APPROVAL OF MINUTES

Hearing no objections from the members of the Committee to the minutes of September 28, 2011, Chairman Don Shooter stated that the minutes would stand approved.

ARIZONA DEPARTMENT OF ADMINISTRATION - Review of the Arizona Public Safety Communication Advisory Commission.

Mr. Brett Searle, JLBC Staff, stated that this item is a review of the Arizona Public Safety Communication Advisory Commission's (PSCC) FY 2011 annual report and progress of the statewide interoperability design project. The JLBC Staff presented options to the Committee.

Representative Kavanagh moved that the Committee give a favorable review to PSCC's FY 2011 annual report and progress for the statewide interoperability design project. The motion carried.

EXECUTIVE SESSION

Representative Kavanagh moved that the Committee go into Executive Session. The motion carried.

At 8:08 a.m. the Joint Legislative Budget Committee went into Executive Session.

(Continued)

Representative Kavanagh moved that the Committee reconvene into open session. The motion carried.

At 8:58 a.m. the Committee reconvened into open session.

A. Arizona Department of Administration, Risk Management Services - Consideration of Proposed Settlements under Rule 14.

Representative Kavanagh moved that the Committee approve the recommended settlement proposals by the Attorney General's Office in the cases of:

- *Booker v. State, et al.*
- *Doane v. State, et al.*

The motion carried.

B. Arizona Department of Administration - Risk Management Annual Report.

This item was for information only and no Committee action was required.

C. JLBC Annual Performance Review per Rule 7.

This item was for information only and no Committee action was required.

Without objection, the meeting adjourned at 9:00 a.m.

SUBJECT: Arizona Department of Administration - Review of Requested Exchange of Fund Transfers for the Department of Environmental Quality

Request

The FY 2012 General Appropriation Act requires the Joint Legislative Budget Committee (JLBC) to review agency requests to transfer monies between their own funds in order to comply with FY 2012 transfers required by the act. On behalf of the Department of Environmental Quality (ADEQ), the Arizona Department of Administration has requested Committee review of fund transfers pursuant to this bill.

These fund exchanges were intended to resolve situations in which a fund with insufficient cash to achieve the mandated fund transfer could get additional monies to ensure that transfer was completed and were not intended to resolve other issues.

Recommendation

The Committee has at least the following 2 options:

1. A favorable review of some or all of the proposed exchange of fund transfers.

2. An unfavorable review.

ADEQ proposes to replace the Water Quality Fee Fund transfer and supplement the Indirect Cost Recovery Fund transfer with monies from the Emissions Inspection Fund. Both the Water Quality Fee Fund and the Indirect Cost Recovery Fund are projected to have negative FY 2012 ending balances, if there is no fund exchange.

(Continued)

Analysis

Table 1 summarizes the requested fund transfer exchanges.

Table 1

ADEQ Requested FY 2012 Fund Transfer Exchanges

Original Fund [1/]	Agency Proposed Fund [2/]	Proposed Transfer Amount
Indirect Cost Recovery Fund	Emissions Inspection Fund	$2,304,700
Water Quality Fee Fund	Emissions Inspection Fund	841,000
Subtotal		*$3,145,700*

1/ Fund source for transfers in budget.
2/ Funds from which agencies are requesting transfers in order to accommodate the mandated transfer.

The General Appropriation Act requires ADEQ to transfer $2,664,600 from the Indirect Cost Recovery Fund to the General Fund. The department is instead requesting to transfer $2,304,700 from the Emissions Inspection Fund along with a reduced transfer of $359,900 from the Indirect Cost Recovery Fund. The General Appropriation Act also requires ADEQ to transfer $841,000 from the Water Quality Fee Fund. The department is instead requesting to transfer the entire $841,000 from the Emissions Inspection Fund.

Prior to these proposed adjustments, the General Appropriation Act required ADEQ to transfer $8,054,300 from the Emissions Inspection Fund in FY 2012. ADEQ's proposed new transfers of $3,145,700 would increase the overall Emissions Inspection Fund transfer to $11,200,000 in FY 2012.

SUBJECT: Department of Environmental Quality - Review of Waste Fee Rules

Request

Laws 2011, Chapter 220 made several statutory changes to the Department of Environmental Quality's (ADEQ) funding structure for its Solid and Hazardous Waste Programs. Those changes allow the department to establish program fees in rule prior to September 30, 2013. As part of this process, the department is submitting the proposed fees for Committee review.

After Committee review, ADEQ must also complete the Governor's Regulatory Review Council (GRRC) process. The rules are scheduled to go into effect July 1, 2012.

Recommendation

The Committee has at least the following 2 options:

1. A favorable review.

2. An unfavorable review.

In total, annual solid waste fees would be $250,000 less than their current level, while hazardous waste fees would rise by $500,000.

Analysis

Since FY 2008, the department's funding has shifted from the General Fund to fees with the intent of making the department self-funding. To address a permanent funding source for the Solid Waste and Hazardous Waste Programs, Laws 2011, Chapter 220 allowed the department to put the existing temporary fees for these programs in rule and then gave the department until September 30, 2013 to set a new permanent fee structure in place for these programs using the normal public rule making process. In addition, the legislation requires the proposed fees to be submitted to the Committee for review. Any changes to these fees after September 30, 2013 would require statutory authorization.

(Continued)

Solid Waste

ADEQ proposes to operate the Solid Waste Program at an expenditure level of $2.3 million. In comparison, they collected $1.4 million in solid waste revenues in FY 2011, and expended $1.1 million. Another $382,000 was transferred to the General Fund.

The proposed new solid waste fees would actually generate less revenue, $1.1 million compared to $1.4 million currently. In addition, ADEQ intends to use $1.2 million of recycling fees for this program. This combined funding of $2.3 million would provide for 2 plan reviewers and 7 solid waste inspectors, including 3 inspector positions that are currently vacant, plus technical and support staff.

ADEQ charges tipping fees at landfills regulated by the department that are deposited into the Recycling Fund. There is a fee of 25¢ for each 6 cubic yards of uncompacted solid waste, 25¢ for each 3 cubic yards of compacted solid waste, and 25¢ per ton of solid waste received at landfills regulated by the department. In comparison, solid waste fees are charged to landfill operators.

The details for the 5 new solid waste fees and revised solid waste fees are shown in *Tables 1* and *2* respectively. Most of the rules would require an initial start-up fee to obtain registration, a permit, or license. Most of the rules would also require an annual fee thereafter. Three of the revised fees are lower than the current fees. These fees were raised in FY 2011 under the department's temporary fee authority. The proposed fees represent an increase over the fees prior to the temporary fee authority.

Table 1

New Solid Waste Fees

Fee	Initial	Annual
New Waste Tire Collection Site Registration	$500	$75
Used Tire Storage Site Registration	500	75
Septage Hauler Vehicle License	250	75
Solid Waste General Permit *	750 - 15,000	100 - 1,000

Self-Certification Transfer Registration	$200 - $500	N/A	$1,000	$500
Self-Certification Waste Tire Registration	$200 - $500	N/A	$1,000	$250
Special Waste Management/Handling	$10.00/ton	N/A	$4.50/ton	N/A

* Varies by tonnage and availability to the general public.

Hazardous Waste

ADEQ proposes to operate the Hazardous Waste Program at an expenditure level of $3.1 million. In comparison, they collected $1.2 million in hazardous waste revenues in FY 2011 and expended $942,000. Another $69,800 was transferred to the General Fund.

The proposed hazardous waste fees would generate approximately $1.7 million. ADEQ would fund the remaining $1.4 million from federal grants. This funding would provide for 2.8 permit writers, 7 inspectors, and 13 technical and support staff.

There are various proposed changes to the hazardous waste fee structure *(See Table 3)*. Fees are based on tonnage of hazardous waste, hours required to process a permit, or per each unit licensed. The department is also proposing yearly maximum fee levels per entity. The 3 disposal fees are lower than the current fees. These fees were raised in FY 2011 under the department's temporary fee authority. The proposed fees represent an increase over the fees prior to the temporary fee authority.

Re: ADEQ's Proposed Solid Waste and Hazardous Waste Fee Rules

Dear Chairman Shooter:

Pursuant to Laws 2011, 1st regular session, Chapter 220 (House Bill 2705), the Arizona Department of Environmental Quality (ADEQ) respectfully requests to be placed on the Joint Legislative Budget Committee's (JLBC) agenda for its November 17, 2011 meeting to review ADEQ's proposed Solid Waste Fee Rule and Hazardous Waste Fee Rule.

House Bill 2705 granted ADEQ the authority to promulgate rules that would establish new fees and/or increase existing fees for ADEQ's Solid Waste and Hazardous Waste programs effective July 1, 2012. After a lengthy stakeholder process, the Notices of Proposed Rule Making for each fee rule were published in the Arizona Administrative Register on September 30, 2011. As part of the rule making, House Bill 2705 requires that the proposed fee rules be reviewed by JLBC.

In an effort to provide you with background on the proposed fee rules, please find attached a description of the proposed fees and projected revenues as well as a description of ADEQ's Solid Waste and Hazardous Waste programs. We have also enclosed a copy of the Notices of Proposed Rule Making for your review.

Thank you for the opportunity to discuss ADEQ's proposed Hazardous Waste and Solid Waste fees. I look forward to our discussion on November 17, 2011. If you have any questions before then, please feel free to contact Amanda E. Stone, Waste Programs Division Director at 602-771-4567 or David Briant, Administrative Services Division Deputy Director at 602-771-4403.

Sincerely,

Henry R. Darwin

ARIZONA DEPARTMENT OF ENVIRONMENTAL QUALITY
Solid Waste Program Proposed Fee Rule
Executive Summary
October 27, 2011

The Arizona Department of Environmental Quality ("ADEQ") proposes rules for new and revised fees to replace General Funds for the Solid Waste Program. The rulemaking is required by Laws 2011, 1st regular session, Chapter 220 (hereafter "HB 2705"), which also enacted temporary solid waste fees for Fiscal Year ("FY") 2012. Additionally, HB 2705 requires that the proposed rules be reviewed by the Joint Legislative Budget Committee.

The proposed fees would address ADEQ's direct and indirect costs associated with issuing solid waste management licenses and permits and enforcing the requirements of the applicable regulatory program. The goal is to achieve self sufficiency of ADEQ's Solid Waste Program and replace General Funds no longer appropriated to the Program. ADEQ anticipates the new fees from this rule to be effective July 1, 2012.

Background

The Arizona Solid Waste Program is primarily located at 18 A.A.C. 13 and is authorized by A.R.S. Title 49, Chapter 4. The Program reviews and approves design and operation plans for landfills, special waste facilities, and medical waste facilities, and issues licenses and permits to other solid waste facilities and transporters. Facilities are periodically inspected, and compliance data is maintained for each facility. Solid waste complaints are investigated. Compliance assistance is provided, and appropriate enforcement actions are pursued for significant noncompliance. The program also advocates for solid waste reduction, reuse, and recycling.

There is no federal funding associated with the Program. The Solid Waste Program has historically been funded largely by the General Fund and limited fees from solid waste facilities deposited in the Solid Waste Fee Fund (SWFF).

As a result of the economic downturn in 2007-2008, the legislature directed lump sum budget reductions and fund transfers to the General Fund from state agencies, including ADEQ. In 2008, ADEQ was authorized and adopted a one-year increase in three solid waste fees for FY 2009. The legislature eliminated ADEQ's entire General Fund budget beginning in FY 2011. Special session legislation for FY 2011 allowed ADEQ to increase fees through exempt rules for air, water, and waste programs (Laws 2010, 7th Spec. Sess., Ch. 7. § 5). In 2011, HB 2705 gave ADEQ the authority to continue increased waste program fees for FY 2012. The increased fees in this proposed rule would begin July 1, 2012 for FY 2013.

HB 2705 also amended A.R.S. § 49-837 to allow monies in the Recycling Fund to be used for Solid Waste Program activities. ADEQ included about $1.2 million from the Recycling Fund into the calculations of the fees needed for the Solid Waste Program. Without the use of monies from the Recycling Fund, the fees to operate the program would be significantly higher. In past years, the Recycling Fund balance has been transferred to the General Fund. If the Recycling Fund becomes unavailable while this rulemaking is pending, ADEQ intends to terminate this rulemaking and re-propose the rule with higher fees.

Outreach

ADEQ promoted extensive informal comment on funding for the Solid Waste Program and hosted four public meetings; two in January of 2011 which concentrated on concepts and the design of legislation, and two during the summer of 2011 to review draft rule language and respond to comments from the public. An email 'listserv' containing over 450 stakeholder e-mail addresses was created to keep interested parties informed of ADEQ's efforts regarding the Solid Waste Program Fee Rules. Additionally, relevant information is posted on ADEQ's web site.

Proposed Fees

1. New Waste Tire Collection Site Registration Fee (new fee). ADEQ proposes to establish a registration fee for new waste tire collection sites. The initial registration fee is $500 and $75 annually thereafter.

2. Used Tire Storage Site Registration Fee (new fee). ADEQ proposes to establish a $500 initial registration fee, and $75 annually thereafter, for used tire collection sites.

3. Septage Hauler Vehicle License Fee (new fee). ADEQ proposes to establish a $250 initial license fee and $75 annually thereafter, for septage hauler vehicles. Currently licensed vehicles will start paying $75 per year.

4. Solid Waste General Permit Fee (new fee). ADEQ proposes to establish initial and annual fees for operation under a general permit. Currently, no general permits have been developed or are in use in the Solid Waste Program, although they would be developed in the future and established in a subsequent rulemaking. The initial fees for operation under a general permit are based on ADEQ's total anticipated staff hours divided by an estimate of the number of permittees in the category. The annual fees for general permits are based on ADEQ's estimated staff hours for the average facility.

5. Solid Waste Landfill Registration Fee (revised fee). ADEQ proposes to adjust solid waste landfill registration fees. The proposed fees are lower than the fees assessed for the past two fiscal years, but higher than in previous years.

6. Biohazardous Medical Waste ("BMW") Transporter License Fee (new fee). ADEQ proposes a base $750 annual license fee for BMW transporters. However, during the initial licensing year and every 5 years thereafter for license renewal, the annual fee will be higher because a vehicle inspection and plan review charge will be added to the base annual license fee.

7. Solid Waste Plan Review Fee (revised fee). ADEQ proposes a new plan review hourly rate, along with new initial and maximum fees. ADEQ estimates the hourly rate of $122 per hour for solid waste permitting staff (project management and technical review) based on the permitting work of a full-time employee. The proposed fee is lower than the hourly fee assessed for the past two years but higher than in previous years.

8. Self-Certification Fee (revised fee). ADEQ proposes new registration fees in accordance with HB 2705 to replace fees that were previously set in statute. ADEQ has defined three major

categories of self-certification facilities and is proposing to establish initial and annual registration fees for these facilities.

9. Special Waste Management/Handling Fee (revised fee). ADEQ proposes to adjust special waste management and maximum fees. The proposed fee of $4.50 per ton is lower than the fees assessed over the past two years but higher than in previous years.

Solid Waste Program Budget and Revenue

ADEQ based the proposed fees on the direct and indirect costs of the Department's relevant duties, including employee salaries and benefits, professional and outside services, equipment, in-state travel and other necessary operational expenses directly related to the implementation of the Solid Waste Program. In its fee calculations, ADEQ also considered the availability of other funds for the duties performed, the impact of the fees on the parties subject to the fees, and the fees charged for similar duties performed by the Department, other agencies and the private sector. The Department has used this methodology in previous fee rulemakings for its Air Quality Program and most recently for its Water Quality Program. The Air Quality and Water Quality fee rulemakings included extensive stakeholder processes as well as review by the Governor's Regulatory Review Council (GRRC).

ADEQ calculated the total annual funding needed to implement the Solid Waste Program at approximately $2.3 million. As previously stated, ADEQ considered the availability of other funds in its fee calculations and determined that the Recycling Fund was an appropriate source of additional funding for the Solid Waste Program because the fund revenue comes from the solid waste landfill tipping fees collected pursuant to A.R.S. § 49-836. HB 2705 authorized the use of the Recycling Fund to help fund ADEQ's Solid Waste Program. ADEQ's proposed fees will generate fee revenue of approximately $1.125 million, assuming a Recycling Fund contribution of $1.175 million.

Staffing Levels

Due to the elimination of General Fund appropriations, the Solid Waste Program has experienced a reduction in staffing levels over the past few years. In FY 2008, the Solid Waste Program had 3 plan reviewers and 10 inspections and compliance officers. Today, in FY 2011, the program has 2 plan reviewers and 4 inspections and compliance officers. Support staff for the program has been greatly reduced as well. With the exception of 3 "critical-need" inspector positions, ADEQ does not anticipate a need for the program or associated staffing levels to increase over FY 2011 levels as a result of this rulemaking. The estimated cost of the Solid Waste Program includes 3 additional solid waste inspectors for a total of 7 inspectors who will be responsible for regulation of over 460 facilities and 1,600 activities and entities statewide.

Executive Summary
October 27, 2011

The Arizona Department of Environmental Quality ("ADEQ") proposes rules that would increase fees related to hazardous waste to make ADEQ's Hazardous Waste program self-funding. The rule is proposed as required by Laws 2011, 1st regular session, Chapter 220 (hereafter "HB 2705"), which also enacted temporary hazardous waste fees for Fiscal Year ("FY") 2012. HB 2705 requires that the proposed rule be reviewed by the Joint Legislative Budget Committee.

In accordance with HB2705, the proposed rule would increase existing hazardous waste fees to address ADEQ's direct and indirect costs associated with issuing hazardous waste permits and enforcing the requirements of the regulatory program. The rule follows a continuing statewide trend for agency fee-based revenue systems that apportion costs to regulated entities rather than general taxpayers. The immediate goal is to achieve self sufficiency of ADEQ's Hazardous Waste Program and replace General Funds no longer appropriated to the Program. ADEQ anticipates the new fees from this proposed rule will be effective July 1, 2012.

Background

The Arizona Hazardous Waste Program is required by A.R.S. § 49-922 and consists primarily of a permitting function and an inspection and compliance function to implement federal law. ADEQ is authorized by the U.S. Environmental Protection Agency ("EPA") to implement the federal regulations in Arizona. Consequently, ADEQ receives grant monies from EPA, known as the Resource Conservation and Recovery Act ("RCRA") grant that cover about one-half of the program budgetary needs.

As a result of the economic downturn in 2007-2008, the legislature directed lump sum budget reductions and fund transfers to the General Fund from state agencies, including ADEQ. Monies from various ADEQ funds, including the Hazardous Waste Management Fund, were transferred to the General Fund. In addition, the legislature eliminated ADEQ's entire General Fund budget beginning in FY 2011. Special session legislation allowed ADEQ to increase fees for FY 2011 through exempt rules for air, water, and waste programs to offset the loss of General Funds (Laws 2010, 7th Spec. Sess., Ch. 7. § 5). In 2011, HB 2705 gave ADEQ the authority to continue increased waste program fees for FY 2012. The increased fees in this proposed rule would begin July 1, 2012 for FY 2013.

Outreach

ADEQ promoted extensive informal comment on funding for the Hazardous Waste Program and hosted four public meetings; two in January of 2011 which concentrated on concepts and the design of legislation, and two during the summer of 2011 to review draft rule language and respond to comments from the public. An email 'listserv' containing over 450 stakeholder e-mail addresses was created to keep interested parties informed of ADEQ's efforts regarding the Hazardous Waste Program Fee Rules. Additionally, relevant information is posted on ADEQ's web site.

Explanation of Proposed Fees

The proposed rule would increase fees in the Hazardous Waste Programs for hazardous waste generation, disposal and permits as shown in the tables below:

Table 1. Hazardous Waste Generation and Disposal Fees

Type of Hazardous Waste "Facility"	FY 2010 and before	FY 2011 and FY 2012	Proposed Fee beginning FY 2013	Maximum Fee per generator per site beginning FY 2013
A.R.S. § 49-931(A)(1)	$10/ton	$70.00/ton	$67.50/ton	$200,000
A.R.S. § 49-931(A)(2)	$40/ton	$280/ton	$270/ton	$5,000,000
A.R.S. § 49-931(A)(3)	$4/ton	$28/ton	$27/ton	$160,000

Table 3. Hazardous Waste Hourly Rate

Hazardous Waste permits	April 2006 to July 2010	FY 2011 and FY 2012	Proposed beginning FY 2013
Hourly rate	$95.29	$95.29	$136.00

ADEQ estimates the hourly rate of $136 per hour for hazardous waste permitting staff (project management and technical review) based on the permitting work of a full-time employee with a procedure similar to its air and water quality staff and other agencies. The maximum fees are set to provide assurance that ADEQ will continue to collect about the same revenues if waste generation rates remain approximately the same, while providing certainty to generators that changes in operations or regulations will not drive their fees over a specified amount.

Hazardous Waste Program Budget and Revenue

ADEQ based the proposed fees on the direct and indirect costs of the Department's relevant duties, including employee salaries and benefits, professional and outside services, equipment, in-state travel and other necessary operational expenses directly related to the implementation of the Solid Waste Program. In its fee calculations, ADEQ also considered the availability of other funds for the duties performed, the impact of the fees on the parties subject to the fees, and the fees charged for similar duties performed by the Department, other agencies and the private sector. The Department has used this methodology in previous fee rulemakings for its Air Quality Program and most recently for its Water Quality Program. The Air Quality and Water Quality fee rulemakings included extensive stakeholder processes as well as review by the Governor's Regulatory Review Council (GRRC).

ADEQ calculated the total annual funding needed to implement the Hazardous Waste Program at approximately $3.1 million. ADEQ's Hazardous Waste Program receives annually federal grant funds totaling approximately $1.4 million. The proposed hazardous waste fees will generate fee revenue of approximately $1.7 million.

Regulatory Universe

ADEQ's Hazardous Waste Program regulates a universe of over 1,500 facilities, including metal platers, chemical manufacturers, laboratories, explosive and munition manufacturers, pesticide manufacturers, hazardous waste treatment, storage, disposal ("TSD") facilities, and military installations. There are currently 13 permitted TSD facilities, 181 to 265 large quantity generators, 901 to 1,513 small quantity generators, and 217 to 340 transporters.

Hazardous Waste Program Staff

Due to the elimination of the General Fund appropriation, the transfer of funds from the Hazardous Waste Management Fund to the General Fund and other budget reductions, the

Hazardous Waste Program experienced a reduction in staffing levels over the past few years. In FY 2008, the Hazardous Waste Program had 5 permit writers and 11 inspections and compliance officers. ADEQ believes the minimum staffing needed to operate the Hazardous Waste Program consists of 2.8 permit writers, 7 inspections and compliance officers, plus an additional 13 full-time-equivalent positions of support staff, including a full-time RCRA attorney from the Attorney General's Office, a hydrologist, pollution prevention staff, records management staff, budget, database and clerical staff, and management. ADEQ does not anticipate a need for the Hazardous Waste Programs to expand or associated staffing levels to increase as a result of this rulemaking.

Failure to adequately staff and fund the program could cause the loss of the EPA-delegated program and approximately $1.4 million in federal grant dollars. If the program reverts back to EPA, Arizona will lose control over enforcement and permitting decisions. Without adequate funding, ADEQ may have to discontinue some services, such as outreach, technical assistance, timely complaint response, and inspections of small quantity generators, conditionally exempt small quantity generators, and transporters.

SUBJECT: JLBC Staff - Consider Approval of Index for School Facilities Board Construction Costs

Request

A.R.S. § 15-2041D3(c) requires that the cost-per-square-foot factors used in the School Facilities Board (SFB) building renewal and new school construction financing "shall be adjusted annually for construction market considerations based on an index identified or developed by the Joint Legislative Budget Committee (JLBC) as necessary but not less than once each year."

As the Appropriations Committee budget proposal includes a new construction moratorium and the suspension of the building renewal formula, the adjustment would generate no change in new construction or building renewal costs. In addition, the adjustment will not affect current projects, as statute requires those projects to use the cost per-square-foot in effect at the time they were awarded.

Recommendation

The Committee has at least the following 2 options:

1. Approve a 2.09% adjustment in the cost-per-square-foot factors, based on the average of the latest 1-year change in the Rider Levett Bucknall (RLB) national construction cost index and the RLB Phoenix construction cost index.

2. Approve the SFB staff request for a 6.6% increase for K-8 grade levels and 7.26% for 9-12 grade levels. The K-8 adjustment is based on an index which estimates actual construction costs per-square-foot as opposed to the change in costs from a prior period, while the 9-12 adjustment was calculated by SFB staff based on 2 recent high school construction projects.

Table 1 lists the cost-per-square-foot amounts for options 1 and 2.

(Continued)

Table 1
Cost-Per-Square-Foot Amounts for Each Option

	K-6	7-8	9-12
Current Amount	$136.66	$144.27	$167.05
Option 1 – National/Phoenix Construction Index (2.09%)	$139.52	$147.28	$170.54
Option 2 – SFB Staff Request (6.6%/7.26%)	$145.68	$153.79	$179.18

Analysis

Background Information
The original Students FIRST legislation (Laws 1998, 5th Special Session, Chapter 1) established funding amounts per-square-foot of space for new construction and building renewal (e.g., $90 per-square-foot for grades K-6). Current statute requires that SFB use the cost-per-square-foot in effect at the time a new construction project is approved, except that SFB may adjust the formula amount based on geographic or site conditions as defined in statute.

The Committee has used a variety of different indices to establish the per-square-foot amounts. Last year, the Committee approved a 0% adjustment in the cost-per-square-foot factors, based on the latest 1-year change in the RLB national construction cost index.

Two Options
The first option uses a similar approach as last year's policy, in part by using the change in the RLB national construction index between January 2011 and January 2012, the latest available 12-month period. In addition, this option also incorporates the annual change in the RLB Phoenix cost index (which was only minimally different from the national measure), by using the average of the 2 measures.

The second option is the SFB request of 6.6% for K-8 grade levels and 7.26% for the 9-12 grade levels. SFB staff has estimated that the current per-square-foot amount is insufficient to build new school facilities using only state funds.

In making this calculation, SFB staff references data produced by Arcadis, a construction and infrastructure consulting firm, which outlines construction cost estimates for the Phoenix Metropolitan area. These data show that the cost-per-square-foot to build an elementary school is approximately $145.68, while the current New School Facilities (NSF) formula amount is $136.66. SFB staff requested a 6.6% adjustment to align the K-6 formula amount with the Arcadis study. The 6.6% adjustment was also requested for the 7-8 grade level NSF formula amount.

For the 9-12 grade level NSF formula adjustment, SFB Staff calculated that a 7.26% adjustment would align the cost-per-square-foot amount to current market conditions, as estimated by SFB staff based on 2 recent high school new construction projects.

Overall, SFB staff believes the requested adjustments would align the NSF per-square-foot formula amount with current market conditions and eliminate the need for any local district contributions to new construction projects.

And

The Honorable John Kavanagh, Chairman
Joint Committee on Capital Review

Dear Senator Shooter and Representative Kavanagh:

A.R.S. §15-2041.D.3(c) states in part "...The cost per square foot shall be adjusted annually for construction market considerations based on an index identified or developed by the joint legislative budget committee as necessary but no less than once each year." To assist the JLBC, the School Facilities Board has prepared the following information.

The current new school construction cost index was established in 2008. Current market conditions as noted below would not provide sufficient funds to build a school to the Minimum School Facility Guideline requirements. If, as it appears, the School Facilities Board does not fund construction of another school until FY 2014 at the earliest, then a construction cost index from 2008 certainly could not be used to build a Minimum School Facility Guideline school.

For the past few years, the SFB has used analysis developed by the project management firm Arcadis (formerly known as PinnacleOne) and Rider Levett Bucknall or RLB (formerly Rider-Hunt), an international construction consulting group, in support of the annual requests for inflation adjustments.

The Arcadis analysis shows an increase of 1.1% in K-6 construction costs reflecting an average cost per square foot of $145.68 for the year ending December 2011, while the RLB analysis shows a current cost of between $140.00 and $200.00 per square foot for elementary school construction and between $170.00 and $240.00 per square foot for high school construction. (Please note that the RLB analysis accounts for only construction bid costs. Costs for design, permitting, furniture, etc. need to be added to the cost per square foot. These additional costs add approximately 20% to the construction cost). See attachments. Please also note that the current construction cost index for K-6 is $136.66 (established in 2008).

To become effective in FY 2013, the SFB is requesting the Joint Committee on Capital Review adjust the new school construction cost index by 6.6% for K-8 grade levels (this adjustment will bring the formula into line with the Arcadis study) and by 7.26% for 9-12 grade levels (which will

bring the formula into line with the current cost per square foot based on the two most recent high schools funded by the SFB (average cost includes additional funding by district)).

The current construction market is seeing marked increases in commodities. For example, copper has increased 12%, ductile iron (used in plumbing piping) is up 5%, and scrap steel is at $230 per ton (an increase of $130 per ton over last year). When minimal inflation is taken into consideration, any project awarded at the current index would fall well short of adequate funding to build a school that meets the Minimum School Facility Guidelines with actual construction starting twelve or more months from award.

Table One below shows the impact on the cost per square foot of the recommended increases of 6.6% for K-6 and 7-8 grade levels and by 7.26% for 9-12 grade levels.

Table One

Grade Level	Current Amount	Adjusted Amount
K-6	$136.66	$145.68
7-8	$144.27	$153.79
9-12	$167.05	$179.18

The SFB believes that these amounts adequately reflect FY 2012 inflation and market conditions. Excluding local impact fees, the proposed costs per square foot would have covered the construction costs for the most recent SFB new construction projects (excluding projects that required the addition of the Davis-Bacon Act prevailing wage rates or additional site conditions).

Fiscal Impact

The SFB assumes there will be no fiscal impact in FY 2012 due to the new construction moratorium, as well as no fiscal impact in FY 2013.

The estimated fiscal impact on the building renewal formula for FY 2013 is $8.82 million based on full formula funding. For the last four fiscal years, there has been no building renewal formula funding. If this policy continues, the index increase would have no fiscal impact on building renewal formula funding.

If you or your staff has any questions regarding this information and request, please contact me at 602-542-6143 or dgray@azsfb.gov.

Sincerely,

Dean T. Gray

Notes:

1 Inflation rate per year was derived using the ENR formula for computing the BCI index, and adjusted to Phoenix market. For FY 2005-2006, the inflation rate was based on the Association of General Contractors Inflation report for the Phoenix market.

FY 2010-2011, Commodity prices has risen modestly. Steel manufacturers have notification to their customers of increase in material prices. However the unemployment remains high. Government construction spending has gone up in the but has declined over the last quarter.

Work has remain very competitive. The average number of bidders remains at 8 to 12 on open bid projects. This was factored in the computation of the quarterly indices.

2 The base construction cost for FY1998 is $90/sf and was used as a base for all indices shown.

3 Column 3 is the 20 City Average BCI Inflation Rate computed by ENR.

4 Column 9 & 10, Rider Hunt Inflation Index.

INDICATIVE COST RESEARCH

In the summer of 2011 Rider Levett Bucknall undertook a significant research effort to benchmark and critically test our indicative construction costs against a wide variety of data, including thousands of our own projects, publicly available data and raw data purchased from a variety of data collection sources.

This significant research program was undertaken so that we could be sure that our data was completely current and reflected as wide a set of project quality levels as is possible.

For indicative costs reported within our Quarterly Cost Reports it is important for readers to note that there will be projects that fall outside both our high and low range, usually due to quality levels or unusual bidding practices. However we are confident that the bulk of projects will fall within the ranges provided above. Naturally we caution that these ranges are only indicative and that professional cost advice should be sought on any project before funding is committed.

SPOTLIGHT ON: MATERIALS COSTS

When the global economy was frantically busy (think 2005 through 2007), we heard a lot from industry sources about the effect of China, India or the Middle East on construction prices in the U.S. One factor that received surprisingly little attention was U.S. demand for U.S. produced materials.

A good example of this is gypsum wallboard, which hit a production peak in the second quarter of 2006 (when factories were slightly over 90% production capacity). Prices of shipped wallboard peaked the following quarter. According to information from US Gypsum, the realized price of drywall at the end of 2010 was only about 60% of the realized price in the third quarter 2006. Clearly this reflects the demise of activity in the housing industry and not the impact of foreign trade.

Steel production tracks a similar trend within the U.S. and is a good warning that one cannot overlook the importance of local demand when considering changes in material pricing over time.

SUBJECT: Arizona Commerce Authority - Review of Application Fees for Incentive Programs

Request

Pursuant to A.R.S. § 41-1504 the Arizona Commerce Authority (ACA) is required to develop, and submit to the Committee for review, a fee schedule for the incentive programs that the Authority administers.

Recommendation

The Committee has at least the following 2 options:

1. A favorable review as none of the proposed fees exceed the legislatively intended 1% cap included in A.R.S. § 41-1504.

2. An unfavorable review.

Analysis

Currently, ACA administers 10 incentive programs: Private Activity Bonds (PAB), Research and Development (R&D) Tax Credit, Renewable Energy Tax Incentive Program (RETIP), Angel Investment Program, Arizona Competes Fund, Healthy Forest Tax Credit, Job Training Grants, Military Reuse Zone Transaction Privilege Tax (TPT) Exemption, Quality Jobs Tax Credit, and the Solar Tax Credit.

Currently, the ACA only collects fees from 3 incentive programs: the PAB Program, R&D Tax Credit, and RETIP. The fees for the PAB Program are authorized in A.R.S. § 35-909 and are levied in the amount of $320 per $1,000,000 in authorized bonding authority. In addition, ACA is authorized to assess an application fee authorized in A.R.S. § 35-903, that is determined by ACA, which currently equates to roughly .01% of the award amount. The processing fee for the R&D Tax Credit Program is set at 1% of the taxpayer's tax credit refund and is outlined in A.R.S. § 41-1507. These fees are unchanged in this proposal.

The RETIP processing fee is authorized in A.R.S. § 41-1511 and is set by ACA which currently requires $500 - $2,500 per application depending on the size of the capital investment. The ACA proposal would be to increase this fee to 1% of the awarded amount or $2,000 - $10,000 per application.

(Continued)

In addition to the existing fees, the ACA proposal includes 7 new fees. As previously noted, A.R.S. § 41-1504 includes legislative intent that the fees that ACA can charge for incentive programs not exceed 1% of the awarded amount. *Table 1* includes the current and proposed fees for the aforementioned incentive programs.

Table 1

Incentive Program Fees

Program	Current	Proposed
Private Activity Bonds	$320 + Approx. 0.1% of Award	$320 + Approx. 0.1% of Award
Research and Development Tax Credit	1% of the Tax Credit Refund	1% of the Tax Credit Refund
Renewable Energy Tax Incentives	$500 - $2,500	1% of Award ($2,000 - $10,000)
Angel Investment Program	N/A	1% of Award ($75 - $875)
Arizona Competes Fund	N/A	1% of Award
Healthy Forest Tax Credit	N/A	$50
Job Training Grants	N/A	1% of Award (Max of $15,000)
Military Reuse Zone TPT Exemption	N/A	1% of Award (Max of $100,000)
Quality Jobs Tax Credit	N/A	1% of Award ($90 - $36,000)
Solar Tax Credit	N/A	1% of Award (Max. of $500)

As a result of the above mentioned fees, ACA estimates total revenues of $782,750 in FY 2013 for the 10 incentive programs included. This is an increase from the FY 2011 total revenues of $56,500 from the 3 incentive programs that ACA administered that utilized fees. *Table 2* includes the FY 2011 actual and the estimated FY 2013 revenues.

Dear Mr. Stavneak;

Pursuant to A.R.S. 41§1504(C)(1), the Arizona Commerce Authority ("ACA") is authorized to begin assessing and collecting fees for the processing of applications and administration of tax incentive programs. The ACA board must adopt the proposed fee schedule and then forward the schedule to the Joint Legislative Budget Committee for review and approval.

On January 11, 2012, the ACA board discussed and took action on the proposed fee schedule. Consequently, attached for your review and approval is the board approved fee schedule.

Should you have any questions or if you would like to discuss the proposed fees, please feel free to contact Greg Linaman, Chief Administrative Officer at 602-845-1255 or via email at gregl@azcommerce.com.

Sincerely,

SUBJECT: Attorney General - Review of FY 2009 and FY 2010 Uncollectible Debts

Request

Pursuant to A.R.S. § 35-150E, the Attorney General (AG) requests that the Joint Legislative Budget Committee review its FY 2009 and FY 2010 listings of uncollectible debts referred to the AG by state agencies for collection. The total listings are $19.1 million for FY 2009 and $31.9 million for FY 2010.

Recommendation

The Committee has at least 2 options:

1. A favorable review.

2. An unfavorable review.

A favorable review by the Committee would allow the State Comptroller to remove debt, certified by the Attorney General as uncollectible, from the state accounting system.

Analysis

The AG's Collection Enforcement Unit functions as a collection service for past due debts owed to state agencies, boards, and commissions. The unit returns 65% of collected monies to the client agencies and retains the remaining 35% for unit operational costs. While the Collection Enforcement Unit is able to collect monies from many individuals and businesses that owe monies to the state, for a variety of reasons, some debts are uncollectible. Laws 1999, Chapter 300 created a procedure for the State Comptroller to remove uncollectible debts from the state accounting system, after receiving annual notice of uncollectible debt from the AG and review by the Joint Legislative Budget Committee. The JLBC favorably reviewed the FY 2006 uncollectible debt report in April 2008. The AG had not subsequently submitted any updates until now.

The AG's office reviewed the cases assigned to the Collection Enforcement Unit. Based on this review, the AG advises that $19.1 million owed to the state is uncollectible as of FY 2009 and $31.9 million is uncollectible as of FY 2010. Of these amounts, approximately 99% of all debts in FY 2009 and FY 2010 are classified under 4 categories: 1) collection cost would exceed amount owed; 2) debt was discharged in bankruptcy or the debtor is a

(Continued)

defunct corporation; 3) the debtor has no assets, wages, and/or a negative credit report; or 4) the debtor is deceased. The remaining amount is listed as uncollectible for reasons including the debt was settled or an inability to locate the debtor.

The 7 largest individual FY 2009 cases comprise $2.2 million of the $19.1 million, or 11% of the uncollectible debt total. The largest cases are owed to the Corporation Commission, the Registrar of Contractors and the Industrial Commission. The 9 largest individual FY 2010 cases comprise $3.0 million of the $31.9 million, or 9% of the uncollectible debt total. The largest cases are owed to the State Board of Charter Schools, Department of Transportation, Registrar of Contractors, the Corporation Commission and the Industrial Commission.

2/ Reason Code: Debtor is Deceased.
3/ Reason Code: Settled.
4/ Note: Numbers do not add due to rounding.

Of the $19.1 million in uncollectible debt from the FY 2009 cases, approximately 82% are debts that are owed to 2 agencies: the Arizona Department of Revenue and the Registrar of Contractors. The remaining 18% are debts owed to 24 other agencies. Of the $31.9 million in uncollectible debt from the FY 2010 cases, approximately 89% are debts that are owed to 2 agencies: the Arizona Department of Revenue and the Registrar of Contractors. The remaining 11% are debts owed to 26 other agencies.

HAND DELIVERED

The Honorable Don Shooter, Chairman
Joint Legislative Budget Committee
Arizona State Senate

RE: FY 2009 and FY 2010 Uncollectible Debt Reports

Dear Senator Shooter:

As requested by the Joint Legislative Budget Committee ("JLBC") under A.R.S. § 35-150(E), enclosed are the Uncollectible Debt Reports for the fiscal years ending June 30, 2009 and June 30, 2010 ("the Reports").

The Reports include: 1) all debt owed to the State that was referred to the Collection Enforcement Revolving Fund for collection and determined to be uncollectible; and 2) Department of Revenue ("DOR") debt that was not referred to the Collection Enforcement Revolving Fund and was deemed uncollectible by DOR. With respect to the DOR debt listed in the Reports as uncollectible, the Attorney General's Office is relying upon the certifications by DOR set forth in memoranda dated February 10, 2012, from DOR to the Attorney General's Office and entitled " FY 2009 Certification of Cases for Uncollectible Write-Off and Bankruptcy Discharge" and entitled "FY 2010 Certification of Cases for Uncollectible Write-Off and Bankruptcy Discharge" ("Certifications"), that the debt described in the Certifications meets the criteria pursuant to A.R.S. § 42-1004B and for liabilities discharged in bankruptcy pursuant to the United States Bankruptcy Code, and that DOR has validated through its internal policies and process that it verified the reasons for abatement, as stated in the Certifications, are true and accurate.

The reporting of a debt as uncollectible, including the act of the State abating the debt, does not necessarily preclude the State from reopening a case and collecting a debt owed to the State at a later date. At times, we have been able to reopen a case and collect a debt because we have identified a debtor's assets or revenue source that previously did not exist or was not able to

be located. There are three exceptions to when the State would be able to pursue a debtor post-abatement. They are: 1) debts discharged in bankruptcy; 2) debts where the statute of limitations has expired; and 3) debts that the State has agreed to settle for a lesser amount than what was owed.

The Reports provide a reason each debt is deemed uncollectible. The reasons include case settled, debtor deceased, unable to locate debtor, collection costs would exceed the amount to be collected, debtor has neither assets nor wages, debtor lives and/or works on a Reservation, and debt discharged in bankruptcy/corporation/LLC defunct.

The Reports also provide the amount uncollected for each debt. This amount may include all or a portion of the original debt and, if applicable, all or a portion of interest and penalties associated with the debt.

Finally, additional debt owed to the State and closed in fiscal years ending June 30, 2009 and June 30, 2010, which are not included in the Reports, will be included in the FY11 Report.

Please contact me if you have any questions.

Sincerely,

Thomas K. Chenal
Chief Counsel
