the lowest annual growth rate since July 2016. It is not clear if the recent decrease reflects temporary or ongoing labor market conditions.

The state's **November employment** data is not available at the time of publication as it will be reported on Thursday, December 21.

State Agency Data

At the beginning of December 2017, the total **AHCCCS caseload** was 1.86 million members. Since the federal health care expansion in January 2014, the overall AHCCCS population has grown by 597,261 members.

Monthly Indicators (Continued)

Total monthly enrollment decreased by (12,100) during November and is (0.7)% lower than a year ago. The monthly decrease was spread across most populations. The Traditional and Proposition 204 populations of low income parents and children comprised the largest part of the decrease, collectively falling (8,800), or (0.7)%. Laws 2016, Chapter 112 reopened enrollment in KidsCare program in September 1, 2016. Following the enrollment freeze in January 2010, the KidsCare caseload had dropped to 500 members by August 2016. Through December 1, 2017, enrollment in the program reached 24,500, or 700 more than the prior month's enrollment.

In January 2014, the state started accepting new enrollment to the Proposition 204 childless adults program. In November 2017, the childless adult population decreased by (3,000), or (0.9)%. At 314,000, this population is (1.3)% lower than a year ago.

The state also opted to expand adult Medicaid coverage to 133% of FPL. Their enrollment decreased by (900) in November and now totals 81,200 individuals. Enrollment is (1.0)% lower than a year ago. The percentage of this population's cost that the federal government funds is set to decrease from 95% to 94% in January 2018.

There were 16,966 TANF **recipients** in the state in November, representing a (1.6)% monthly caseload decrease from October. The year-over-year number of TANF recipients has declined by (14.1)%. The statutory lifetime limit on cash assistance is 24 months.

The **Supplemental Nutrition Assistance Program (SNAP)**, formerly known as Food Stamps, provides assistance to low-income households to purchase food. In November, 893,429 people received food stamp assistance in the state, representing a (1.4)% decrease over October caseloads. Compared to November caseloads last year, the level of food stamp participation has declined by (7.7)%.

The **inmate population** was 42,167 as of November 30th, 2017. This is a (0.2)% increase since October and a (0.7)% decrease since last year.

Based on information the Department of Child Safety provided for October 2017, **reports of child maltreatment** totaled 47,496 over the last 12 months, a decrease of (1.3)% over the prior year.

There were 15,867 **children in out-of-home care** as of September 2017, or (12.1)% less than in September 2016. Compared to the prior month, the number of out-of-home children decreased by (0.9)%.

According to the most recent information from the Administrative Office of the Courts, the Maricopa County **probation caseload** was 28,289 as of October 2017. This was a decrease of (302) below the prior month, and a 509 increase since last October. In addition, the state's non-Maricopa County probation caseload was 19,255. This was an increase of 67 above the prior month, and a 276 increase since last October. These figures represent standard and intensive probation caseloads, including both adult and juvenile probation.
