New Mexico	3.3%	Nevada	3.2%
Idaho	2.8%	New Mexico	3.4%
Nevada	2.4%	Wyoming	N/A

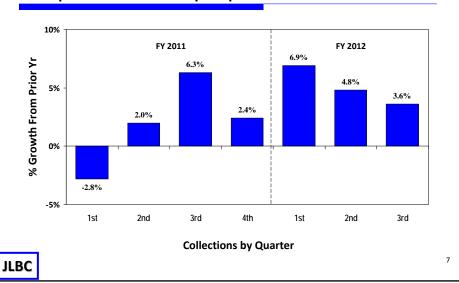

JLBC

Sales Tax Growth Rate Has Slowed Throughout Year

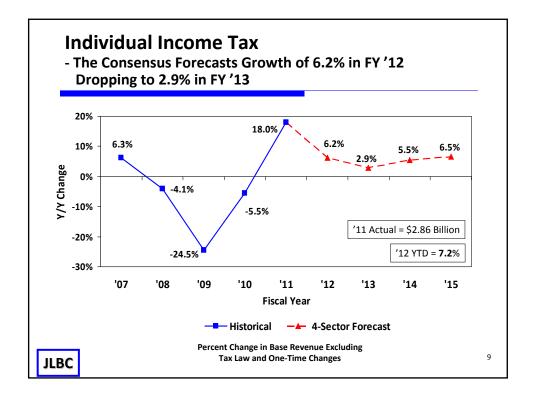

- Comparison to FY '11 Helps Explain FY '12 Path

June 2013 TPT Estimated Payment

- Businesses with an annual sales tax liability above a certain threshold are required make a single estimated advance payment in June of each year
- Legislature lowered liability threshold for estimated payment from \$1 million to \$100,000 for FY '10 thru FY '12
- ☐ The reduced liability threshold generated a one-time revenue gain of \$48 million in FY '10
- When threshold reverts to \$1 million in FY '13, state will incur an estimated one-time revenue loss of \$(52) million

JLBC

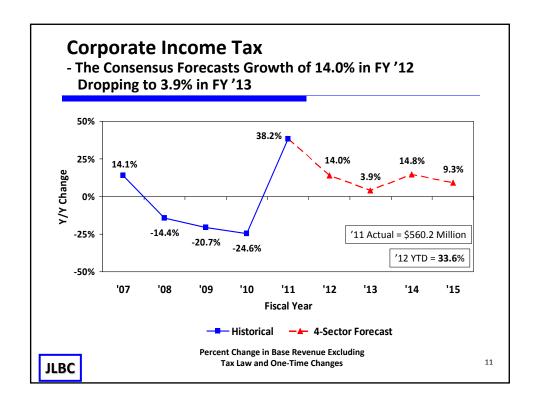

Components of Individual Income Tax Growth

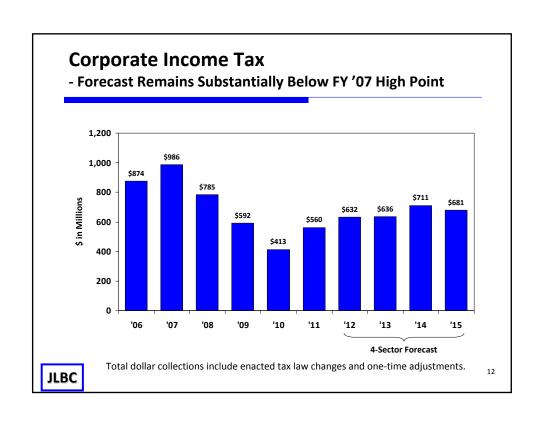

- First Three Quarters of FY '12

Withholding 3.1%
Payments 29.5%
Refunds 4.5%
Net 7.2%

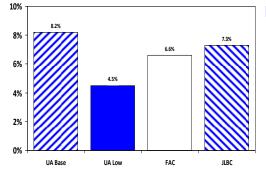

- ☐ Growth appears to be in line with job and wage growth
- Payment increase overstated due to large one-time payment in January – absent this payment, growth would be 12.3%
- Refunds appear to be on track for first increase since FY '09

JLBC

☐ FY '12 YTD collections:

- 6.7% greater than FY '11 collections
- \$17 million or 0.3% over the January Baseline forecast

Details in Appendix A

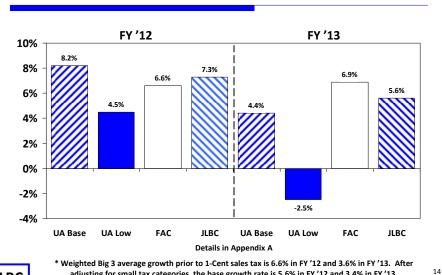

* Weighted Big 3 average growth prior to 1-Cent sales tax is 6.6% in FY '12 . After adjusting for small tax categories, the base growth rate is 5.6% in FY '12.

JLBC

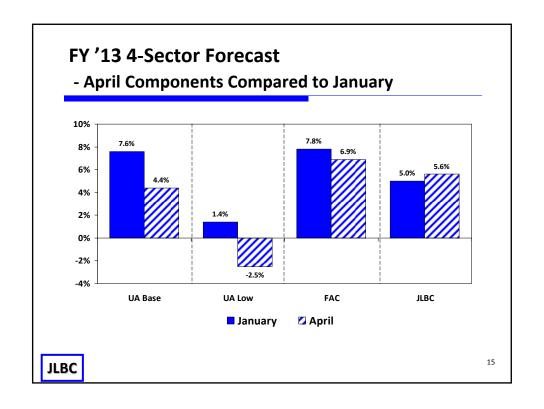

JLBC

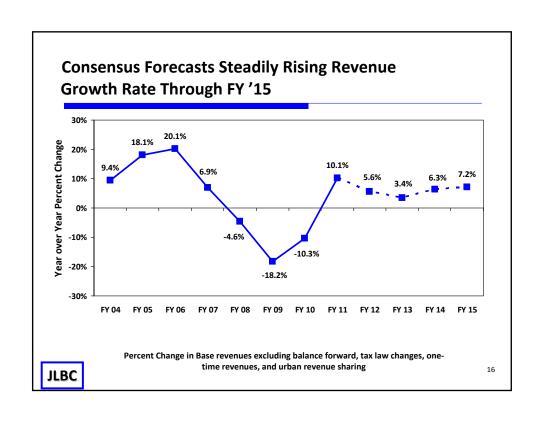

13

Consensus Predicts Base Growth Rate Declining from 5.6% in FY '12 to 3.4% in FY '13*

adjusting for small tax categories, the base growth rate is 5.6% in FY '12 and 3.4% in FY '13.

Two Potential Issues With 4-Sector

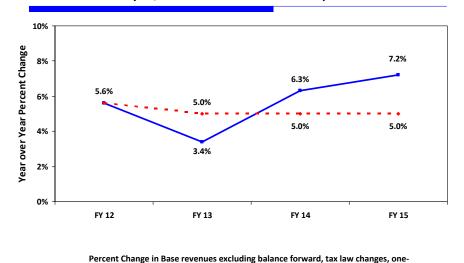

- 1) 3.4% FY '13 projection reflects slower average growth than many general economic projections
- 4-Sector growth rates accelerate in out-years
 budget forecasts usually become more cautious in the long run

JLBC

17

An Alternate Scenario Assumes 5% Annual Growth through FY '15

- In the FY '12-'15 Cycle, Produces Total Revenue Comparable to 4-Sector

time revenues, and urban revenue sharing

JLBC

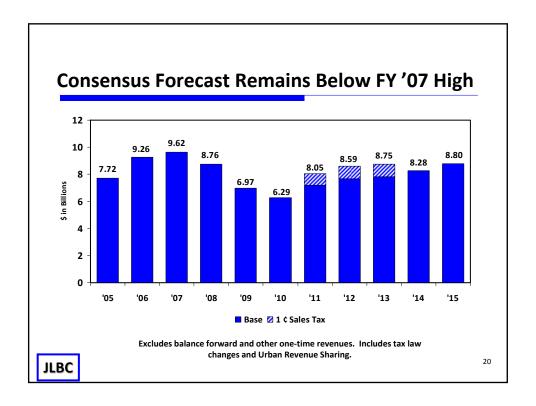

Comparison of Revenue Forecasts

- Base General Fund Percentage Revenue Growth

	FY '12	<u>FY '13</u>	<u>FY '14</u>	<u>FY '15</u>
January 4-Sector	5.3%	5.1%	6.9%	7.9%
April 4-Sector	5.6%	3.4%	6.3%	7.2%
April – Alternate	5.6%	5.0%	5.0%	5.0%
Executive <u>1</u> /	5.3%	6.5%	7.3%	6.4%

⁻The April estimate has slow FY '13 growth, followed by accelerating economy in FY '14 and FY '15.

JLBC

⁻⁻ The FY $^\prime 13$ 4-sector may be too low and out-year budgets are not usually based on accelerating growth.

⁻⁻ The Alternative scenario produces a comparable amount of revenue to the April 4-sector.

^{1/} Stated relative to January FAC prior year estimate for comparability.

Risks to the Economic Forecasts

- ☐ Impact of international economy uncertain
 - Difficult to predict outcome, leading some national forecasters to place recession risk at 20%
- ☐ Cannot predict natural disasters or political events ahead of time
 - Iran and Israel
 - Gasoline prices
- ☐ Effect of future federal tax and spending decisions

JLBC

21

Spending Overview

JLBC

Baseline Revision in Long Term Spending Estimates

- Relative to Appropriation Committee Estimates
- Federal Health Care cost has been re-estimated from \$421 M to \$210 M in FY '15
 - Reflects further analysis of Executive's \$421 M estimate
 - Assumes childless adult enrollment returns to pre-freeze levels plus 50% participation of currently eligible but not participating individuals
- FY '15 New School construction costs projections have declined from \$150 M to \$56 M
 - Reflects reduction in SFB's projection of new school openings
- See Attachment B for more details

JLBC

23

FY '12 - '15 Projections

- ☐ The projections include the April 4-sector revenue estimates and the spending plan approved by the Appropriations Committee in February
- ☐ The ending balance estimates are affected by whether the prior year budget has a surplus or shortfall

	<u>′12</u>	<u>'13</u>	<u>'14</u>	<u>'15</u>
Revenues	\$8.7 B	\$8.5 B	\$8.3 B	\$8.8 B
Spending	\$8.5 B	\$8.5 B	\$8.7 B	\$9.2 B
Balance (W/O Carryforward)	\$187 M	\$ 80 M	\$(402) M	\$(410) M
Balance (W/Carryforward)	\$187 M	\$267 M	\$(134) M	\$(545) M

JLBC

Change in Ending Balance Projections

The lower April 4-sector revenue estimates would lower the projected FY '13 ending balance and increase the FY '15 shortfall

	<u>'12</u>	<u>′13</u>	<u>'14</u>	<u>'15</u>
Balance with January Revenue	\$137 M	\$303 M	\$ 69 M	\$(380) M
Balance with April Revenue	\$187 M	\$267 M	\$(134) M	\$(545) M

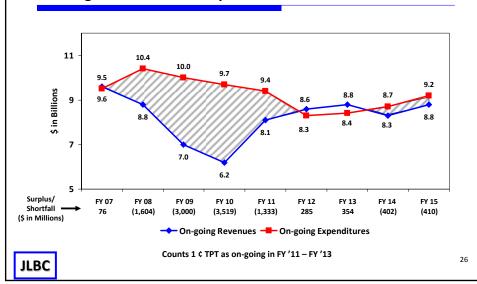

Includes carryforward from prior year

JLBC

25

Structural Balance – April Revenue Estimate vs Appropriation Committee Spending

- Strong FY '13 Position Helps State

The Caveats

- New permanent initiatives would reduce the FY '13 balance and increase the FY '14 and FY '15 shortfalls
- ☐ A 3-Year budget forecast is inherently unreliable
 - A 2% error could change revenues by \$500 M in the 3rd year
- Serious federal deficit reduction could increase state costs
- Pending Supreme Court decision on federal health care and other state "budget" lawsuits could affect long term costs

Appendix B: Summary of Baseline Spending Adjustments

 $The \ budget \ proposal \ heard \ in \ the \ House \ and \ Senate \ Appropriations \ Committees \ originally \ assumed \ an \ FY \ 2015 \ shortfall \ of \ \(675) million. This shortfall estimate included \$421 million for costs associated with federal healthcare requirements and \$150 for School Facilities Board new construction costs

Based on further analysis of these issues, the estimate of federal healthcare requirement costs has been reduced to \$210 million, while the SFB cost projection has been reduced to \$56 million.

The following summary provides further detail of these estimates.

AHCCCS

FY 14 Federal Health Care Projection - \$40M

- · Program starts in January 2014.
- · New enrollees include:
 - o Newly eligible Any person with income from 100 to 133% FPL.
 - Currently eligible Any person with income from 0 to 100% FPL, who is not a childless adult. Publicity of federal
 health care is expected to encourage some of these already eligible people to enroll.
 - o Previously eligible childless adults An adult without children 18 years and younger who has income from 0 to 100% FPL.
- . 165,000 new enrollees in Medicaid in FY 14 as a result of federal health care changes, about half of the total expected to ultimately enroll.

 o 40,000 (35%) of the newly eligible.

 - o 65,000 (25%) of the currently eligible.

o 60,000 (50%) of the previously eligible childless adults from 0 to 100%.

The federal government covers 100% of costs for the newly eligible, 65% for the currently eligible, and 82% for restored childless

JLBC

29

Appendix B (continued)

- A partially offsetting savings is realized from the enhanced federal match of 82% (up from 65%) for 120,000 still enrolled
- Capitation rates increase 5% in FY 14.

FY 15 Federal Health Care Projection - \$210M

- · First full year of implementation.
- The remaining portion of expected enrollees comes onto Medicaid, resulting in a total of 325,000 new enrollees from federal health care changes.

 o 75,000 (70%) of the newly eligible
- 135,000 (50%) of the currently eligible.
 115,000 (100%) of the previously eligible childless adults from 0 to 100% FPL.
- The federal match for previously eligible childless adults increases from 82 to 85% of costs.
 A partially offsetting savings is realized from the enhanced federal match of 85% for 120,000 still enrolled childless adults.
- Capitation rates increase 5% in FY 15.

School Facilities Board

FY 15 New School Construction Projection - \$56 M

- Estimate based on projects requested by the School Facilities Board in FY 2013 budget request.
- Eliminates projects which have been cancelled due to lower than expected enrollment forecasts.
 Cost estimate incorporates all new construction projects scheduled to open through FY 16. Assumes entire funding amount is appropriated in FY 15.

Elliott D. Pollack & Company

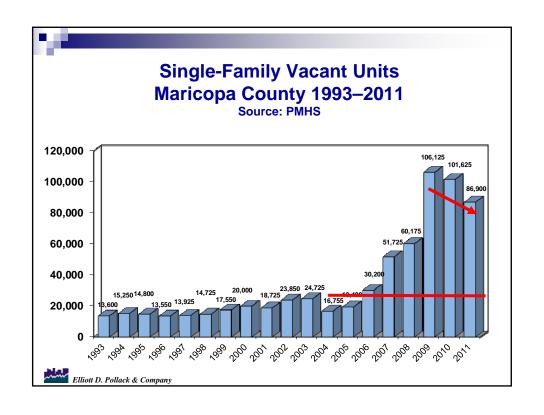

Negative Equity in Homes Affects Ability to Sell or Buy (& Move!)

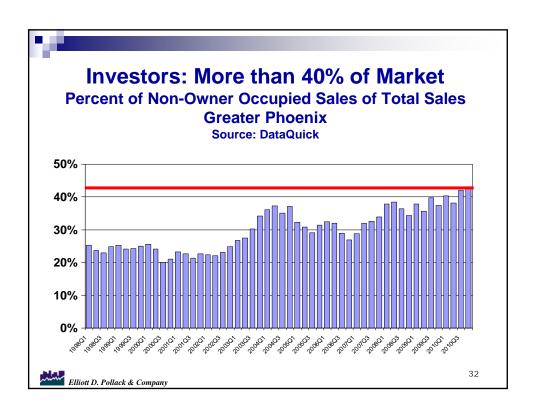

Source: First American Core Logic

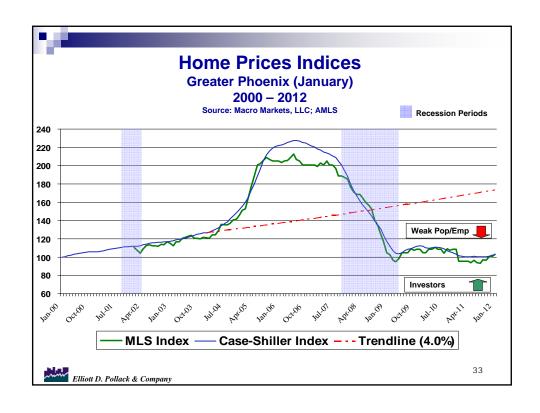

Just over 20% of homes with mortgages in U.S. have negative equity.

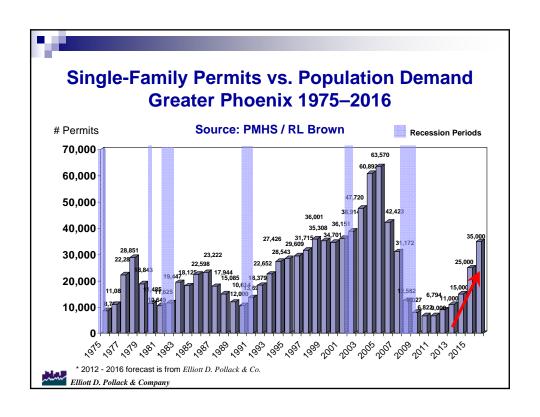

(AZ about 50%)

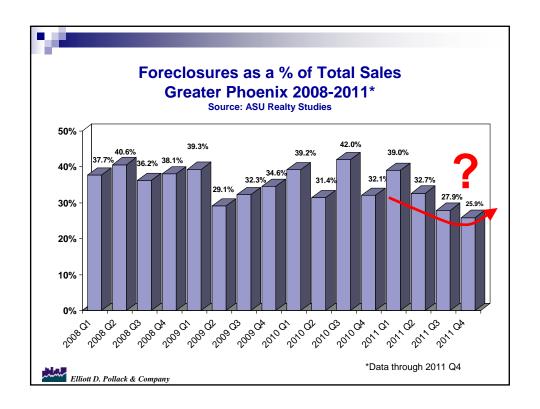

Performance Measures?

Falling far later results in:

- Strong rates of growth that seemingly don't match the reported "levels" of activity.
- Strong rankings that seemingly don't match what we read in the paper.
- Opinions that the world is 100% different than before. Not necessarily true, we need to maintain some perspective.

Back to "Normal?"

• Excess Housing = 2015/16

• Excess Comm. = 2015/16

 Retail Sales = 2015/16

• Employment = 2015/16

• *Govt. Revenues* = 2015/16

Elliott D. Pollack & Company

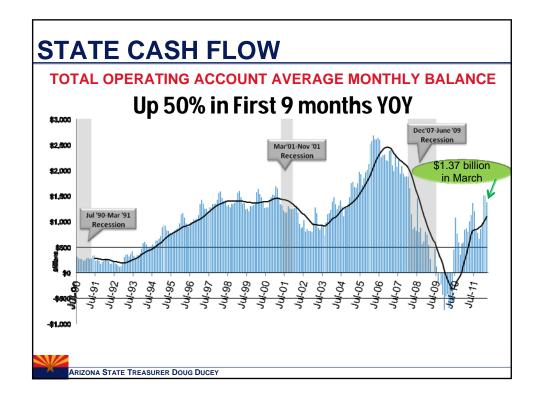

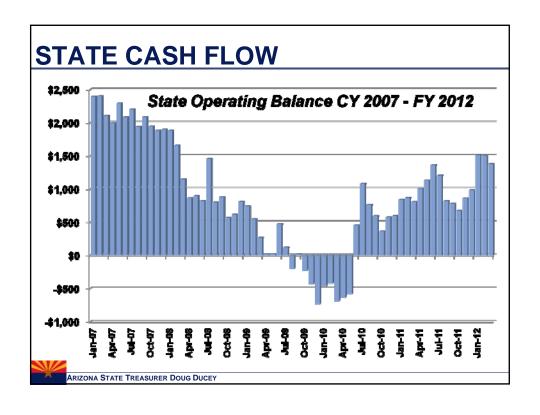

Final Notes:

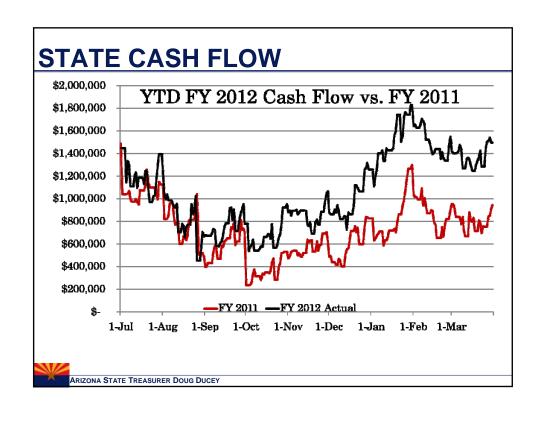

- One data point does not make a trend,
- The State is going to be a leader in growth,
- Revenues will continue to improve,
- Proper planning now can significantly mitigate problems in 2014.

^{1/} The (16.8)% decline in April retail collections does not reflect economic activity. In April about \$35 million collected throughout the past year was reclassified to the communications category instead of retail. Without this reclassification, retail collections would have been slightly positive for the month.

Economic Indicators – March 2012

NATIONAL

The Conference Board's **Leading Economic Index** increase of 0.6% in January marked the fourth straight month of growth in the index. January's increase, primarily the result of improvement in the financial climate and growth in average manufacturing hours worked, signals continued growth in the next few months.

The Conference Board's **U.S. Consumer Confidence Index** surged by 9.3 points in January, to a reading of 70.8. This amount represents the index's highest reading in the last 12 months and a month-over-month percentage increase of 15.1%. Consumer optimism was likely bolstered in February by continued reports of a steadily improving labor market and a modest upward revision to 2011 gross domestic product. However, gasoline prices have the potential to dampen confidence in coming months if they continue their ascent.

ARIZONA

Housing

The number of Maricopa County **pending foreclosures** decreased from 18,287 in January to 17,833 in February. The February total is (65.3)% below the peak in December 2009 (51,466). See <u>Tracking Arizona's Recovery</u> for additional historical information.

Another measure of the health of the Arizona real estate market is permitting activity. Single-family housing permits showed a slight improvement in January 2012. For the 12 - month period through January, a total of 10,909 single-family building permits had been issued statewide, a 2.9% increase from last year. See <u>Tracking Arizona's Recovery</u> for additional historical information.

The performance of the multi-family housing sector has been significantly better than single-family housing. For the 12-month period ending in January, a total of 2,984 multi-family building permits had been issued in the state, a 101.8% increase from the prior year. Even with this growth, multi-family permitting activity still remains (77)% below the peak of activity in June 2006.

Employment

As a result of the annual benchmarking revision of establishment survey data, the Department of Administration (DOA) reported in March that Arizona nonfarm employment growth in 2010 and 2011 was marginally higher than previous estimates had indicated. By incorporating more comprehensive data based on unemployment insurance records, the Bureau of Labor Statistics (BLS) determined that the state added on average 4,700 more jobs per month in both 2010 and 2011 than previously reported. The historical revision was relatively small compared to previous years.

The largest positive revision occurred in the professional and business services sector of the economy. This industry added on average 6,200 more jobs per month in 2011 than previously reported. A large portion of these job gains were attributable to temporary staffing agencies. In the past, increases in temporary employment have typically been followed by an acceleration in permanent job growth.

The benchmarking process revealed that the educational and health services sector did not perform as well in 2011 as previous estimates had shown. Prior to the March revision, employer survey data indicated that private education and health care employment grew by 4.5% in 2011. The revised data indicated that the actual 2011 job growth in this sector was (1.6)% less, or 2.9%. In spite of this downward revision, this industry still remains one of the strongest engines of job growth in Arizona.

The latest estimate of **nonfarm employment** showed that the state shed (34,300) jobs in January over December in the prior year. Job losses typically occur in January when the holiday season comes to an end. The average job reduction for the month of January in the prior 10 years was (59,700). Compared to January 2011, nonfarm employment is up by 1.6%, or 37,800 jobs.

As of January of 2012, nonfarm employment was (303,000) jobs below pre-recession levels. While this figure is somewhat overstated due to seasonal factors, it still shows that the road to full recovery is not months but years away.

"As a result of the annual benchmarking revision of establishment survey data, the Department of Administration (DOA) reported in March that Arizona nonfarm employment growth in 2010 and 2011 was marginally higher than previous estimates had

indicated."

Economic Indicators (Continued)

Manufacturing employment shrank by (0.1)%, or (100) jobs, in January over December. The state typically loses manufacturing jobs in January. The industry employed 0.7% more workers in January 2012 than January 2011. The March benchmark revision revealed that the manufacturing sector did not grow as quickly in 2011 as previously reported. New, revised data indicates that manufacturing employment increased by 0.8% in 2011 compared to the previous estimate of 1.9%.

Construction employment also decreased by (100) jobs, month over month, in January. This was significantly less than the 10-year average loss for January of (5,700) jobs. Year over year, construction employment is up by 5.1%. The March data revision indicates that construction employment bottomed out in February 2011. Despite recent gains, construction employment remains (55)% below peak in June 2006.

The household survey data used to estimate the state's unemployment rate was also revised in March. The historical revision, which covered the period from 2007 to 2011, showed that state's jobless rate during the recession was significantly higher than first estimated. The average unemployment rate in 2010 was on average 0.5% higher than previously reported. The corresponding figure for 2011 was 0.3%. This revision in the unemployment rate data contrasts with the higher than anticipated overall employment figure as the 2 measures are developed using samples from 2 separate surveys.

State Agency Data

In March, total AHCCCS caseloads equaled 1.30 million members, a (1.0)% decrease from the prior month. Overall AHCCCS caseloads are currently (2.6)% below March 2011 levels.

The traditional AHCCCS population, which consists primarily of lower-income children and their parents, decreased (0.6)% from February and increased 5.3% from a year ago. The total population in this program is almost 900,000. This growth has been offset by declines in other populations. The Proposition 204 childless adult program has not allowed new participants since July and this population has declined (86,185) since July to 138,307. Of the decline, (10,757) is attributed to members who were transferred to the SSI program. As a whole, the Proposition 204 program has declined (2.8)% compared to the prior month, and (21.5)% from the prior year.

There were 39,454 **TANF recipients** in the state in February, a monthly caseload decrease of (0.7)% Year-over-year, the number of TANF recipients has declined

by (6.8)%. This decline is the result of changes to the statutory lifetime limit a person may receive cash assistance. The FY 2011 budget reduced the lifetime limit to 36 months. The FY 2012 budget further reduces this limit to 24 months. Previously, the maximum had been 60 months. The FY 2012 budget assumed caseloads of approximately 36,000 in FY 2012.

The Supplemental Nutrition Assistance Program (SNAP), formerly known as Food Stamps, provides assistance to low-income households to purchase food. In February, there were a total 1.1 million food stamp recipients in the state, a (1.2)% decrease over the prior month. Compared to the same month last year, food stamp participation was up by 8.5%. The number of food stamp recipients began increasing steadily in July 2007, after several years in the 550,000 to 575,000 range.

The 3-month average count of the **Department of Correction's (ADC) inmate population** decreased to
39,901 inmates between December 2011 and February
2012. Relative to the prior 3-month period, the population
has decreased by (64) inmates. Compared to a year
ago, the population has declined by (162) inmates.

JLBC FINANCE ADVISORY COMMITTEE (FAC) MEMBERS

Dan Anderson has served as Assistant Executive Director for Institutional Analysis for Arizona Board of Regents since July 2002. From 1975 through June 2002, Mr. Anderson held various positions at the Arizona Department of Economic Security, with most of his time as Research Administrator. He has been a member of the FAC since its inception.

Dr. Jay Q. Butler is Professor Emeritus of Real Estate in the Morrison School at Arizona State University at the Polytechnic campus. He also holds the Arizona Realtors Professorship in Real Estate. Dr. Butler has been at ASU since 1972. He has been a member of the FAC since 1994.

Brian Cary is Manager of Forecasting, Research and Economic Development for Salt River Project (SRP). Prior to joining SRP in September 2007, he served as Principal Economist on the JLBC staff for 4 years. Mr. Cary has been producing forecasts and analysis for more than 25 years, mostly focused on the energy and financial sectors. He joined the FAC in 1989.

Tracy L. Clark is Data Integrity Manager for the Arizona Department of Transportation. Previously, he was with Arizona State University as the Associate Director of the JPMorgan Chase Economic Outlook Center. He produced national and local economic forecasts, as well as, gathering forecasts from other economists for Center publications. Mr. Clark has been a member of the FAC since 1989.

State Treasurer Doug Ducey serves as the Arizona's Chief Banker and Investment Officer overseeing more than \$9.7 billion in state assets. Treasurer Ducey also serves as the Chairman of Arizona's State Board of Investment, and State Loan Commission. He also serves as the State's Surveyor General and is a member of the State Land Selection Board. With a degree in Finance from Arizona State University, he was inducted into the W.P. Carey School of Business *Hall of Fame* in 2004 and joined the Treasurer's Office from the private sector where he built and developed two Arizona businesses.

Pete Ewen is Chief Economist and Manager of the Revenue and Fuel Analysis and Forecast Group at Pinnacle West. He has been with Arizona Public Service/Pinnacle West for more than 20 years.

John C. Lucking is President of ECON-LINC, an economic consulting firm. Dr. Lucking also serves as a director for Sanu Resources Ltd., an international mineral exploration company, and as a trustee for several municipal bond mutual funds. Previously, he served as Chief Economist for Bank One Arizona and as the Executive Director of the Governor's Partnership for Economic Development (GSPED). Dr. Lucking has been a member of the FAC since 1987.

Georganna Meyer is Chief Economist for the Arizona Department of Revenue. She has been a member of the FAC since 1984.

Dr. Aruna Murthy is Director of Economic Analysis for the Office of Employment and Population Statistics at the Arizona Department of Administration.

Elliott D. Pollack is President of Elliott D. Pollack and Company in Scottsdale, Arizona, an economic and real estate consulting firm established in 1987. Mr. Pollack served as Chief Economist of Valley National Bank in Arizona for 14 years prior to establishing his consulting firm and is currently a member of the Economic Estimates Commission. He has been a member of the FAC since its inception.

Debra J. Roubik is the Chief Economist and Founder of VisionEcon, a consulting firm. Ms. Roubik began her career as an economist at Chicago's Harris Trust and Savings Bank where she was responsible for the bank's macroeconomic model. She also held the positions of Vice President of Stotler Economics, Manager of Revenue Forecasting for Atchison Topeka & Santa Fe Railway, and Economist for the Arizona Department of Economic Security's Research Administration. Ms. Roubik has been a member of the FAC since 2001.

Martin Shultz is a Senior Policy Director in Brownstein Hyatt Farber Schreck's Phoenix Office. Prior to joining Brownstein, Mr. Schultz was the Vice President of Government Affairs at Pinnacle West Capital Corporation and its subsidiaries. Mr. Shultz has been a member of the FAC since 1984.

Randie Stein joined the Investment Banking firm Stone & Youngberg as a Vice President in the Public Finance Department in September 2004. Ms. Stein has 10 years of experience as a fiscal advisor and Finance Committee analyst in the State Senate and as an economist/budget analyst with the Joint Legislative Budget Committee, and is a former staff director of the School Facilities Board. She has been a member of the FAC since 2005.

Marshall J. Vest is Director of the Economic and Business Research Center at the University of Arizona's Eller College of Management. Mr. Vest has headed the College's Forecasting Project for over 30 years. He is past-president of the Association for University Economic and Business Research, whose membership includes university-based applied research centers from across the country. Mr. Vest has been a member of the FAC for over 30 years.

John Arnold is the Director of the Governor's Office of Strategic Planning and Budgeting (OSPB).
