April 3, 2012

The Chairman called the meeting to order at 8:10 a.m., Tuesday, April 3, 2012, in Senate Appropriations Room 109. The following were present:

Members:	Senator Shooter, Chairman	Representative Kavanagh, Vice-Chairman
	Senator Biggs	Representative Alston
	Senator Cajero Bedford	Representative Court
	Senator Crandall	Representative Fillmore
	Senator Klein	Representative Harper
	Senator Lopez	Representative Heinz
	Senator Murphy	Representative Jones
	Senator Yarbrough	Representative Tovar

APPROVAL OF MINUTES

Hearing no objections from the members of the Committee to the minutes of January 31, 2012, Chairman Don Shooter stated that the minutes would stand approved.

ARIZONA DEPARTMENT OF ADMINISTRATION - Review of Requested Exchange of Fund Transfers for the Department of Environmental Quality.

Mr. James Alcantar, JLBC Staff, stated that this item is a review of the exchange of fund transfers for the Arizona Department of Environmental Quality (ADEQ). ADEQ proposes to exchange a total of \$3,145,700 in order to prevent negative fund balances in 2 of its funds. ADEQ proposes to replace the entire \$841,000 from the Water Quality Fee Fund and also to supplement \$2,304,700 of the Indirect Cost Recovery Fund transfer. Both of these will be with monies from the Emissions Inspection Fund. These exchanges would result in a total transfer from the Emissions Inspection Fund of \$11,200,000. There is no net change in total monies transferred to the General Fund.

The JLBC Staff presented options to the Committee.

Representative Kavanagh moved that the Committee give a favorable review of the request for the exchange of fund transfers for ADEQ as shown in Table 1. The motion carried.

^{2/} Funds from which agencies are requesting transfers in order to accommodate the mandated transfer.		

DEPARTMENT OF ENVIRONMENTAL QUALITY - Review of Waste Fee Rules.

Mr. James Alcantar, JLBC Staff, stated that this item is a review of the waste fee proposal by ADEQ. Laws 2011, Chapter 220 removes previously set fee caps and allows the department to establish program fees for its Solid and Hazardous Waste Programs by rules and this law requires JLBC review for the fees to take place.

The JLBC Staff presented options to the Committee.

Representative Amanda Reeve spoke to the item, responded to member questions and circulated 2 documents (*Attachment 1*).

Henry Darwin, Director, Arizona Department of Environmental Quality, responded to member questions.

Representative Kavanagh moved that the Committee give a favorable of the waste fees as shown in Tables 2, 3, and 4. The motion carried.

JLBC STAFF - Consider Approval of Index for School Facilities Board Construction Costs.

Mr. Jack Brown, JLBC Staff, stated that this item is to consider approval of an index for School Facilities Board (SFB) construction costs. As background, statute requires JLBC to adjust the cost-per-square-foot factors in the SFB funding formula at least once per year based on construction market conditions or considerations.

The JLBC Staff presented options to the Committee.

The Honorable John Huppenthal, Arizona Superintendent of Public Instruction, also spoke to the item and responded to member questions.

Representative Kavanagh moved that the Committee approve a 2.09% adjustment in the cost-per-square-foot factors, based on the average of the latest 1-year change in the Rider Levett Bucknall (RLB) national construction cost index and the RLB Phoenix construction cost index.

(Continued)

Senator Linda Lopez moved a substitute motion to approve the School Facilities Board staff request for a 6.6% increase for K-8 grade levels and 7.26% for 9-12 grade levels. By a show of hands of 8 ayes and 8 nays, the substitute motion failed.

By a show of hands of 7 ayes and 9 nays, the original motion failed.

ARIZONA COMMERCE AUTHORITY - Review of Application Fees for Incentive Programs.

Mr. Eric Billings, JLBC Staff, stated that this item is for review of the Arizona Commerce Authority (ACA) application fees for Incentive Programs. Pursuant to A.R.S. § 41-1504 ACA is required to develop and submit to the Committee for review a fee schedule for the incentive programs that they administer. Included in statute is the legislative intent that the proposed fees not exceed 1% of the incentive amount.

The JLBC Staff presented options to the Committee.

Mr. Greg Linaman, Chief Administrative Officer, Arizona Commerce Authority, responded to member questions.

The Committee requested the agency provide information on total other funds, grants, and awards for FY 2011 and FY 2012 for ACA.

Representative Kavanagh moved that the Committee give a favorable review of the proposed fee schedule for a 1-year period as shown in Table 5. The motion carried.

DEPARTMENT OF EDUCATION - Report on Education Learning and Accountability System.

The Honorable John Huppenthal, Arizona Superintendent of Public Instruction, presented a report on Education Learning and Accountability System and responded to member questions.

This item was for information only and no Committee action was required.

(Continued)

ATTORNEY GENERAL - Review of FY 2009 and FY 2010 Uncollectible Debts.

Ms. Marge Zylla, JLBC Staff, stated that of the Attorney General's office is requesting review of their uncollectible debts report. After a period of time the Attorney General determines that some debts that are owed to the state are uncollectible and upon the Committee's review these can be removed from the state accounting books. The Attorney General identified \$19.1 million of uncollectible debt in FY 2009 and \$31.9 million in FY 2010.

The JLBC Staff presented options to the Committee.

Mr. Thomas Chenal, Chief Counsel, Office of the Arizona Attorney General, and Ms. Sally Bell, Section Chief, Office of the Attorney General, responded to questions.

Chairman Don Shooter requested information from the Attorney General regarding reporting uncollectible debt information to the credit bureaus.

Representative Kavanagh moved that the Committee give a favorable review of the Attorney General's FY 2009 listing of \$19.1 million and FY 2010 listing of \$31.9 million in uncollectible debts. The motion carried.

Without objection, the meeting adjourned at 9:50 a.m.

Respectfully submitted:

Alanna Carabott, Secretary

Richard Stavneak, Director

Senator Don Shooter, Chairman

SUBJECT: Arizona Department of Administration - Review of Requested Exchange of Fund Transfers

Request

The FY 2012 General Appropriation Act requires the Joint Legislative Budget Committee (JLBC) to review agency requests to transfer monies between their own funds in order to comply with FY 2012 transfers required by the act. On behalf of the Arizona Department of Education (ADE), the Department of Public Safety (DPS), and the Department of Economic Security (DES) the Arizona Department of Administration has requested Committee review of fund transfers pursuant to this bill.

These fund exchanges were intended to resolve situations in which a fund with insufficient cash to achieve the mandated fund transfer could get additional monies to ensure that transfer was completed and were not intended to resolve other issues.

The Committee favorably reviewed similar transfer requests from the Department of Environmental Quality at its April 3, 2012 meeting.

Recommendation

The Committee has at least the following 2 options:

1. A favorable review of some or all of the proposed exchange of fund transfers.
2. An unfavorable review.

(Continued)

Analysis

Table 1 summarizes the requested fund transfer exchanges.

Table 1

Department of Public Safety		
DPS Licensing Fund	Fingerprint Clearance Card Fund	\$150,000
Criminal Justice Enhancement Fund	Fingerprint Clearance Card Fund	<u>350,000</u>
<i>Subtotal</i>		<i>\$500,000</i>
Department of Economic Security		
Industries for the Blind Fund	Special Administration Fund	<u>\$244,100</u>
<i>Subtotal</i>		<i>\$244,100</i>
^{1/} Fund source for transfers in budget.		
^{2/} Funds from which agencies are requesting transfers in order to accommodate the mandated transfer.		

ADE

The FY 2012 General Appropriation Act requires ADE to transfer \$795,400 from the Internal Services Fund and \$371,200 from the Production Revolving Fund to the General Fund, for a total transfer of \$1,166,600. The department is instead requesting to transfer \$1,166,600 from the Special Education Fund. The Special Education Fund primarily funds education costs for students at the Arizona State Schools for the Deaf and the Blind (ASDB) and currently has surplus monies due to lower than budgeted ASDB caseload growth.

ADE indicates that without the requested transfers the Internal Services Fund (which consists mostly of conference registration and tuition fees) will have insufficient monies to fund an estimated \$456,900 in conference costs for June and July 2012. ADE also indicates that without the requested transfers the Production Revolving Fund (which consists of agency print shop collections) will have a negative fund balance at the end of FY 2012.

DPS

The FY 2012 General Appropriation Act requires DPS to transfer \$450,000 from the Criminal Justice Enhancement Fund (CJEF) and \$191,200 from the DPS Licensing Fund to the General Fund, for a total transfer of \$641,200 in FY 2012. DPS proposes to replace a portion of these transfers with monies from the Fingerprint Clearance Card Fund. The department therefore is requesting a transfer of \$500,000 from the Fingerprint Clearance Card Fund in order to cover \$350,000 of the required CJEF transfer and \$150,000 of the required DPS Licensing Fund transfer. DPS indicates that without the requested transfers the CJEF and the DPS Licensing Fund will have minimal or negative fund balances at the end of FY 2012.

(Continued)

DES

The FY 2012 General Appropriation Act requires DES to transfer \$244,100 from the Industries for the Blind Fund (IBF) to the General Fund in FY 2012. The department is instead requesting to transfer \$244,100 from the Special Administration Fund. DES reports that without the requested transfer the IBF will have a minimal or negative fund balance at the end of FY 2012.

Dear Mr. Stavneak:

Laws 2011, 50th Legislature, 1st Regular Session, Chapter 24, Section 109, SB1612 requires the State Comptroller to coordinate all activity with the Governor's Office of Strategic Planning and Budgeting (OSPB) and notify the Joint Legislative Budget Committee (JLBC) staff of any cash transfers pursuant to these sections. Accordingly, transfer requests from the Departments of Education, Public Safety, and Economic Security listed in the following transfer summary schedule (see reverse side) are being submitted to the JLBC for review.

If you have any questions or need additional information, please call me at (602) 542-5405.

Re: Cash Transfers from Restricted Funds

The Department of Education is requesting a cash transfer from Fund 1009 to Fund 4209 in the amount of \$795,400 to comply with the Laws 2011, Chapter 24, SB1612, Section 108 transfers to the general fund.

We are requesting this transfer under the authority of Section 109 from the above mentioned Feed Bill.

Fund 4209 is mostly comprised of revenue from registrations fees for conferences conducted by ADE. We currently have obligations for several conferences, including next month's Mega Conference for the existing funds. Without this transfer, ADE will not have sufficient cash to comply with the Section 108 cash transfer to the general fund.

The Cash Flow Report for Fund 4209 and the GAO-614 are attached for your review. Thank you for your time and consideration. Please call me at 602-542-7883 if you have any questions.

Dear Mr. Partridge:

Pursuant to Laws 2011, Chapter 24, Section 109, the Department of Economic Security requests that the General Accounting Office include the following fund transfer in the statewide request for Joint Legislative Budget Committee review. This transfer is necessary to implement the Section 108 fund balance transfers to the General Fund.

The Department of Economic Security proposes to transfer \$244,100 from the Special Administration Fund to the Arizona Industries for the Blind (AIB) Fund in order to satisfy the requirements of Section 108. AIB is self-supporting from the proceeds of its business operations (e.g. contracts with the federal government for warehousing, distribution, and manufacturing services) and all revenue in that fund is necessary to procure raw materials and meet other business expense obligations. AIB receives no General Fund support. The transfer from the Special Administration Fund will not result in a reduction to existing service levels. 2066 4003

The required documentation regarding the fund balance and the cash flow of the fund is attached.

SUBJECT: Arizona Department of Administration - Review of Automation Projects Fund FY 2013
Expenditure Plan

Request

Pursuant to the Laws 2012, Chapter 298, Section 1, the Arizona Department of Administration (ADOA) has requested that the Committee review \$16.4 million in proposed FY 2013 expenditures from the Automation Projects Fund. This funding includes ADOA and Department of Revenue (DOR) projects. This proposal is part of a 4-year \$91.1 million automation proposal approved by the Legislature.

Recommendation

The Committee has at least the following options:

1. A favorable review.
2. An unfavorable review.

Under either option, the JLBC Staff recommends that ADOA submit a quarterly report that would provide an update on the implementation of the 23 projects included in this expenditure plan, as well as any subsequent projects. This report will also allow ADOA to better define the deliverables of its various projects. The JLBC Staff will work with ADOA using their existing internal reports to respond to this request.

Also, the JLBC Staff recommends that if an agency elects not to participate in the new financial accounting system, future submissions to the Committee regarding the replacement of the Arizona Financial Information System (AFIS) should outline an agency's reasons for not utilizing the new system.

(Continued)

Summary Perspective

Given the complexity of information technology (IT) projects, review of these initiatives is difficult without the relevant expertise. As a result, we believe that the availability of independent reviews of the IT projects aid the JLBC members with their statutory oversight responsibilities implementation.

With regard to these projects, ADOA has contracted with a third-party consultant to assist in the replacement of AFIS. The other projects over \$25,000 will be reviewed by an IT oversight division within ADOA. If an IT project exceeds \$1.0 million, statute requires approval by the Information Technology Authorization Committee (ITAC). ITAC consists of members from both the public and private sectors and is staffed by ADOA. Approximately \$4.5 million of the \$10 million in IT infrastructure improvement expenditures is currently scheduled to be presented to ITAC for approval. The DOR projects have already received ITAC approval.

The main purpose of the \$91.1 million initiative is to replace AFIS. Most of the current \$16.4 million request, however, would address other IT issues. After the \$16.4 million in planned FY 2013 expenditures, \$74.7 million will remain for AFIS replacement. This amount may be sufficient based on experiences in other states, however, the ultimate cost of the project will depend on the results of the upcoming procurement process.

Analysis

Laws 2012, Chapter 298, Section 1 created the Automation Projects Fund. The General Appropriation Act (Laws 2012, Chapter 294, Section 124) appropriated a total of \$28.1 million from the following funds for deposit into the Automation Projects Fund in FY 2013:

- \$16.8 million from the General Fund
- \$4.2 million from the Automation Operations Fund
- \$1.5 million from the Information Technology Fund
- \$5.6 million from the State Web Portal Fund

In addition to the FY 2013 funding, the General Appropriation Act appropriates the following amounts from the General Fund in future years to the Automation Projects Fund: \$20.0 million in FY 2014, \$20.0 million in FY 2015, and \$23.0 million in FY 2016. Over 4 years, overall project funding equals \$91.1 million.

Monies in the fund are to be used to implement, upgrade, or maintain automation and information technology projects for any state agency. The primary project is the replacement of the state's financial accounting system.

The submitted plan involves projects managed by ADOA and DOR. ADOA plans to spend \$16.4 million from the Automation Projects Fund on the following projects:

- ADOA - AFIS Replacement Planning (\$3.0 million)
- ADOA - IT Infrastructure Improvements (\$10.0 million)
- DOR - Business Reengineering/Integrated Tax System (BRITS) Update (\$3.4 million)

ADOA has indicated that there will be additional requests for review of expenditures from the Automation Projects Fund in FY 2013.

(Continued)

AFIS Replacement

AFIS, the current financial accounting and reporting system used by most state agencies, would be replaced for several reasons. The primary reason is that the system is nearly 20 years old and not compatible with newer systems. On multiple occasions, the needed capacity has exceeded the limits of the system, requiring internal staff to create makeshift solutions to avoid system failure. In addition, several agencies, including the Department of Economic Security (DES), the Arizona Health Care Cost Containment System, and the Arizona Department of Transportation (ADOT), run their own financial management systems, which leads to duplicate data-entry and other inefficiencies.

Design

ADOA contracted with STA Consulting, which is now a part of Information Services Group (ISG), to provide third-party analysis of AFIS, offer options for improving the system, and evaluate possible integration with the state's human resources and procurement systems. STA concluded that the state should replace AFIS with a new system that can be integrated with the existing human resources and procurement systems. STA will continue to provide independent consultation and quality control for the state throughout the request for proposals (RFP), implementation, and post-implementation processes.

FY 2013 Expenditures

STA's consultation will make up \$2.15 million of the \$3 million planned FY 2013 expenditures for AFIS replacement planning. The current FY 2013 expenditure plan includes funding for 6 additional FTE Positions at ADOA. The remainder of the expenditures includes monies to reassign approximately 2 FTE Positions at DES and ADOT to work full-time on the project.

ADOA will return to the Committee later in FY 2013 to address further work on this project. ADOA plans to complete the procurement of the new system and "business process reengineering," which involves evaluating the compatibility of current business practices with the new system. The acquisition process will include RFP issuance, vendor demonstrations, and other activities associated with awarding contracts. The "business process reengineering" will focus on the core business and accounting processes of the state, specifically streamlining business practices to maximize the efficiencies of the new software.

The planning and design of the new system is planned for the first half of FY 2014, with the build out of the system occurring during the second half of FY 2014 and into FY 2015. After the build out is complete, testing and training will proceed. The system is expected to be ready for use in the beginning of FY 2016.

IT Infrastructure Improvements

In addition to the replacement of AFIS, ADOA proposes to expend \$10.0 million from the Automation Projects Fund for projects to enhance the state's IT infrastructure, including:

- | | |
|-------------------------------|---------------|
| • State Data Center | \$4.1 million |
| • Security, Privacy, and Risk | \$1.9 million |
| • E-Government | \$3.0 million |
| • Enterprise Architecture | \$850,000 |
| • Project Management | \$100,000 |

Unlike the replacement of AFIS, these projects will not be subject to an outside review. ADOA will instead use their own internal review process. The Government Information Technology Agency, which was responsible for providing independent review and oversight of IT projects for state agencies, has been consolidated into ADOA's IT Operations Division.

(Continued)

Under the ADOA internal review, many state agency IT projects over \$25,000 are reviewed by ADOA staff. The projects over \$1.0 million must be approved by ITAC, which consists of professionals from both the public and private sectors with the State Chief Information Officer (CIO) acting as the chair. The State CIO is also the head of ADOA's Arizona Strategic Enterprise Technology Office.

Currently \$4.5 million of the \$10 million in planned IT infrastructure improvement expenditures is scheduled to be presented to ITAC for approval. The JLBC Staff and ADOA are discussing other projects that may be presented to ITAC as informational items.

State Data Center

The State Data Center (SDC) hosts 141 customers and processes billions of dollars of transactions per year. ADOA reports that elements of the SDC basic infrastructure are aging and increasingly susceptible to failure. The SDC experienced multiple outages in 2011, including the failure of the uninterruptable power supply (UPS), which temporarily suspended operations of the data center. ADOA plans to expend \$4.1 million in FY 2013 to upgrade components of the SDC. Of the \$4.1 million, \$2.1 million will be used to replace the old UPS with 2 new units, which will require an addition to the building in order to hold the equipment. *See pp. 3-4 of the ADOA attachment for more details.*

Security, Privacy and Risk

Due to threats to the security of the state's data, ADOA intends to spend \$1.9 million to enhance security and mitigate the risk of a data breach. These monies include \$533,000 for security software upgrades, \$475,000 for cyber attack simulations, \$443,500 for new firewall protection, and \$368,700 for the implementation of an online security operations center for agencies and employees. *See pp. 5-6 of the ADOA attachment for more details.*

E-Government

The \$3 million for E-Government is intended to create a new design for and add new capabilities to the state web portal (www.az.gov), increase security, improve online payment processing, and enhance access to state services. Of the planned expenditures, \$600,000 is for updating the state web portal, \$400,000 is for developing automated workflow processes, and \$350,000 for implementing a mobile application marketplace. *See pp. 6-7 of the ADOA attachment for more details.*

Enterprise Architecture

The enterprise architecture component is focused on creating an ongoing framework to assist in evaluating the need for a new system or an upgrade to an existing one. FY 2013 funding for this component is estimated at \$850,000, including \$400,000 for an assessment of ADOA's use of personally identifiable information and \$250,000 for an assessment of State Data Center technology and associated contracts. *See p. 8 of the ADOA attachment for more details.*

Project Management

ADOA's Arizona Strategic Enterprise Technology Office is responsible for approving and tracking all IT projects over \$25,000. ADOA indicates that the current tracking process does not track agency portfolios or deliver agency reports. The \$100,000 for project management in this expenditure plan will be used for the implementation of a website that provides increased transparency of the approval process for IT projects. *See p. 9 of the ADOA attachment for more details.*

BRITS Update

ADOA's proposal includes \$3.4 million in FY 2013 for upgrades to DOR's Business Reengineering Integrated Tax System (BRITS). BRITS is the state's computer system for collecting and processing tax data and is also utilized for the online submission of tax returns and audit selection. DOR expended \$154 million 9 years ago to implement BRITS. While relatively new, the system has experienced several

(Continued)

issues including overly complex coding that makes implementing changes difficult, the impending expiration of vendor support, and components of the system operating at capacity.

DOR plans to utilize the \$3.4 million in proposed funding to update the Taxpayer Application System (TAS) software, AZ Taxes application software, application integration software, and to purchase hardware. *See DOR Attachment for more details.* A brief description of these items is provided below:

- TAS is the main accounting system in BRITS supporting data for individual, withholding, corporate and transaction privilege tax collection. DOR is seeking to update the mid-1990's software used by the original vendor.
- AZ Taxes is the web-based system that handles the electronic filing of tax returns and all of DOR's bank deposits. DOR reports that electronic filing has increased from 1 million filers in TY 2005 to nearly 1.9 million filers in TY 2011, exceeding the capacity and capability of the current hardware and software.
- Application integration would allow the various applications within BRITS to communicate with each other and to share information. The current program was custom built with early 2000's software and would be converted to an updated, commercially available product to address volume growth and a lack of vendor support.
- The hardware purchase is related to moving BRITS to the ADOA Data Center. DOR currently contracts with a third-party vendor to house data.

In addition to the Automation Project Fund allocation, the FY 2013 budget includes \$1.8 million and 17 FTE Positions appropriated directly to DOR from the DOR Administrative Fund for BRITS upgrades. DOR reports that they plan to use the \$1.8 million for salary and related costs for the hiring of 17 programming positions to address the backlog of 1,650 system improvement requests and the maintenance of the new programs.

To completely address the aforementioned issues with BRITS, DOR is seeking another \$1.7 million in FY 2014 for total funding of \$8.7 million in FY 2013 - FY 2014. This assumes that the \$1.8 million and 17 FTE Positions from the DOR Administrative Fund included in the current budget will continue in FY 2014.

If DOR is able to procure \$8.7 million for the BRITS upgrade in FY 2013 - FY 2014, the department estimates completion of the 4 portions of the upgrade as follows:

- TAS - First Quarter of FY 2014
- AZ Taxes - Fourth Quarter of FY 2014
- Application Integration - Fourth Quarter of FY 2013
- Move to ADOA Data Center - Third Quarter of FY 2013

DOR has not contracted with an outside consultant to review these issues. In November 2011, however, DOR sought and received ITAC approval for the BRITS updates.

Dear Senator Shooter and Representative Kavanagh:

In accordance with Laws 2012, 2nd Regular Session, Chapter 298, Section 1 (C), the Arizona Department of Administration (ADOA) is submitting this request for review of an expenditure plan for the monies appropriated in FY 2012-2013 from the Automation Projects Fund.

This request is the first request for the fiscal year and involves projects managed by the ADOA and the Department of Revenue (DOR). ADOA is planning on spending \$16,417,888 on the following projects:

- ADOA Arizona Financial Information System (AFIS) Replacement (\$ 3,000,000)
- ADOA – Arizona Strategic Enterprise Technology Office (ASET) Transformation Project (\$9,986,650)
- DOR – BRITS Refresh (\$3,431,238).

The attached document provides a breakdown by expenditure category of the various amounts in the plan. In some cases the information may be confidential as it relates to an open procurement. We will be happy to meet with your staff to provide further explanation as appropriate.

Sincerely,

Mr. Brett Searle
Fiscal Analyst
Joint Legislative Budget Committee
1716 West Adams Street
Phoenix, Arizona 85007

Dear Mr. Searle:

Thank you for your request for more information on the expenditure plan for the first portion of the Arizona Financial Information System (AFIS) replacement project.

We are planning for two primary efforts during FY13: the Enterprise Resource Planning (the software that will replace AFIS) acquisition process and the Business Process Reengineering (BPR).

The ERP acquisition process will include the RFP issuance, response evaluation, demonstration script preparation, vendor demonstrations, and other similar types of activities related to obtaining a contract award.

For the BPR activities, we plan to conduct an as-is and to-be process around the business needs of the State and the opportunities to leverage the efficiencies and opportunities provided by the new solution. Areas to be covered include many of the core business and accounting processes of the State as well as inherent project activities: General Ledger, Accounts Payable, Accounts Receivable, Cash Management, Budget, Grants, Projects, Cost Allocation, FHWA Billing, Asset Management, Inventory Management, Travel Management, Fleet Management, Facilities Management, Internal Controls, Security, Financial Reporting, Enterprise Readiness, Communications, Change Management and Project Management.

The current expenditure plan for FY13 included an ADOA core group of approximately 6 FTEs, augmenting these individuals with existing staff and expertise, as appropriate and available. We also plan to involve State agencies and key business partners of the State (i.e., the State servicing bank). The expenditure plan also includes "backfill" monies for approximately 2 FTEs located at DES and ADOT. Those FTEs will be full-time staff also working on the project

As you and I have discussed, this is just the first of a series of activities. We expect, very generally, the following timeline for the project:

- FY 2013: Procurement of the new system, installation of the ERP software and business process reengineering around the functionality of the new software.
- FY 2014: The planning and design of the new system will occur during the first half of FY 14. The second half of the fiscal year the build-out of the new system will commence according to the new business processes.
- FY 2015: Build-out continues. As this is accomplished, testing and training will occur during the second half of the fiscal year.
- FY 2016: Go live on July 1, 2015. There is at least a 6 month period of post-implementation vendor support.

You can anticipate additional requests for review of expenditures from the Automation Projects Fund during the new fiscal year (FY 13).

If you have any further questions, please contact me. Thank you for your consideration in this matter.

Sincerely,

Paul Shannon

ASET

Arizona Strategic Enterprise Technology

ASET Transformation Initiatives – JLBC Update Fiscal Year 2013

Arizona Department of Administration (ADOA)

Arizona Strategic Enterprise Technology (ASET)

Prepared: June 12, 2012

Executive Summary

In the 2012 *Four Cornerstones of Reform: Centennial Edition*, Governor Brewer specified, "State Government is due for an update. I like to call it 'Extreme Makeover – The Centennial Edition.'"

Governor Brewer asked the Arizona Strategic Enterprise Technology (ASET) office to conduct an environmental scan of our current systems. The result of this assessment identified the following key transformation initiatives:

- Implement New Statewide Enterprise Resource Planning (ERP) Solution (AFIS Replacement)
Note: this initiative is being detailed in a separate document.
- Implement Critical Business Continuity Improvements at the State Data Center
- Enhance Statewide Security and Privacy Capabilities and Training
- Expand E-Government and Mobility Capabilities
- Accelerate Statewide Enterprise Architecture Adoption and Asset Management
- Streamline Project Oversight, Improve Transparency and Strengthen Project Management

ASET identified more than \$23 million in projects for fiscal year 2013. The combined need for 2013 for the AFIS Replacement (\$3,000,000 + additional funds after RFP is awarded in early calendar year 2014), Arizona Department of Revenue (\$7,000,000) and ASET (\$23,800,000) was almost \$34 million.

Senate Bill 1527 establishes the new Automation Projects Fund to implement, upgrade or maintain automation and information technology projects. The Automations Project Fund was funded with the following sources: \$16.8 million in General Funds, \$1.5 million from the IT Fund (ASET), \$5.6 million from the state Web Portal Fund (ASET) and \$4.2 from the Automation Operations Fund (ASET). The total funding for the Automations Projects Fund for fiscal year 2013 is \$28,100,000. This nets a minimum shortfall in fiscal year 2013 of \$6 million prior to making the ERP award for software and services.

The number one priority is the ERP project and we must prioritize funds to minimize risk to the ERP project. The Governor's office has asked ASET to reprioritize \$10 million for fiscal year 2013 and to carry over the remaining expenses into 2014. This document provides a high-level summary reflecting the updated priorities aligned to the \$10 million dollar budget.

ASET Transformation		Year 1 FY '13
State Data Center	\$	4,086,500.00
Security, Privacy & Risk	\$	1,925,150.00
E-government	\$	3,025,000.00
Enterprise Architecture	\$	850,000.00
Project Management Office	\$	100,000.00
Total	\$	9,986,650.00

State Data Center (SDC) – \$4,086,500

ASET's core mission is to ensure the continuity of mission critical and essential systems of our customers. The State Data Center (SDC) currently hosts 141 customers and processes billions of dollars of transactions per year. Some of our key customers include AHCCCS, Hawaii's Medicaid Program, Arizona Department of Corrections, Arizona Department of Revenue, Arizona State University's mainframe, and many more.

SDC critical infrastructure is aging, not supported and in some cases is constantly failing. In 2011, the SDC had several serious outages related to basic infrastructure. One such incident took the data center completely down when the single, 15+ year old Uninterruptable Power Supply (UPS) failed. The UPS is responsible for supplying battery power in case the SDC loses power prior to the generators starting up. The single UPS in the SDC, has original fuses in the system and does not have a mechanism to notify the ASET team if an incident would occur.

Security, Privacy and Risk– \$1,925,150

The State is under constant attack and the attacks are getting more sophisticated every day. Education and outreach is critical to ensure every employee and partner understands these risks and know how to protect themselves and the State. Individual agencies are struggling with capabilities, skills and resources to stay current.

In March of this year, Utah's health department experienced a massive data breach where more than 800,000 personal health records were compromised including 280,000 social security numbers. This incident forced many employees to resign including the State CIO, Chief Information Security Officer (CISO), Director of Technology Services and several others. The information that was compromised was not encrypted and the previous State CIO Steven Fletcher said in an interview on June 5, 2012 "Until you have a breach, nobody really wants to step up and pay extra money for security." Fletcher also said "the state's 18-month budget cycle makes it tough to react to quickly evolving cyber threats-and eliminating security risks is flat-out expensive. In a perfect world, for instance, the health information sitting on that compromised server would have been encrypted, so that even if hackers got to the data, they couldn't read it. But that would have cost an extra \$10 million to \$12 million the state didn't have."

E-Government Capabilities – \$3,025,000

The state web portal (www.az.gov) is the gateway to Arizona. This platform contains invaluable information about how Arizona citizens work, live, play, and interact with state government. This initiative will modernize the state web portal by developing a new design, adding new capabilities, and making it easier for citizens to access state services.

The web portal fund has been underfunded for the past several years and the platform has greatly deteriorated. This has increased security issues, credit card/billing errors and data corruption. This initiative will rebuild the core web platform and provide underlying capabilities for agencies to deliver their services to our citizens and businesses.

Dear Mr. Stavneak:

In response to your request, the Department of Revenue is providing the attached detailed information regarding the utilization of the \$3.4 million from the Automation Projects Fund.

If you have any questions or require additional information, please let me know. My telephone number is (602) 716-7007.

Sincerely,

Cost breakdown for the \$3.4M (Automation Projects Fund) and \$1.8M (Administrative Fund) for FY13:

Hardware	\$ 810,840
Software	\$1,506,398
Professional Services	\$ 600,000
Staff Augmentation	<u>\$ 514,000</u>
	\$3,431,238

The Staff Augmentation funds provide up to 8 additional resources. The Staff Augmentation is not ongoing; it is limited to the scope of work of the BRITS Refresh Project. This approach is used to ramp up Agency IT capacity for specific project efforts for relatively short periods of time, in this case less than 2 full fiscal years.

The \$1.8M from the Administrative Fund will be used in FY13 to fund the 17 IT positions required to support the projects. As you recall, our original budget request was for \$2.3M to fund the salary and ERE costs for these 17 positions. By reclassifying some of the senior level programmers to junior level programmers, we will be able to reduce the cost to 1.8M. The 17 additional positions are needed in perpetuity.

The Taxpayer Accounting System (TAS) and AZTaxes are complex custom-built systems. These systems require continuous modification to support business change and legislative change. Additionally, they require continuous management of performance, software versions, and mitigation of ever changing information security vulnerabilities. Further, changes to business workflow as the result of business process reengineering translate to modifications to system logic, information flows and reporting supporting the Department and other State Agencies. At current staffing levels, The Department's IT organization is not sufficiently staffed to meet the demands of the Agency and the Legislation.

BRITS components that the funds will be used for:

TAS 11G Weblogic application upgrade (estimated completion Q1, FY14)
AZ Taxes Upgrade (estimated completion Q4, FY14)
Application integration replacement (estimated completion Q4, FY14)
Disaster Recovery buildout Tucson (estimated completion Q3, FY13)

Complete fix vs. Part of an ongoing fix:

The \$3.4M will not completely fix the issue.

At the request of the OSPB and Aaron Sandeen, the AZ State CIO, the Department of Revenue has agreed to defer \$1.7M of the funding required to completely fix the issues described in the Decision Request and its associated PIJes to FY14. This action is to support ADOA's urgent need to use a portion of the FY13 Automation Fund to remediate an immediate risk associated with severely aged equipment in the State Data Center.

The total investment for hardware, software, professional services and staff augmentation required to fix the described issues (excluding employees) is \$5,134,118 and is distributed across fiscal quarters as follows:

	Q1FY13	Q2FY13	Q3FY13	Q4FY13	Q1FY14	Q2FY14	Total
Hardware	140,060	207,280	278,802	184,698	383,430	180,600	1,374,870
Software	387,810	486,796	349,876	281,916	671,490	66,960	2,244,848
Professional Services	0	150,000	325,000	125,000	0	0	600,000
Staff Augmentation	0	50,000	230,000	234,000	245,000	155,400	914,400
	522,870	894,076	1,183,678	825,614	1,299,920	402,960	5,134,118

The DOR FY13 Decision Request to Refresh BRITS covers 4 specific areas of concern. The information herein is a summary of the scope of work covered by the Decision Request including, but not limited to, those investments funded through the Automation fund.

Substantially greater detail is available in the Decision Request and can also be supported through discussion. This information is not in lieu of information in the Decision Request or the PIJes presented to ITAC.

Taxpayer Accounting System (TAS) application software version upgrade.

TAS is one of the applications acquired through the BRITS project, it processes Individual, Corporate, Transaction Privilege Tax, Withholding and Fiduciary & Trust tax types. TAS uses many technologies; one of them is a product from Oracle called Oracle Internet Application Server (OIAS).

TAS is running the original version of Oracle installed by Accenture in the BRITS Project – version 10 for Oracle Forms and Oracle Reports. This technology was generally in use in the mid-1990s. In summary, due to the age of the version of software in use, the TAS system is no longer eligible for critical software support including, but not limited to: program updates, fixes, security alerts, critical patch updates, new upgrade scripts, 24 hour commitment and response.

This Decision request funds the hardware, software and Oracle consulting effort to upgrade this part of TAS, significantly reducing risk associated with system performance, and improving DOR's ability to support the legislated evolution of Tax Code. Further, with the additional IT headcount (not funded through the Automation Fund), we will be able to address the backlog 1650+ system improvement requests supporting business and legislated enhancements and significantly extend the useful life of the TAS application.

The one-time effort to upgrade the Oracle Application software completes in 1QFY14. This timing change from the original Decision Request and PIJes was at the request of the OSPB and Aaron Sandeen, AZ State CIO, to support ADOA requirement for additional funding from the Automation Fund in FY13 for State Data Center hardware refresh.

AZTaxes application software version upgrade

AZTaxes is one of the applications acquired through the BRITS project. This e-commerce solution supports many business functions: AZ businesses to register for, file and pay Transaction Privilege Taxes online; it is the core mechanism for the daily deposits tax payments from electronic filers to Bank of America. In April 2011, at the peak of the 2010 tax filing season, AZTaxes could not support the transaction volume. This delayed our acceptance of electronic filings and daily bank deposits (A.R.S. 42-1129 (B)). The immediate problem has been temporarily remediated, but core system replacement is required.

The AZTaxes system currently operates on the original Business Reengineering/Integrated Tax Systems Project (BRITS) hardware acquired in 2002 and 2003. Failures in the server hardware are increasing in duration and frequency. Year after year, electronic filing and legislative electronic filing requirements increase our AZTaxes system transaction volumes. Individual electronic filing has nearly doubled from 1,000,000 filers in 2005 to 1,869,899 (Year to Date) for 2011; these volumes are exceeding the capacity and capability of the existing hardware and software. The need for contractors who are currently used for data entry will be significantly reduced with electronic filing. Software components are targeted to lose vendor support Oct 8, 2013. The loss of vendor support means termination of software patches, security patches and fixes key to sustaining operations and the protection of taxpayer restricted personally identifiable information (RPPII).

The Decision Request funds the hardware, software and staff augmentation effort to upgrade this application. The replacement of this product is a one-time effort. It begins in FY13, the core purchases complete in 2QFY14, with deployment schedule to be no later than 4QFY14. The timing of implementation is dependent on business cycles; deployment dates of this application are affected by Individual and Quarterly Withholding deadlines. This timing change from the original Decision Request and PIJes was at the request of the OSPB and Aaron Sandeen, AZ State CIO, to support ADOA requirement for additional funding from the Automation Fund in FY13 for State Data Center hardware refresh.

Application Integration Refresh

Application Integration technologies are used to move and manage the movement of information between applications and between agencies. The application integration products installed by Accenture were custom built. This is an architectural flaw in the Accenture solution. Further, it was constructed using technologies prevalent in the early 2000's but incompatible with the changing need of the Department. The current system is operating at full capacity, it is not readily modified. The Decision Request funds the hardware, software and staff augmentation effort to upgrade this application. The replacement of this product is a one-time effort. This one-time project replaces the custom-built solution with an industry-standard commercially available product that can be scaled to respond to changing business needs. It begins in FY13 and will be complete in 1QFY14. This timing change from the original Decision Request and PIJes was at the request of the OSPB and Aaron Sandeen, AZ State CIO, to support ADOA requirement for additional funding from the Automation Fund in FY13 for State Data Center hardware refresh.

Data Center Consolidation

The Department of Revenue's primary data center is provided by InfoCrossing, a third party vendor. This contract was entered into in April 2008 with a maximum term of 5 years. In keeping with the AZ Statewide Strategic IT Plan and its goal of Modeling Fiscal Responsibility, the Department of Revenue is relocating to ADOA data centers. This effort spans multiple

fiscal years. This part of the FY13 Decision Request addresses the gaps in services provided by InfoCrossing vs. services currently available from ADOA. InfoCrossing provides mandatory services to DOR not yet available from ADOA:

- Server management
- System backup
- Off-site Disaster Recovery through SunGuard.

The Decision Request funds the hardware, software and staff augmentation effort to provide these components of the data center move. The installation of these products is a one-time effort. It begins in 2QFY13 and will be completed in Q1FY14.

JLBC

Legislature Approved \$91 Million in New Automation Funding

- ☐ Funding available over 4 years
 - \$28 M in FY '13 (\$17 M GF/\$11 M Other Funds)
 - \$20 M in FY '14 (GF)
 - \$20 M in FY '15 (GF)
 - \$23 M in FY '16 (GF)
- ☐ Primarily intended to replace State's financial accounting system (AFIS), but can be used for other information technology (IT) projects
- ☐ Prior to expending monies, ADOA is to submit a plan to JLBC for review

ADOA Currently Seeking Review of \$16 Million

- ❑ AFIS Replacement Planning - \$3.0 M
- ❑ IT Infrastructure Improvements - \$10.0 M
 - State Data Center - \$4.1 M
 - Security and Privacy Upgrades - \$1.9 M
 - E-Government - \$3.0 M
 - Enterprise Architecture - \$850 K
 - Project Management - \$100 K
- ❑ Department of Revenue Tax System Updates - \$3.4 M

Summary Perspectives

- ❑ Importance of independent reviews of IT Projects
 - AFIS project has outside consultant
 - Projects above \$1 M are reviewed by State's Information Technology Authorization Committee (ITAC)
 - ❑ DOR project already approved by ITAC
 - ❑ Of \$10 M of IT Infrastructure Improvements
 - \$4.5 M will be submitted for ITAC approval
 - \$2.3 M will be submitted as informational item
- ❑ Sufficiency of remaining funding to replace AFIS
 - \$75 M remains for AFIS after this agenda item

Staff Recommendations

- ☐ ADOA submit a quarterly report to JLBC on 23 projects in the expenditure plan
- ☐ If any agency declines to participate in AFIS replacement, ADOA would outline the reasons in future submissions

SUBJECT: Attorney General - Review of Allocation of Settlement Monies

Request

The General Appropriation Act (Laws 2011, Chapter 24) contains a footnote that requires Joint Legislative Budget Committee (JLBC) review of the expenditure plan for settlement monies over \$100,000 received by the Office of the Attorney General (AG), or any other person on behalf of the State of Arizona, prior to expenditure of the monies. Settlements that are deposited in the General Fund pursuant to statute do not require JLBC review.

This request is for review of the expenditure plan for a total of \$2,359,200 from 2 settlements: 1) a \$395,000 allocation to the AG from a consent judgment with American Residential Services (ARS) and its subsidiaries, which are home heating and air conditioning repair companies; and 2) a \$1,964,200 settlement from a consent judgment with Abbott Laboratories, a pharmaceutical company.

Recommendation

The JLBC Staff recommends that the Committee give a favorable review of the allocation plans from the \$395,000 consent judgment with ARS and the \$1,964,200 settlement with Abbott. The allocation plans are consistent with A.R.S. § 44-1531.01, which relates to the distribution of monies recovered as a result of enforcing consumer protection or consumer fraud statutes.

Analysis

American Residential Services

In April 2012, the AG entered into a consent judgment with ARS as a result of their consumer fraud investigation of ARS. The investigation alleged that ARS and its subsidiaries (which include ARS Rescue Rooter, Goettl Air Conditioning, and Russett Services) engaged in violations to the Consumer Fraud Act, which included false and misleading sales tactics.

The settlement requires ARS to pay \$395,000 to the AG. Of that amount, \$240,000 is for consumer restitution for consumers who have filed complaints with the AG. The AG received approximately 200 complaints from consumers.

The remaining \$155,000 will be deposited into the Consumer Fraud Revolving Fund for attorney fees, investigation costs, and to support consumer fraud investigations, consumer education, enforcement of the Consumer Fraud Act and AG operating expenses. The Consumer Fraud Revolving Fund is appropriated and the AG's ability to expend up to the fund's appropriation level of \$3.5 million depends on the amount of settlement revenues into the fund.

The settlement also requires ARS to prohibit the use of financial incentives that could motivate employees to engage in improper marketing, to discontinue advertisements that appear to be official governmental notices, to truthfully convey safety concerns that would necessitate replacement of heating or cooling systems, to accurately represent affiliations and memberships in trade organizations, and to provide a written contract that consumers will sign before commencing work. The settlement does not acknowledge any wrongdoing on the part of ARS.

Abbott Laboratories

In May 2012, Arizona, 44 other states, and the District of Columbia entered into a consent judgment with Abbott as a result of allegations that Abbott falsely marketed Depakote, an anti-seizure medication. The complaint alleged that Abbott marketed Depakote for uses that were not FDA approved, also known as "off-label" uses. Physicians can prescribe drugs for off-label uses, but the drugs cannot be marketed as such. The FDA has not approved Depakote to treat symptoms of dementia or schizophrenia, yet Abbott marketed Depakote for those uses.

The settlement requires Abbott to pay \$1,964,200 to the AG. This amount will be deposited into the Consumer Fraud Revolving Fund for attorney fees, investigation costs, and to support consumer fraud investigations, consumer education, and enforcement of the Consumer Fraud Act and AG operating expenses. The Consumer Fraud Revolving Fund is appropriated and the AG's ability to expend up to the fund's appropriation level of \$3.5 million depends on the amount of settlement revenues into the fund.

The settlement also requires Abbott to avoid misleading claims about Depakote, avoid promoting Depakote for off-label uses, disclose payments to physicians, and register and disclose clinical trials.

Re: *State of Arizona v. American Residential Services, LLC, et al.- Pima County C20116630*

Gentlemen:

The State of Arizona recently settled a case against American Residential Services, L.L.C., and its subsidiary companies, resolving allegations that these home heating and air conditioning repair companies engaged in deceptive practices in violation of the Arizona Consumer Fraud Act, A.R.S. §44 – 1521, et seq.

The settlement, in the form of a Consent Judgment, resolves the allegations contained in the lawsuit filed in September 2011 by the Attorney General's Office. Filed in Pima County Superior Court, the lawsuit alleged that American Residential Services engaged in numerous violations of the Arizona Consumer Fraud Act, including false, misleading and deceptive sales tactics involving older consumers.

American Residential Services operates under that name as well as operating several other companies in Pima, Maricopa, Cochise and Yavapai counties. The other companies include ARS, ARS Rescue Rooter, Goettl Air Conditioning, and Russett Services (collectively "ARS").

The Consent Judgment, which does not include an admission of wrongdoing, requires that ARS does the following:

- Prior to any sale, give consumers a written contract of the equipment and services ARS is selling and have the consumers sign the contract before ARS commences work.
- Have a written policy that prohibits the use of financial incentives to motivate its employees to engage in improper promotion and/or marketing.
- Ensure that any statement or implication that safety concerns necessitate the immediate replacement of an HVAC or plumbing system is true, in the ARS technician's expert opinion.
- Advertise in a clear, prominent, truthful and non-misleading manner. Disclaimers must not contradict any other information in the advertisement.
- Make truthful representations about affiliation with or membership in any trade or professional organization, including the BBB.
- Discontinue dissemination of any advertising that represents, through the use of federal, state, or local government logos or language, that the advertisement is an official governmental notice.

Under the Consent Judgment, ARS is required to pay \$240,000 for consumer restitution, which the Attorney General's Office will distribute to eligible consumers. Finally, the Judgment requires payment of \$155,000 for attorney's fees and costs, which will be deposited into the Consumer Fraud Revolving Fund pursuant to A.R.S. § 44-1531.01 and used for the purposes set forth in statute.

Our notification of this settlement is made without prejudice to our Office's long-standing position that it is not under any legal obligation to provide notices of settlements to the Joint Legislative Budget Committee. We are providing this notification to you as a courtesy so that you will be aware of this important settlement.

Re: *State of Arizona v. Abbott Laboratories et al. - Pima County, C20122907*

Gentlemen:

The State of Arizona recently settled a case against Abbott Laboratories ("Abbott"), resolving allegations that the company deceptively marketed Depakote®, an anti-seizure medication, by promoting the drug for uses not approved by the U.S. Food and Drug Administration ("FDA").

The settlement, in the form of a Consent Judgment, was joined by 44 other states and the District of Columbia. The State's complaint, filed concurrently with the Consent Judgment, alleged that Abbott engaged in deceptive practices in connection with its marketing and promotion of Depakote® ("Depakote"). As explained in the Complaint, Abbott obtained FDA approval to market Depakote only for treatment of seizure disorders, mania associated with bipolar disorder, and to prevent migraines. Although Abbott did not possess substantial evidence that Depakote was effective for the treatment of non-approved uses – including agitation associated with dementia, or as adjunct therapy with antipsychotics to treat schizophrenia – Abbott allegedly chose to bypass the regulatory process and to engage in off-label promotion for these indications.

As further alleged in the Complaint, Abbott instructed its sales representatives to distribute and detail medical studies that purportedly found Depakote to be effective for the off-label uses, although those studies were not based on competent and reliable scientific evidence. Abbott conducted a clinical trial to support the use of Depakote as an adjunct with antipsychotic medication to treat schizophrenia (not an FDA-approved use) that allegedly showed Depakote to be ineffective for this use. Nonetheless, Abbott allegedly continued to promote Depakote as an adjunct with antipsychotic medications to treat schizophrenia and failed to timely publish or publicize the negative study results. Similarly, even after Abbott learned about a well conducted, well designed clinical trial that found Depakote to be ineffective for treatment of agitation associated with dementia, Abbott allegedly continued to promote Depakote off-label for this indication as well.

Abbott's decision to promote Depakote for unapproved uses was, according to the Complaint, driven by Abbott's understanding that the studies required by the FDA to demonstrate safety and efficacy for these indications would be expensive and the results of the required studies might not be sufficient to support Abbott's application. Abbott was also allegedly concerned that even if the FDA approved the new indications, the patent on Depakote would expire at about the same time as FDA's approval, and Abbott would not be able to take advantage of the approval before cheaper generics captured the market.

The Consent Judgment prohibits Abbott from illegally promoting Depakote and requires the company to significantly change its business practices. Under the Consent Judgment, Abbott Laboratories is:

- Prohibited from making false or misleading claims about Depakote;
- Prohibited from promoting Depakote for off-label uses; and
- Required to ensure financial incentives on sales do not promote off-label uses of Depakote.

In addition, for a five-year period Abbott must:

- Follow specific guidelines to ensure the company provides accurate, balanced and medically sound responses to requests for medical information concerning potential off-label uses of Depakote;
- Limit dissemination of reprints of clinical studies relating to off-label uses of Depakote;
- Limit use of grants for Continuing Medical Education to avoid the improper promotion of Depakote;
- Disclose payments to physicians; and
- Register and disclose clinical trials.

The Consent Judgment further requires Abbott to pay a total of \$100 million to the 46 settling jurisdictions. Arizona will receive \$1,964,188, which will be deposited into the

Consumer Fraud Revolving Fund pursuant to the terms of the Judgment and A.R.S. § 44-1531.01.

In the event the Attorney General of a participating state suspects the company is violating one or more provisions of the settlement, the Consent Judgment requires the Attorney General to notify the company of the potential area of non-compliance and provides the company a 30 day period to respond.

Our notification of this settlement is made without prejudice to our Office's long-standing position that it is not under any legal obligation to provide notices of settlements to the Joint Legislative Budget Committee. We are providing this notification to you as a courtesy so that you will be aware of this important settlement.

SUBJECT: Attorney General - Review of FY 2007 and FY 2008 Uncollectible Debts

Request

Pursuant to A.R.S. § 35-150E, the Attorney General (AG) requests that the Joint Legislative Budget Committee (JLBC) review its FY 2007 and FY 2008 listings of uncollectible debts referred to the AG by state agencies for collection. The total listings are \$10.2 million for FY 2007 and \$15.9 million for FY 2008. The JLBC favorably reviewed the FY 2009 and FY 2010 uncollectible debt report at its most recent Committee meeting in April.

Recommendation

The Committee has at least 2 options:

1. A favorable review.
2. An unfavorable review.

A favorable review by the Committee would allow the State Comptroller to remove debt, certified by the AG as uncollectible, from the state accounting system.

Under either option, the JLBC Staff recommends that the AG report back to the Committee by October 31, 2012 on its evaluation of releasing debtor information to credit reporting agencies.

Analysis

The AG's Collection Enforcement Unit functions as a collection service for past due debts owed to state agencies, boards, and commissions. The unit returns 65% of collected monies to the client agencies and retains the remaining 35% for unit operational costs. While the Collection Enforcement Unit is able to collect monies from many individuals and businesses that owe monies to the state, some debts are uncollectible for a variety of reasons. Laws 1999, Chapter 300 created a procedure for the State Comptroller to remove uncollectible debts from the state accounting system after receiving annual notice of uncollectible debt from the AG and review by the JLBC.

The AG's office reviewed the cases assigned to the Collection Enforcement Unit. Based on this review, the AG advises that \$10.2 million owed to the state is uncollectible as of FY 2007 and \$15.9 million is uncollectible as of FY 2008. Of these amounts, approximately 93% of all debts in FY 2007 are classified under 4 categories: 1) debt

was discharged in bankruptcy or the debtor is a defunct corporation; 2) collection cost would exceed amount owed; 3) the debtor has no assets, wages, and/or a negative credit report; or 4) settled. Approximately 82% of all debt in FY 2008 is classified under 3 categories: 1) collection cost would exceed amount owed; 2) debt was discharged in bankruptcy or the debtor is a defunct corporation; or 3) the debtor has no assets, wages, and/or a negative credit report. The remaining amount is listed as uncollectible for reasons including that the debtor is deceased or an inability to locate the debtor.

During the Committee meeting in April, the AG was asked to elaborate on their process for reporting debtors with uncollectible debt to credit agencies. The AG responded that they do not actively report debtors to credit reporting agencies. However, if the AG sues and obtains a judgment against a debtor or if the Department of Revenue places a lien on a debtor who has outstanding Department of Revenue debt, the debtor's information is automatically released to credit reporting agencies. The AG is currently evaluating if they should begin to actively report the debtors' information that is not automatically released to credit reporting agencies and will report the results of that analysis by October 31, 2012.

HAND DELIVERED

The Honorable Don Shooter, Chairman
Joint Legislative Budget Committee
Arizona State Senate

RE: Revised FY 2007 and FY 2008 Uncollectible Debt Reports

Dear Senator Shooter:

As requested by the Joint Legislative Budget Committee ("JLBC") under A.R.S. §35-150(E), enclosed are the Uncollectible Debt Reports for the fiscal years ending June 30, 2007 and June 30, 2008 ("the Reports").

The Reports include: 1) all debt owed to the State that was referred to the Collection Enforcement Revolving Fund for collection and determined to be uncollectible; and 2) Department of Revenue ("DOR") debt that was not referred to the Collection Enforcement Revolving Fund and was deemed uncollectible by DOR. With respect to the DOR debt listed in the Reports as uncollectible, the Attorney General's Office is relying upon the certifications by DOR set forth in memoranda dated August 21, 2009, entitled "FY 2007 and FY 2008 Abatement Request" and April 11, 2012, entitled "FY 2007 Certification of Cases for Uncollectible Write-Off and Bankruptcy Discharge" and "FY 2008 Certification of Cases for Uncollectible Write-Off and Bankruptcy Discharge" from DOR to the Attorney General's Office ("Certifications"), that the debt described in the Certifications meets the criteria pursuant to A.R.S. §42-1004B and that DOR has validated through its internal policies and process that it verified the reasons for abatement, as stated in the Certifications, are true and accurate.

The reporting of a debt as uncollectible, including the act of the State abating the debt, does not necessarily preclude the State from reopening a case and collecting a debt owed to the State at a later date. At times, we have been able to reopen a case and collect a debt because we have identified a debtor's assets or revenue source that previously did not exist or was not able to be located. There are three exceptions to when the State would be able to pursue a debtor post-abatement. They are: 1) debt discharged in bankruptcy; 2) debt where the statute of limitations

has expired; and 3) debt that the State has agreed to settle for a lesser amount than what was owed.

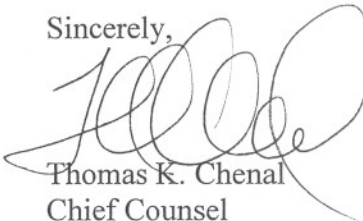

The Reports provide a reason each debt is deemed uncollectible. The reasons include case settled, debtor deceased, unable to locate debtor, collection costs would exceed the amount to be collected, debtor has neither assets nor wages, debtor lives and/or works on a Reservation, debt discharged in bankruptcy/corporation/LLC defunct, debtor is incarcerated, judgment not enforceable in the State of Texas, and paid in full per out-of-state judgment.

Note that the Reports have been revised from the Reports submitted on July 12, 2010, because a) DOR subsequently submitted to the Attorney General's Office some revised reasons for abatement that more accurately describe the reasons DOR deemed the debt uncollectible, and b) DOR determined and certified that two matters previously listed were not valid tax billings and, thus, not uncollectible debt.

The Reports also provide the amount uncollected for each debt. This amount may include all or a portion of the original debt and, if applicable, all or a portion of interest and penalties associated with the debt.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'TKC', with a large, stylized flourish extending from the end of the signature.
