Revenue and Budget Update

January 23, 2014

JLBC

3-Year Budget Outlook

- ❑ The Baseline compares the 4-sector consensus revenue forecast with cost of current funding formulas through '17
- ❑ Under the Baseline scenario, the cash balance is \$327 M in '15, near \$0 in '16, and a \$(593) M shortfall in '17
- ❑ After adjusting the Baseline for the \$238 million HURF proposal, there are projected shortfalls of \$(256) M in '16 and \$(593) M in '17
- ❑ The cash balance estimates exclude the \$460 M available in the Budget Stabilization Fund

JLBC

2

The Caveats

- ❑ The revenue forecast is based on moderate revenue growth – but assumes that a portion of '13 capital gain windfall was one-time
- ❑ Over 3 years, small percent changes in growth assumptions can have a substantial impact
 - Eliminating the 4-sector slow growth scenario, for example, could increase available revenues by \$468 M through '17
- ❑ Pending “budget” lawsuits could be significant. Retroactive K-12 inflation payments have a maximum exposure of \$1.26 B
- ❑ Baseline includes \$210 M to buy back debt in '17 under 2010 debt financing terms – but Executive could revise these terms

JLBC

3

Legislative Considerations

- ❑ While there is a cash balance at least through '15, ongoing spending exceeds ongoing revenue in each year (a structural shortfall)
 - Through '17, the annual structural shortfall ranges from \$(328) M to \$(383) M
 - The \$900 M '13 carryforward keeps the cash budget balanced in the short term
- ❑ The state still annually suspends over \$300 M of funding formulas and rolls over \$1.2 B in spending (both primarily K-12)
- ❑ Among states, Arizona is tied for the 3rd lowest credit rating – but outlook has turned positive

JLBC

4

Rating Agency Perspectives on Arizona – Revised from Stable to Positive Outlook

– Aa3 Moodys/AA- Standard and Poors

Strengths

- Improving economy in terms of job and housing growth
- \$1.3 B budget balance and Rainy Day Fund at the end of '13
- Below average debt and pension liabilities

Weaknesses

- Structural shortfall with expiration of 1 cent sales tax
- Constitutional restrictions on flexibility – Propositions 105 and 108
- Lack of financial best practices – statutory consensus forecasting and Executive mid-year budget reduction authority

JLBC

5

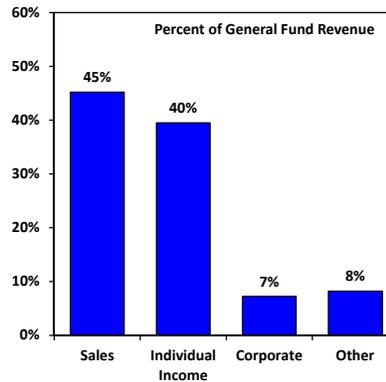

Revenue Overview

JLBC

FY 2015 General Fund Revenue

- 92% Generated by 3 Taxes

Source	(Millions)
Sales and Use Tax	\$ 4,207.6
Individual Income Tax	3,675.8
Corporate Income Tax	667.0
Other	<u>766.7</u>
TOTAL REVENUE	\$ 9,317.1^{1/}

^{1/} Excludes beginning balance, urban revenue sharing, and one-time revenue adjustments, but includes all on-going legislative revenue changes.

JLBC

7

1st Half FY '14 Growth Rate 3.2%

- After Technical Adjustments, More Likely to be 4.0%

- \$10 M Above Original Budget Forecast

	Preliminary % Change over Prior Year
Sales Tax	6.7%
Individual Income Tax	3.4%
Corporate Income Tax	(14.8)%

- Strong sales tax growth led by retail and contracting
- Income tax withholding has increased by only 1.7%
- Increased use of tax credits may account for corporate decline

JLBC

8

After Strong 4th Quarter of FY '13, Growth Has Slowed

JLBC

9

Key Economic Measures

- Current Arizona Status Compared to Last Year

	December '12	December '13
Annual Jobs Added 10-yr Average = 73,700	50,900	47,500
Pending Maricopa Foreclosures Pre Recession Normal = 3,000	12,000	6,100
Arizona Annual Single Family Permits Pre Recession Normal = 40,000	15,900	17,700
Arizona Underwater Mortgages	39%	22%

JLBC

10

Arizona Forecasters Are Optimistic Compared to Many Other Western States

Blue Chip Forecast CY '14 % Personal Income Growth

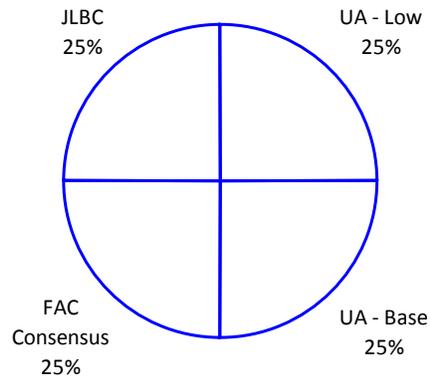

Texas	5.8%
Washington	5.6%
Utah	5.5%
Arizona	5.2%
California	5.1%
Colorado	5.1%
Oregon	5.0%
Wyoming	4.5%
Montana	4.5%
Idaho	4.2%
New Mexico	4.2%
Nevada	3.2%

JLBC

11

Where Are We Headed Over the Next Few Years? - Four-Sector Consensus Forecast Incorporates Different Economic Views, Including the FAC

- ❑ 4-sector forecast equally weights:
 - FAC average
 - UofA model – base
 - UofA model – low
 - JLBC Staff forecast
- ❑ Small categories (8%) are Staff forecast
- ❑ Probability of exceeding forecast is 65%

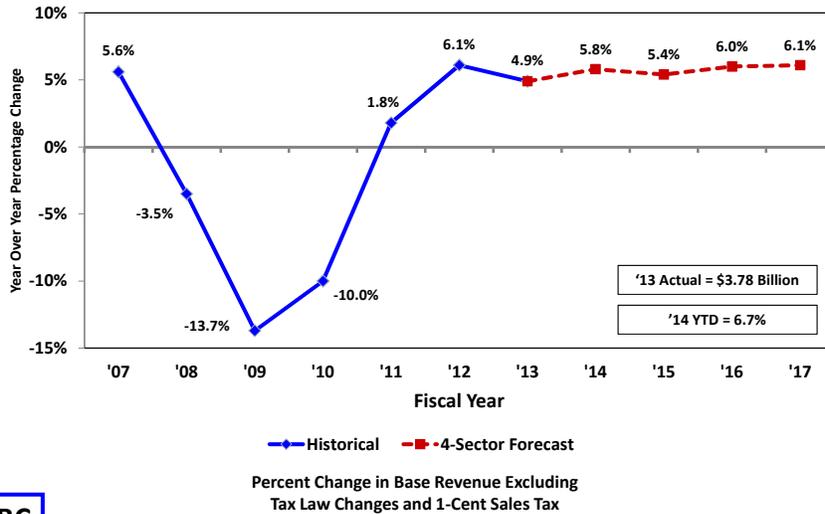

* Includes Big 3 categories of sales tax, individual income and corporate income taxes

JLBC

12

Sales Tax

- Projected Growth of 5.8% in FY '14 and 5.4% in FY '15

JLBC

13

Impact of Taxing Internet Sales Remains Uncertain

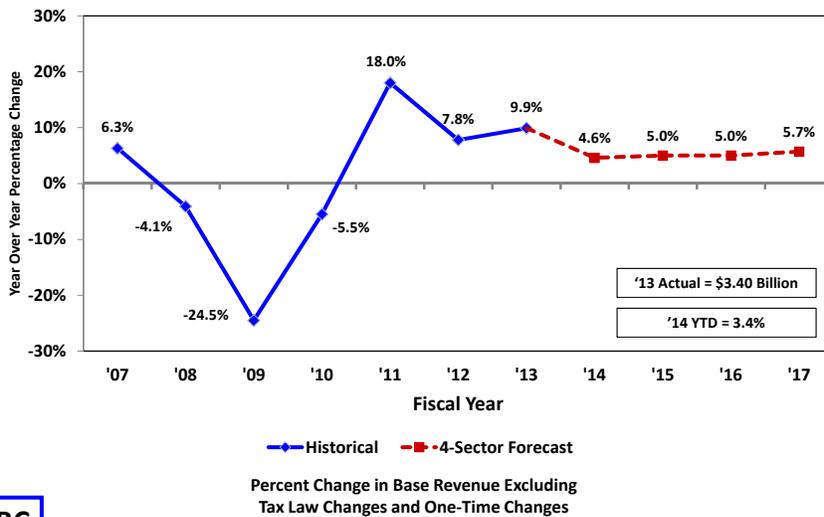

- Arizona, along with 18 other states, already collects sales tax on Amazon purchases
- Beyond Amazon, impact of an affiliate nexus (“click-through”) tax may generate \$10 M to \$25 M
- Federal Marketplace Fairness Act would broaden internet sales tax even more
 - NCSL \$700 M estimate includes business to business
 - Likely gain: \$100 M or less

JLBC

14

Individual Income Tax

- Projected Growth of 4.6% in FY '14 and 5.0% in FY '15

JLBC

15

Components of Individual Income Tax Growth

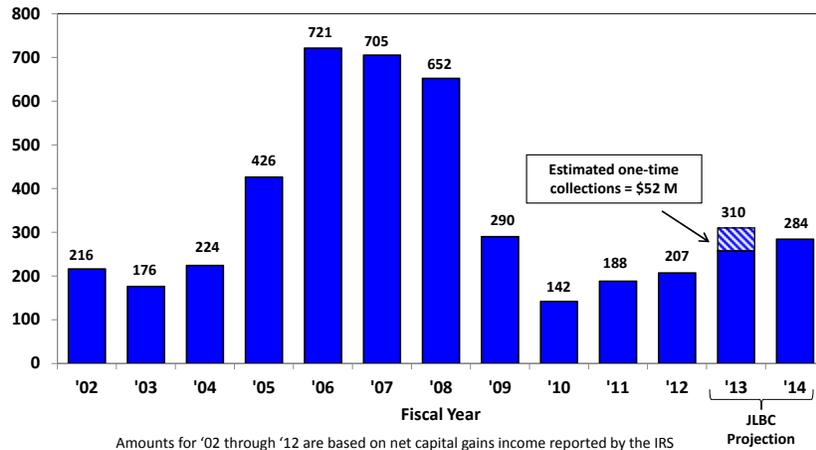

- FY '13 and First Half of FY 14

	FY '13	1 st Half Prelim Actual	
Withholding	3.5%	1.7%	<input type="checkbox"/> Withholding growth below job and wage growth for 1½ years
Payments	16.3%	15.4%	<input type="checkbox"/> '13 payment increase partly due to accelerated capital gains
Refunds	(2.5)%	6.6%	<input type="checkbox"/> '14 payment gain may reflect correction of '13 under payment
Net	10.1%	3.4%	<input type="checkbox"/> Will reevaluate '14 growth with more data

JLBC

16

Estimated Collections from Capital Gains - Historically Volatile Component of Revenue

JLBC

17

FY '13 Tax Acceleration Likely One-Time

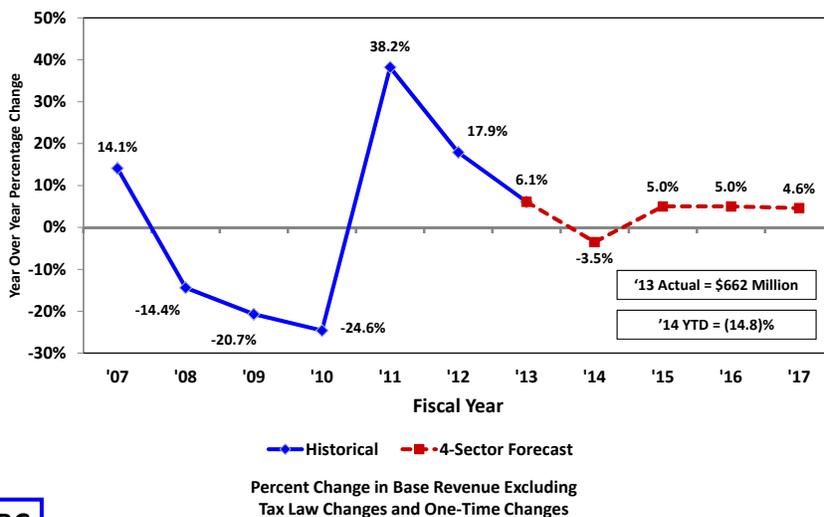

- Possible and actual federal policy changes incentivized companies to issue dividends and stockholders to take capital gains in December 2012
- Collections were accelerated into FY '13, likely reducing collections in future years
- JLBC projections include a \$52 M acceleration of collections into '13 and corresponding reductions of \$(26) M in '14, \$(13) M in '15, and \$(13) M in '16
- Strong TY '13 stock market performance projected to increase capital gains collections by 20% in FY '14

JLBC

18

Corporate Income Tax

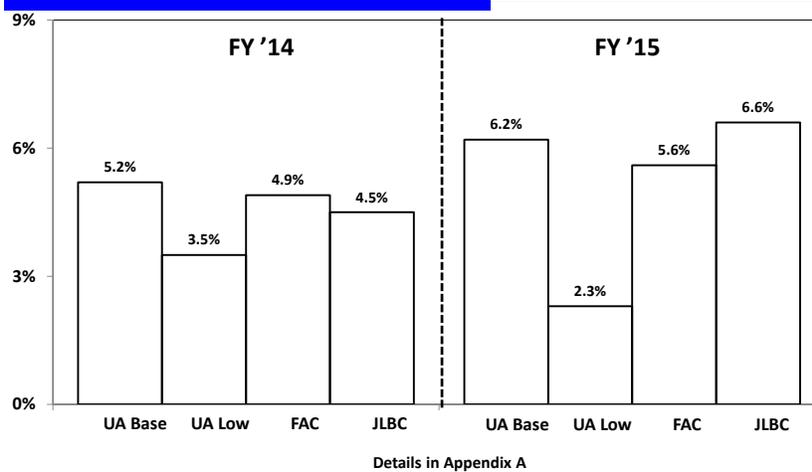

- Projected Change of (3.5)% in FY '14 and 5.0% in FY '15

JLBC

19

Consensus Predicts Base Growth Rate of 4.3% in FY '14 and 5.3% in FY '15*

* After adjusting for small tax categories, the base growth rate is 4.3% in FY '14 and 5.3% in FY '15

JLBC

20

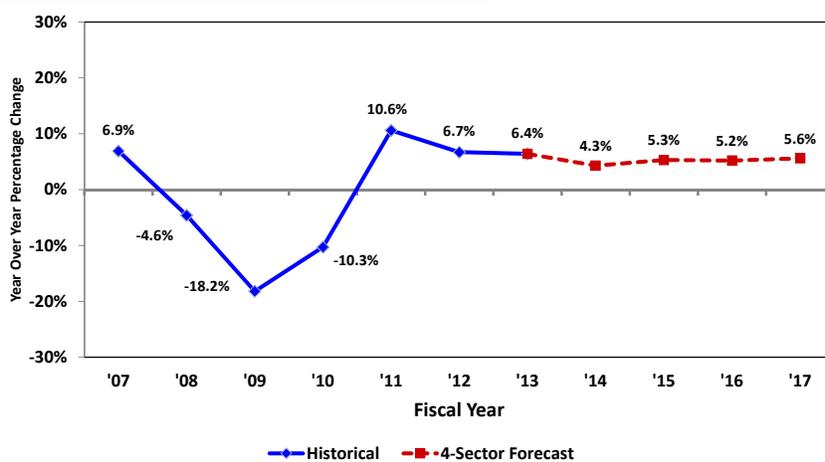

What Are Risks in Forecast?

- ❑ Standard caveats like unknown events and international economics
- ❑ Will Federal Reserve Board successfully “taper” its purchase of bonds without economic disruption?
- ❑ With 2-year budget agreement, federal fiscal policy poses less risk – but 2 caveats
 - Annual federal tax reduction “extender” bill in limbo
 - Prior defense sequester cuts not yet fully implemented
- ❑ 1% change in annual growth over 3 years has a \$575 M impact on balance sheet

JLBC

21

Consensus Forecasts Continuing Moderate Growth Rates Through FY '17

Percent Change in Base revenues excluding balance forward, tax law changes, one-time revenues, and urban revenue sharing

JLBC

22

Major Tax Provisions

- Enacted, but Delayed Effective Date

Provisions	(\$ in Millions)		
	FY '15	FY '16	FY '17
Corporate Rate Phase Down (FY '15 – FY '18)	50	61	62
Corporate Sales Factor Phase In (FY '15 – FY '18)	39	38	32
Capital Gains Reduction	16	12	7
All Other	24	5	8
Total	129	116	109

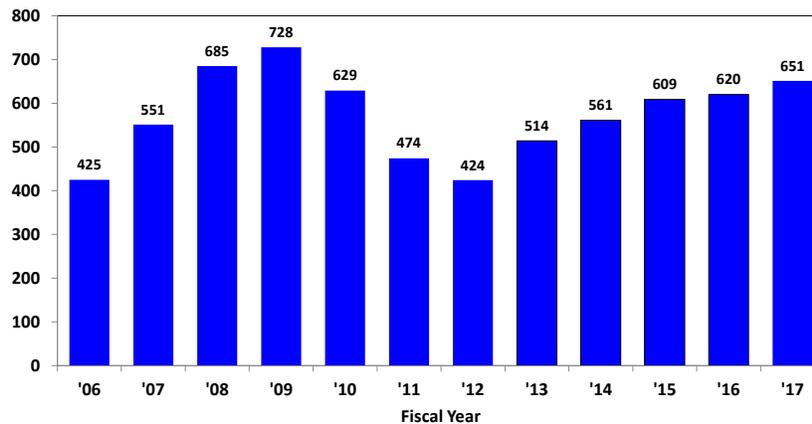

All impacts relative to prior year

JLBC

23

State Shared Income Tax Will Increase by \$48 M in FY '15

– City Share Linked to Income Tax 2 Years Prior

Based on January forecast, '17 estimate is \$631 M

JLBC

24

Detail of FY '15 – FY '17 Revenue Changes

- Excludes Change in Beginning Balance

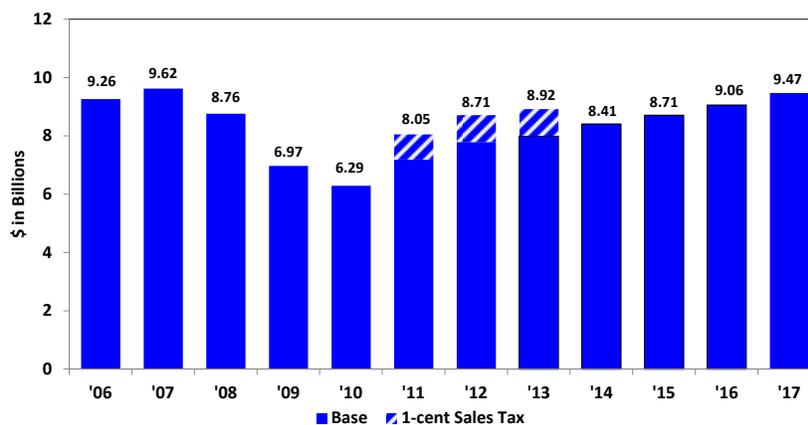

\$ in Millions

	FY '15 Above FY '14	FY '16 Above FY '15	FY '17 Above FY '16
Base Revenue Growth (5.3%/5.2%/5.6%)	477	480	544
Elimination of Fund Transfers	(154)	--	--
Previously Enacted Tax Legislation	(129)	(116)	(109)
Urban Revenue Sharing	(48)	(11)	(31)
Total	146	353	404
Net % Growth	1.7%	4.1%	4.5%

JLBC

25

Consensus Forecasts Remain Below FY '07 High

Excludes balance forward and other one-time revenues. Includes tax law changes and Urban Revenue Sharing.

JLBC

26

Spending Overview

JLBC

FY '15 – FY '17 Projected Spending Changes

	General Fund - \$ in Millions		
	FY '15 Above '14	FY '16 Above '15	FY '17 Above '16
K-12 Formula	167	230	303

Arizona Job Losses Exceeded U.S.

Source: Bureau of Labor Statistics, Seasonally Adjusted Data

Elliott D. Pollack & Company

Arizona Jobs Regained Since Bottom of Cycle Most Industries Yet To Regain Lost Jobs

Elliott D. Pollack & Company

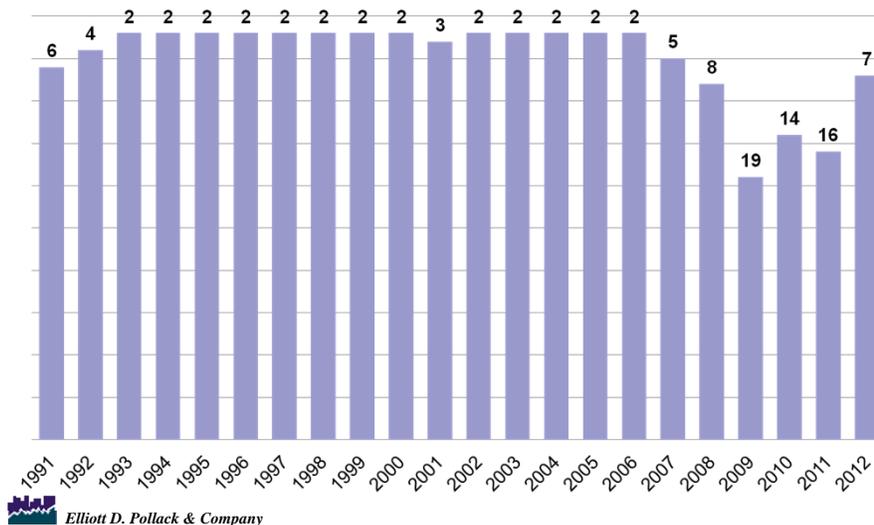

As of Nov 2013

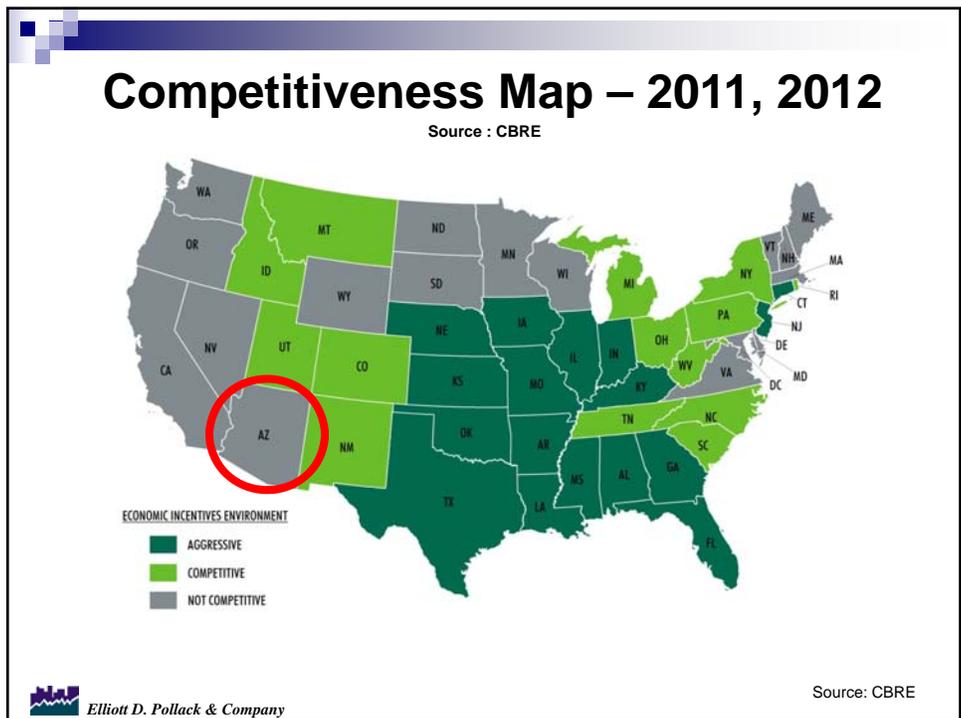

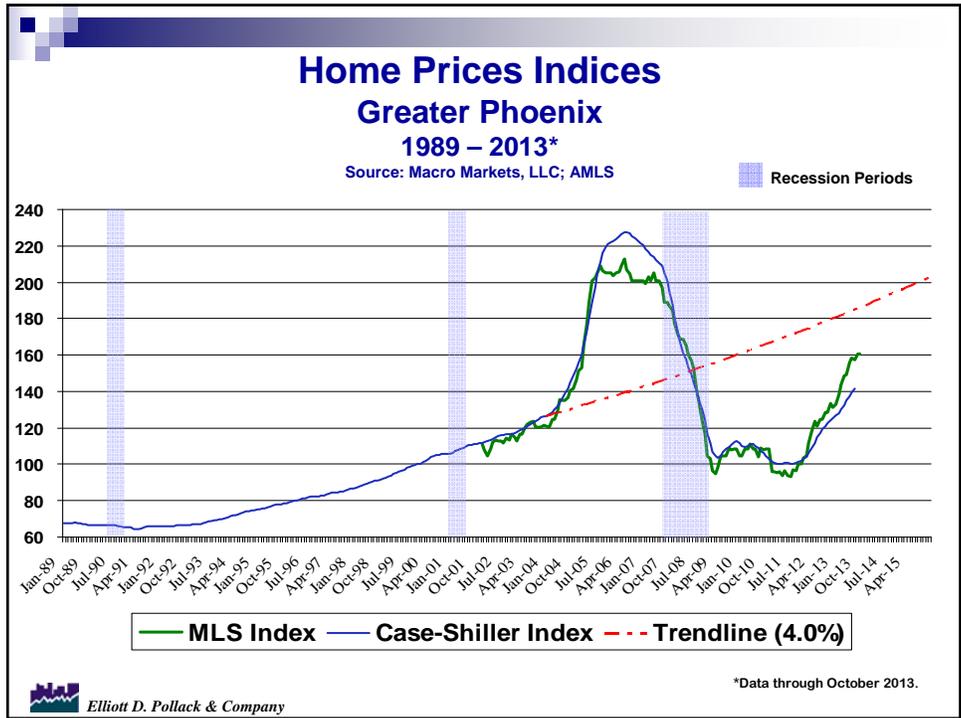

Why did population flows slow?

- Slow job growth,
- High unemployment,
- **Delayed retirement,**
- **Difficulty in selling home,**
- Difficulty in qualifying for a loan.

Arizona Rank - Population Growth 1991-2012

Source: Census Bureau

Summary:

- **State job growth has been weak by AZ standards, but doing ok compared to US.**
- **Population growth is coming back but slowly.**
- **More momentum next year.**
- **Be cautious with the budget a little while longer.**

Economic Indicators

Recent Economic Indicators

January 2014

NATIONAL

According to the U.S. Department of Commerce Bureau of Economic Analysis, the **U.S. Real Gross Domestic Product (GDP)** increased at an annual rate of 4.1% in the third quarter of 2013. This revised estimate represents the largest rate of growth since the fourth quarter of 2011. The acceleration was largely due to increases in inventory investment, personal consumption, and fixed investment. Federal government spending was the only major component of GDP that decreased during the quarter.

The Conference Board's **U.S. Consumer Confidence Index** increased 8.5% in December and 17.1% since December 2012. The latest reading reversed the negative trend experienced during the prior 3 months and marks the largest monthly increase since June 2013. The increase was largely due to an improved job market outlook, as the percent of respondents that expect more job opportunities in coming months increased from 13.1% to 17.1%.

The Conference Board's **U.S. Leading Economic Index** grew by 0.8% in November, the largest monthly percentage increase since April 2013. This represents a continuation of the strong index growth seen in recent months, with the exception of a brief interruption in October. During the month, improving conditions in jobless claims, manufacturing orders, and several measures of financial markets more than offset negative contributions to the index from worsening consumer confidence and building permit creation.

Consumer prices, as measured by the **U.S. Consumer Price Index (CPI)**, increased 0.3% in December and 1.5% above December 2012 prices. Energy prices drove the majority of the monthly growth, increasing 2.1% over November prices. Core inflation (all items except food and energy) only increased 0.1% during the month. Annual inflation measured by the index in the future is expected to strongly influence the pace the Federal Reserve Bank reduces their monetary stimulus to the economy.

ARIZONA

The U.S. Census Bureau released new **state population** estimates last month. According to this information, the population in Arizona as of July 1, 2013 was 6,626,624, a net increase of 75,475, or 1.2%, from July 1, 2012. This was somewhat lower than the 1.3% population growth estimate in the previous year.

The Federal Reserve Bank of Philadelphia's **coincident index** gauges current economic activity in each state. The index combines 4 indicators: employment, average hours worked in manufacturing, unemployment rate, and inflation-adjusted wages.

In November, 46 out of 50 states had increases in their coincident indexes. Arizona's coincident index increased by 0.3% compared to the prior month. Year-over-year, the Arizona index is 2.4% above last year, which is the 33rd highest growth rate in the country. While this is a significant improvement, Arizona's index is still (8.8)% below its peak, which occurred in August 2007. *See Appendix A – Tracking Arizona's Recovery* for additional historical information.

The Federal Reserve Bank of Philadelphia also publishes a **leading index** for each state that forecasts economic conditions for the next 6 months. In addition to the coincident index, Arizona's leading index is based on Arizona housing permits, Arizona initial unemployment insurance claims, national manufacturing delivery times, and the interest rate spread between the 3-month and 10-year Treasury instruments.

Using a 3-month average, Arizona's leading index projects that state GDP will grow at an annualized rate of 2.6% over the next 6 months. This is higher than the revised 2.5% growth projection in October and lower than the 3.5% projection in November 2012.

Housing

The number of Maricopa County **pending foreclosures** decreased from 6,065 in November to 5,974 in December. The December total is significantly below the peak in December 2009 (51,466). *See Appendix A – Tracking Arizona's Recovery.*

“(GDP) increased at an annual rate of 4.1% in the third quarter of 2013...the largest rate of growth since the fourth quarter of 2011.”

Recent Economic Indicators (Continued)

“As part of Medicaid expansion and restoration that began January 1, 2014, the [childless adult] program again allowed new participants. Since the December MFH, the population has increased by 29,064 to reach a level of 96,834.”

The total housing inventory in the Greater Phoenix area increased from 21,095 in December 2012 to 25,360 in December 2013, a 20.2% increase.

In the Metropolitan Phoenix area, the **median price of a single family home** was \$200,000 in November. This represents no change from October, and a 23.1% increase from November of last year.

Another measure of the health of the Arizona real estate market is permitting activity. For the 3-month period through November, a total of 1,291 **single-family building permits** had been issued statewide, a 2.2% increase from last year. While permitting activity has seen gains, the current level of permitting remains far below a more normal 3-month average of 3,000 to 4,000 permits. See *Appendix A – Tracking Arizona’s Recovery*.

In the 3-month period ending in November, a total of 131 **multi-family building permits** were issued in the state. This figure remains well below the peak of activity in April 2007.

State Agency Data

At the beginning of January, total **AHCCCS** caseloads remained at 1.26 million members. Overall, AHCCCS caseloads are currently (0.8)% below January 2013 levels. The traditional acute care AHCCCS population, which consists primarily of lower income children and their parents, decreased by (2.8)% since last month while decreasing (3.3)% since last year. The total population in this program is approximately 855,000.

From July 2011 through December 2013, the childless adult program did not allow new participants. As part of Medicaid expansion and restoration that began January 1, 2014, the program again allowed new participants. Since the December MFH, the population has increased by 29,064 to reach a level of 96,834. As a whole, the Proposition 204 program has increased 12.6% compared to the prior month, and 2.5% from the prior year.

Medicaid expansion also resulted in the creation of a new member population consisting of adults from 100% to 133% of the Federal Poverty Level (FPL). At the beginning of January, 1,369 individuals had enrolled under this new population. Federal requirements that took effect January 1, 2014

may have also increased January caseloads of children and of those previously eligible but not enrolled. Caseload amounts for those groups are unknown though, as they are not reported separately from existing populations. KidsCare I provides coverage for 5,583 children with incomes above those in the traditional population. Its enrollment has declined since a freeze was implemented in January 2010. Enrollment declined (32.6)% from the prior year.

Beginning on May 1, 2012, AHCCCS began a new program, entitled KidsCare II. The state match is provided by voluntary payments from political subdivisions. As of the beginning of January, 37,101 children were enrolled in KidsCare II. KidsCare II expires on January 31, 2014. On January 1, 2014, children in both KidsCare I and KidsCare II up to 133% of the FPL began transferring to the traditional acute care program.

There were 34,566 **TANF recipients** in the state in November, a monthly caseload decrease of (3.4)%. Year-over-year, the number of TANF recipients has declined by (15.5)%. The statutory lifetime limit on cash assistance is 24 months.

The appropriation for TANF cash assistance in the FY 2014 budget funds an average monthly caseload of approximately 34,346 recipients in FY 2014. The 34,566 TANF recipients include 1,691 tribal recipients. These recipients belong to tribes that operate their own TANF program but contract with the state for program administration, meaning there were 32,875 state-funded TANF recipients in November.

The **Supplemental Nutrition Assistance Program (SNAP)**, formerly known as Food Stamps, provides assistance to low-income households to purchase food. In November, there were a total 1.1 million food stamp recipients in the state, a (2.3)% decrease over the prior month. Compared to the same month last year, food stamp participation was down by (3.9)%. The number of SNAP recipients began increasing steadily in July 2007, after several years in the 550,000 to 575,000 range.

The 3-month average count of the **Department of Corrections (ADC) inmate population** increased to 41,009 inmates in December 2013. Relative to the prior 3-month

* Excludes the temporary 1¢ increase that expired at the end of May 2013.

JLBC FINANCE ADVISORY COMMITTEE (FAC) MEMBERS

Dan Anderson has served as Assistant Executive Director for Institutional Analysis for Arizona Board of Regents since July 2002. From 1975 through June 2002, Mr. Anderson held various positions at the Arizona Department of Economic Security, with most of his time as Research Administrator. He has been a member of the FAC since its inception.

John Arnold is the Director of the Governor's Office of Strategic Planning and Budgeting (OSPB).

Brian Cary is Manager of Forecasting, Research and Economic Development for Salt River Project (SRP). Prior to joining SRP in September 2007, he served as Principal Economist on the JLBC staff for 4 years. Mr. Cary has been producing forecasts and analysis for more than 25 years, mostly focused on the energy and financial sectors. He joined the FAC in 1989.

Tracy L. Clark is Data Integrity Manager for the Arizona Department of Transportation. Previously, he was with Arizona State University as the Associate Director of the JPMorgan Chase Economic Outlook Center. He produced national and local economic forecasts, as well as, gathering forecasts from other economists for Center publications. Mr. Clark has been a member of the FAC since 1989.

State Treasurer Doug Ducey serves as the Arizona's Chief Banker and Investment Officer overseeing more than \$9.7 billion in state assets. Treasurer Ducey also serves as the Chairman of Arizona's State Board of Investment, and State Loan Commission.
