MINUTES OF THE MEETING

JOINT LEGISLATIVE BUDGET COMMITTEE

June 11, 2013

The Chairman called the meeting to order at 9:06 a.m., Tuesday, June 11, 2013, in House Hearing Room 4. The following were present:

Members:	Representative Kavanagh, Chairman	Senator Shooter, Vice-Chairman
	Representative Alston	Senator Cajero Bedford
	Representative Gowan	Senator Griffin
	Representative Kwasman	Senator McComish
	Representative Mach	Senator Melvin
	Representative Olson	Senator Pancrazi
	Representative Ugenti	Senator Tovar
		Senator Yarbrough
Absent:	Representative Lesko	

APPROVAL OF MINUTES

Hearing no objections from the members of the Committee to the minutes of March 26, 2013, Chairman John Kavanagh stated that the minutes would stand approved.

ATTORNEY GENERAL - Review of Allocation of Settlement Monies.

Mr. Andrew Hartsig, JLBC Staff, stated that this item is for a review of allocation of settlement monies for a total of \$4.7 million from 3 settlements to be deposited into the Attorney General's Consumer Fraud Revolving Fund. The first is \$3.8 million from a consent judgment with Lender Services Processing, Inc. The second is a \$682,100 consent judgment with Toyota Motor Corporation, Inc. The third is a \$326,300 consent judgment with Google. The JLBC Staff presented options to the Committee.

Senator Shooter moved that the Committee give a favorable review of the expenditure plan for a total of \$4.7 million from 3 settlements: 1) \$3.8 million from a consent judgment with Lender Services Processing, Inc.; 2) a \$682,100 consent judgment with Toyota Motor Corporation; and 3) a \$326,300 consent judgment with Google, Inc. The motion carried.

ARIZONA DEPARTMENT OF ADMINISTRATION - Review of Federal Reimbursement for FY 2012 Fund Transfers.

Mr. Ben Henderson, JLBC Staff, stated that this item is a review of federal reimbursements for fund transfers that occurred in FY 2012 from the Special Employee Health Insurance Trust Fund (HITF) to the General Fund. The JLBC Staff presented options to the Committee. Under either option, the JLBC Staff recommends that

ADOA return to the Committee for further review prior to expending more than \$5,104,143 for the reimbursement.

Senator Shooter moved that the Committee give a favorable review of the \$5,104,143 expenditure plan for the reimbursement of federal monies related to FY 2012 fund transfers from HITF, with the provision that ADOA return to the Committee for further review prior to expending more than \$5,104,143 for the reimbursement. The motion carried.

EXECUTIVE SESSION

Senator Shooter moved that the Committee go into Executive Session. The motion carried.

At 9:11 a.m. the Joint Legislative Budget Committee went into Executive Session.

Senator Shooter moved that the Committee reconvene into open session. The motion carried.

At 9:35 a.m. the Committee reconvened into open session.

A. Arizona Department of Administration - Review for Committee the Planned Contribution Strategy for State Employee and Retiree Health Plans as Required under A.R.S. § 38-658A.

Senator Pancrazi moved to give a favorable review of the contribution strategy as presented by ADOA. The motion failed by a roll call vote of 5-10-0-1 (Attachment 1).

Committee action is not required for this item.

B. Arizona Department of Administration, Risk Management Services - Consideration of Proposed Settlements under Rule 14.

Senator Shooter moved that the Committee approve the recommended settlement proposals by the Attorney General's Office in the case of Hammer v. State of Arizona. The motion carried.

Without objection, the meeting adjourned at 9:43 a.m.

Respectfully submitted:

TeVona Ball, Secretary

Richard Stavneak, Director

Representative John Kavanagh, Chairman

FROM: Ben Henderson, Fiscal Analyst *BH*

SUBJECT: Arizona Department of Administration - Review of ASET Projects (Automation Projects Fund)

Request

Pursuant to A.R.S. § 41-714, the Arizona Department of Administration (ADOA) has requested that the Committee review \$14.9 million in proposed FY 2014 expenditures from the Automation Projects Fund for information technology (IT) projects. This memo addresses the \$3.5 million for the Arizona Strategic Enterprise Technology (ASET) Office in ADOA. The remainder of the \$14.9 million request is addressed in Agenda Items 1B and 1C.

Recommendation

The Committee has at least the following 2 options:

1. A favorable review.
2. An unfavorable review.

Projects received relevant approvals from ASET staff. None of the projects met the \$1 million threshold for ITAC approval. The \$1.7 million project management item did not require ITAC approval, as it only reflects internal staff costs.

Analysis

Background

The FY 2013 Government Budget Reconciliation Bill (BRB) (Laws 2012, Chapter 298) established the Automation Projects Fund, consisting of monies appropriated by the Legislature and administered by ADOA. The FY 2014 Budget Procedures BRB (Laws 2013, 1st Special Session, Chapter 6) subjected the Automation Projects Fund to legislative appropriation, retroactive to June 30, 2013. The fund is exempt from lapsing. Monies in the fund are to be used to implement, upgrade or maintain automation and IT projects for any state agency. Pursuant to A.R.S. § 41-714, before monies are expended from the fund, ADOA must submit an expenditure plan to the JLBC for review.

(Continued)

The financing of the Automation Projects Fund is described in more detail in *Attachment A*.

Automation Project Oversight

In addition to the JLBC review of Automation Projects Fund expenditures, all IT projects over \$25,000 are reviewed by ASET through the Project Investment Justification (PIJ) process. If an IT project exceeds \$1,000,000, statute requires additional approval by the Information Technology Authorization Committee (ITAC). ITAC consists of members from both the public and private sectors and is staffed by ADOA. If a project funds internal staff or training, neither ITAC nor ASET approval is required.

Current Request

ADOA is requesting a review of \$14.9 million from the Automation Projects Fund for FY 2014 projects at ADOA, the Arizona Department of Corrections (ADC), and the Arizona Department of Education (ADE), as follows:

- | | |
|--|---------------|
| • ADOA – ASET Initiatives | \$3.5 million |
| • ADC – Inmate Management Information System | \$8.0 million |
| • ADE – Student Information System (AELAS) | \$3.4 million |

The FY 2014 General Appropriation Act (Laws 2013, 1st Special Session, Chapter 1) appropriated \$66.7 million from the Automation Projects Fund for various IT projects around the state. A total of \$28.6 million has already been reviewed by this committee for the replacement of the state's financial and accounting system, known as the Arizona Financial Information System (AFIS). Following the review of this \$14.9 million, \$23.2 million will remain to be reviewed by JLBC at a later date, following the necessary PIJ and ITAC approvals.

ADOA – ASET Initiatives

ADOA is currently proposing an expenditure plan totaling \$3.5 million from the Automation Projects Fund for projects to enhance the state's IT infrastructure, including:

- | | |
|-------------------------------|---------------|
| • Project Management | \$1.7 million |
| • Security, Privacy, and Risk | \$900,000 |
| • Enterprise Architecture | \$600,000 |
| • E-Government | \$325,000 |

Project Management

ADOA's ASET Office is responsible for approving and tracking all IT projects over \$25,000 through the PIJ process. ADOA has indicated that the current tracking process does not include agency portfolios or deliver agency reports. In FY 2013, ADOA proposed expending \$100,000 to create a website that increases transparency of the PIJ approval process. This project is currently on hold and to date no funds have been spent.

ADOA is currently requesting review of \$1.7 million for project management in FY 2014. This amount is designated for a 10 person team tasked with assisting other state agencies with their respective IT projects on an ongoing basis. This project did not require PIJ or ITAC approval, as the entire amount would be spent on personal services and employee related expenses.

The FY 2014 General Appropriation Act (Laws 2013, 1st Special Session, Chapter 1) appropriated \$2.5 million to ADOA for project management. Following the review of this \$1.7 million project, \$750,000 will remain to be reviewed by JLBC at a later date, following any necessary PIJ and ITAC approvals.

Security, Privacy, and Risk

ADOA's ASET Office is responsible for directing and training state agencies in regards to information security and protection against cyber attacks. JLBC favorably reviewed \$1.9 million for FY 2013 projects related to security privacy and risk. To date, ADOA has expended \$1.1 million of this amount.

(Continued)

ADOA is currently requesting review of \$900,000 on projects related to security, privacy and risk. This amount includes funding for increased security at the State Data Center, security breach simulations of critical applications, and training for state personnel in security awareness and best practices. The relevant projects have received approval through the PIJ process, but do not require ITAC approval.

The FY 2014 General Appropriation Act appropriated \$3.1 million to ADOA for security, privacy, and risk. Following the review of this \$900,000 amount, \$2.2 million will remain to be reviewed by JLBC at a later date, following the necessary PIJ and ITAC approvals.

Enterprise Architecture

Enterprise Architecture is the process of creating an ongoing framework to assist in evaluating the need for a new system or an upgrade to an existing one. In FY 2013, the Committee favorably reviewed \$850,000 for Enterprise Architecture. To date, ADOA has spent \$372,800 of this amount, which included an assessment of ADOA's use of personally identifiable information and State Data Center technology.

ADOA is currently requesting review of \$600,000 on Enterprise Architecture. This amount includes providing policy, standard, and procedure compliance training to state agencies, and providing business analytics and change management services statewide. These projects do not require a PIJ or ITAC approval.

The FY 2014 General Appropriation Act appropriated \$1.0 million to ADOA for enterprise architecture. Following the review of this \$600,000 amount, \$400,000 will remain to be reviewed by JLBC at a later date, following the necessary PIJ and ITAC approvals.

E-Government

The state's E-government projects are intended to enhance the design and capabilities of the state's web portal on an ongoing basis. In 2012, the state's E-government platform delivered more than 430,000 financial transactions totaling nearly \$70 million in revenue. JLBC favorably reviewed \$3.0 million for FY 2013 E-government projects. To date ADOA has spent \$1.2 million of this amount.

In FY 2014, ADOA proposes to spend \$325,000 on E-government projects. This amount includes consolidating website infrastructure and converting websites to the new platform, which includes standard template and color options, increased security, and enhanced capabilities for various applications. This project has received approval through the PIJ process, and ITAC approval is not required.

The FY 2014 General Appropriation Act appropriated \$325,000 to ADOA for E-Government. The current request represents the entirety of the FY 2014 appropriation.

Further Review

The FY 2014 General Appropriation Act appropriated \$11.5 million to ADOA for ASET Projects. ADOA is currently requesting a review of \$3.5 million in FY 2014 for ASET Projects. Following the current review of this \$3.5 million, \$8.0 million for ASET projects will remain to be reviewed by JLBC at a later date, following the necessary PIJ and ITAC approvals, as follows:

- | | |
|-------------------------------|---------------|
| • State Data Center | \$2.7 million |
| • Security, Privacy, and Risk | \$2.2 million |
| • Web Portal Transition | \$2.0 million |
| • Project Management | \$750,000 |
| • Enterprise Architecture | \$400,000 |

Attachment A – Automation Projects Fund Background

The FY 2013 General Appropriation Act (Laws 2012, Chapter 294, Section 124) appropriated a total of \$91,100,000 over 4 years for deposit into the Automation Projects Fund, primarily for the replacement of the state's financial and accounting system, the Arizona Financial Information System (AFIS). In the 2013 Legislative Session, the Legislature enacted a plan to allocate a portion of AFIS replacement costs to non-General Fund sources. As a result, the FY 2014 General Appropriation Act (Laws 2013, 1st Special Session, Chapter 1) reduced the Chapter 294 General Fund appropriation by \$16,998,000 over 4 years and replaced it with a one-time transfer totaling \$17,013,600 charged to other appropriated and non-appropriated funds for the replacement of AFIS. This charge represents a proportional contribution from the General Fund and all other funds, at an estimated 0.72% of FY 2014 expenditures. *Table 1* delineates the change in the Chapter 294 General Fund appropriation.

Table 1			
Change in 4-year Chapter 294 General Fund Appropriation			
(\$ in thousands)			
	Chapter 294	Chapter 1	Difference
FY 2013	16,800	16,800	0
FY 2014	20,000	18,400	(1,600)
FY 2015	20,000	18,400	(1,600)
FY 2016	<u>23,000</u>	<u>9,202</u>	<u>(13,798)</u>
Total	79,800	62,802	(16,998)

Automation Projects Fund Revenues

Chapter 1 made additional transfers into the Automation Projects Fund in FY 2014 for various IT projects in ADOA, the Arizona Department of Corrections (ADC), the Arizona Department of Education (ADE), the Department of Environmental Quality (DEQ), and the Department of Revenue (DOR). These transfers totaled \$34,175,000, as shown in *Table 2*.

Table 2				
Automation Projects Fund				
(\$ in thousands)				
	FY 2013	FY 2014	FY 2015	FY 2016
Beginning Balance		5,225.1	8,075.7	(57.3)
Revenues				
General Fund Appropriation	16,800.0	18,400.0	18,400.0	9,202.0
General Fund Transfer		7,100.0		
Automation Charges		17,013.6		
ADOA Automation Operations Fund	4,200.0	8,130.0		
ADOA State Web Portal Fund	5,600.0	4,000.0		
ADOA Information Technology Fund	1,500.0	345.0		
ADC Inmate Store Proceeds Fund		5,500.0		
State DOC Revolving Fund		2,500.0		
DEQ Emissions Inspection Fund		5,000.0		
ADE Education Learning and Accountability Fund 1/		1,600.0		
Total Funds Available	28,100.0	74,813.7	26,475.7	9,144.7
Total Expenditures	22,874.9	66,738.0	26,533.0	9,202.0
Ending Balance	5,225.1	8,075.7	(57.3)	(57.3)
1/ In addition to \$1.6 million, the FY14 General Appropriation Act transferred all remaining balances in the Education Learning and Accountability Fund as of June 30, 2013, into the Automation Projects Fund for ADE's AELAS project.

The Honorable Don Shooter, Vice-Chairman
Joint Legislative Budget Committee
Arizona State Senate
1700 West Washington Street
Phoenix, Arizona 85007

Dear Representative Kavanagh and Senator Shooter:

In accordance with Arizona Revised Statutes § 41-714, the Arizona Department of Administration (ADOA) is submitting this request for review of fiscal year 2014 Automation Projects Fund (APF) projects. Monies to support the expenditure plan have already been appropriated to the Automation Projects Fund.

The attached document, which was forwarded to JLBC on July 30, 2013, contains a detailed explanation of each proposed project. We will be happy to meet with your staff to provide further explanation as appropriate.

Sincerely,

A handwritten signature in black ink, appearing to read "Brian C. McNeil".

Fiscal Year 2014 Automation Projects Fund (APF) Joint Legislative Budget Committee (JLBC) Initial Review – August 20, 2013

Requesting Agencies:

Arizona Department of Administration (ADOA)
Arizona Department of Revenue (ADOR)
Arizona Department of Corrections (ADC)
Arizona Department of Environmental Quality (ADEQ)
Arizona Department of Education (ADE)

Prepared By: Arizona Department of Administration (ADOA) – Arizona Strategic Enterprise Technology (ASET)

Date Submitted: July 30, 2013

Executive Summary

“In 2013, we are framing the future and assembling a solid infrastructure for economic prosperity. When the transformation of State Government is complete, we will have created an enduring model of effective and responsible governance.” – Janice K. Brewer, Governor - ‘The Four Cornerstones of Reform: Building a Framework of Effective and Responsible Governance’ - http://azgovernor.gov/dms/upload/GS_011413_FCRBuildingFramework.pdf.

Fiscal Year 2014 – Automation Projects

The following transformation initiatives were prioritized by the Governor in her plan, proposed in her budget and finalized by the legislature in Laws 2013, 1st Special Session, Chapter 1, Section 115:

Agency- Division	Project	FY 14 Amount	JLBC Review	PIJ / ITAC Approval
ADOA	ERP - AFIS Replacement	\$ 28,638,000	Complete	Approved
ADOA-ASET	State Data Center (SDC) Improvements & Maintenance	\$ 2,675,000	TBD	Pending
ADOA-ASET	Statewide Security Enhancements	\$ 3,075,000	August 20 Request	Pending
ADOA-ASET	Enterprise Architecture Enhancements	\$ 1,000,000	August 20 Request	Not Required
ADOA-ASET	Statewide Automation & IT Project Management	\$ 2,450,000	August 20 Request	Not Required
ADOA-ASET	E-government Agency Website Platform	\$ 325,000	August 20 Request	Approved
ADOA-ASET	Web Portal Transition	\$ 1,975,000	TBD	Pending
ADOR	Taxpayer Accounting System Refresh	\$ 1,700,000	TBD	Approved
ADOR	Data Security and Encryption	\$ 4,900,000	TBD	Pending
ADC	Adult Information Management System (AIMS) Upgrade	\$ 8,000,000	August 20 Request	Approved
ADEQ	E-Licensing System	\$ 5,000,000	TBD	Pending
ADE	Student Longitudinal Data System (SLDS) and Education Learning and Accountability System (ELAS)	\$ 7,000,000	August 20 Request	Pending
Total		\$ 66,738,000		

Oversight and Transparency

ADOA-ASET currently has three oversight resources who work with all State agencies to develop Project Investment Justifications (PIJs). All IT projects over \$25,000 have to go through the PIJ process and receive approval from the State Chief Information Officer (CIO). All IT Projects over \$1,000,000 have to go through an additional checkpoint. These large projects require agencies to present and receive approval from the Information Technology Authorization Committee (ITAC), chaired by the State CIO.

Because of the size and complexity of the projects associated to the Automation Projects Fund (APF), JLBC and OSPB have made it possible for ADOA-ASET to expand Oversight services in Fiscal Year 2014. In the ADOA-ASET 'Statewide Automation & IT Project Management' project, ADOA-ASET has been allocated \$1,700,000 to accomplish the following objectives:

- Assist agencies in business case development, project planning, risk mitigation planning, oversight, reporting, communication and finance
- Develop templates, processes and tools
- Provide oversight training
- Monitor and coordinate financial reporting

With a Favorable Review of this project, ADOA-ASET is prepared to grow the Oversight team and provide these services to all the agencies working on strategic initiatives funded in the APF. ADOA-ASET understands and assumes that continued funding for this team is dependent on the success of these services and the success of the Automation Projects.

Quarterly Reporting

When the Joint Legislative Budget Committee (JLBC) reviewed the Fiscal Year 2013 Automation Projects Fund (APF) projects in June 2012, a condition to provide a quarterly report on the last day of the month following the end of a quarter was applied to all projects funded through the Automation Projects fund. Since then ADOA has partnered with JLBC and the Governor's Office of Strategic Planning and Budgeting (OSPB) to refine the report and its details.

The 2013 legislative process codified the reporting process as follows:

Laws 2013, 1st Special Session, Chapter 1, Section 115, I. I. The department of administration shall **submit to the joint legislative budget committee quarterly reports on or before the last day of each calendar** quarter on the implementation of projects described in this section, including the projects' deliverables, timeline for completion and current status.

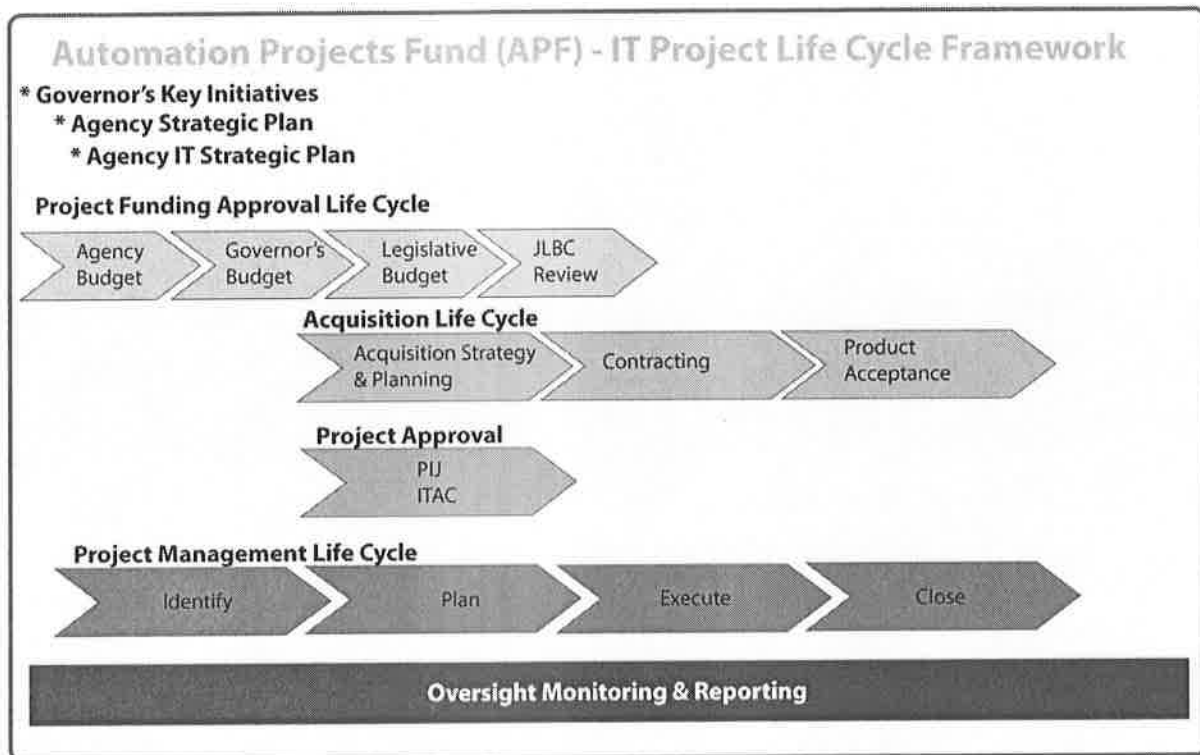

ADOA-ASET recognizes the change in the law and will prepare and submit quarterly reports on or before the last day of each quarter. JLBC has suggested that each quarterly report reflect the last month of the previous quarter and the first two months of the current quarter. For example;

- Fiscal Year 2014, Quarter 1 report would be due on or before September 30 and would contain data for July and August 2013.
- Fiscal Year 2014, Quarter 2 report would be due on or before December 31 and would contain data for September, October and November 2013.

ADOA-ASET finds this option reasonable and would like to formally make a request to have this included in the Favorable Review.

APF - IT Project Life Cycle

ADOA-ASET has defined the following Automation Projects Fund (APF) – IT Project Life Cycle Framework:

This framework provides guidance for the overall project life cycle: ensure project sponsorship; clearly define the business problem(s) to be solved; identify funding streams; develop and manage acquisition strategy; assure compliance with project approval process; execute the project and end-to-end monitoring and reporting.

State agencies are responsible for developing strategic plans and IT plans aligned with the Governor's key initiatives. Agencies are also responsible for developing their budgets (working with OSPB and the legislature), acquisition plans (in alignment with the State Procurement Office (SPO)), and Project Investment Justification Document (PIJ); for presenting to the Information Technology Authorization Committee (ITAC), where necessary; and then for executing the projects and providing oversight reporting.

ADOA-ASET facilitates the PIJ and ITAC processes for project approval. ADOA-ASET also provides some standards and best practices around project management and is responsible for end-to-end oversight and reporting on IT projects.

IT projects funded by the APF must receive a favorable review from JLBC to proceed. ADOA-ASET works with all agencies that have projects funded through the APF to develop an initial report that can be used to review the projects approved in the budget. ADOA-ASET utilizes this initial report as the foundation for the APF quarterly report.

Request for Favorable Review – August 20

This Initial Review document describes the strategic IT programs for ADOR, ADC, ADEQ, ADE and ADOA for Fiscal Year 2014. Each program and their projects are at various stages of the IT Project Lifecycle. Each agency has identified projects to be reviewed on August 20 for a Favorable Review in order to move forward on the execution phase. All of the agencies understand the process and are committed to managing these projects successfully.

ADOA-ASET - State Data Center (SDC) Improvements & Maintenance - \$2,675,000

ADOA-ASET's core mission is to ensure the continuity of mission critical and essential systems of our customers. The State Data Center (SDC) currently hosts more than one hundred customers and processes multiple billions of dollars of transactions per year. In Fiscal Year 2013, ADOA-ASET completed many projects in the SDC including replacing multiple Power Distribution Units (PDUs), expanding a building to house an Automatic Transfer Switch (ATS) and to add an additional Uninterruptible Power Source (UPS), updated wiring and many other projects. ADOA-ASET is in the final stages of replacing the 17+ year old UPS with two new UPS units.

In Fiscal Year 2014 (FY14), ADOA-ASET will finalize the UPS installations, implement a monitoring and notification system and begin to address disaster recovery solutions for the open systems line of services. ADOA-ASET has developed a comprehensive plan to address critical disaster recovery needs and move applicable services to cloud offerings.

SDC Projects

Project Name	FY14 Description	Project Budget
State Data Center (SDC) Disaster Recovery Site Storage Solution	<ul style="list-style-type: none">- Implement shared area network (SAN) director- Implement disaster recovery (DR) tape library- Implement virtual storage platform- Implement synchronization software & hardware	\$ 800,000

Total SDC		\$ 2,675,000

SDC Projects – Favorable Review Requests – August 20

There are no Favorable Review requests for SDC projects pending at this time.

ADOA-ASET - Statewide Security Enhancements - \$3,075,000

Over the past two years several states including Utah, South Carolina and Alabama have incurred serious data breaches. The complexity and ferocity of the attacks continue to increase. Basic security 'Hygiene', day-to-day operational basics, can address a significant portion of risks but not all. The ADOA-ASET Security Privacy and Risk (SPR) team has developed a comprehensive Security Strategy that will systematically address potential gaps.

Security Projects

Project Name	FY14 Description	Project Budget
Secure Data Center Facility	<ul style="list-style-type: none"> - Perform security assessment for ADOA-ASET disaster recovery (DR) site - Overhaul DR network - Implement DR site firewalls and web application protection - Implement carrier network enhancements 	\$ 400,000
Secure Data Protections Pilots	<ul style="list-style-type: none"> - Implement solution to discover, track and protect sensitive data - Implement end user solution with supporting hardware and software capabilities - Expand email data loss prevention (DLP), encryption, and spam filter - Encrypt critical end user laptops - Encrypt critical databases - Implement two factor authentication system *Reoccurring maintenance needs to be factored in 	\$ 350,000
Data Center Network Managing/Monitoring	<ul style="list-style-type: none"> - Identify mission critical, at-risk web applications that use personally identifiable information (PII), personal health information (PHI) or sensitive data for service delivery - Implement perimeter firewalls - Identify at-risk agencies and implement perimeter firewall protection - Implement web application filtering to aid in the prevention of SQL injection attacks 	\$ 300,000
Security Assessment	<ul style="list-style-type: none"> - Complete penetration testing of the State's most critical applications - Address vulnerabilities and security problems identified - Address critical issues identified in Penetration Testing *Agency resources required to address vulnerabilities - funds for testing only 	\$ 450,000
Central Security Management	<ul style="list-style-type: none"> - Form multi-agency working group to assess cloud encryption offerings - Conduct Proof of Concept (POC) - Implement solution determined by POC - Implement web content filtering to remove malicious and unwanted sites - Implement server encryption solution 	\$ 650,000
Incident Response	<ul style="list-style-type: none"> - Implement solution to protect SDC customers from external distributed denial-of-service (DDOS) attacks 	\$ 150,000
Security Awareness	<ul style="list-style-type: none"> - Provide multi-agency security training classes - Continue in-person presentations to key staff - Conduct multi-agency security exercise(s) 	\$ 250,000
Data Center Security Management	<ul style="list-style-type: none"> - Purchase additional licensing to provide alert capabilities when unexpected server configuration changes are made - Implement intrusion detection to identify malicious activities or policy violation for the SDC - Add network time appliance to SDC - Increase patch management compliance licensing 	\$ 525,000
Total SPR		\$ 3,075,000

ADOA-ASET - Enterprise Architecture Enhancements - \$1,000,000

Enterprise Architecture (EA) is a disciplined approach to long-term Business Information Technology planning. ADOA-ASET's EA objective is to:

Increase enterprise agility through leadership, strategic alignment, unified processes, strong data governance and actionable policies, standards and procedures.

To accomplish this objective, ADOA-ASET plans to continue to provide statewide training opportunities; provide updated policies, standards and procedures as well as proactively assessing strategic technologies and key services that will enhance the value of business services.

EA Projects

Project Name	FY14 Description	Project Budget
Business and Technical EA Training	- Provide statewide Business Analytics, Service and Change Management Training, and Strategic Planning training	\$ 100,000
Policy, Standard and Procedure (PSP) Compliance	- Establish statewide PSP working groups - Create and implement tiered approach for updating and reviewing all agency PSPs - Assist agencies in issue mitigation	\$ 500,000
Strategic Technology Assessment	- Complete assessment of ADOA-ASET services including assets (hardware and software) and resources - Complete cost analysis of each service and establish new pricing models - Implement IT Financial Management Reporting and Dashboards	\$ 400,000
Total EAA		\$ 1,000,000

Total EAA			\$ 600,000		

ADOA-ASET - Statewide Automation & IT Project Management - \$2,450,000

Strong project management is the foundation to successful projects. It is critical to have the right project management lifecycle methodology and to empower people with the right resources. ADOA-ASET is dedicated to developing a statewide center of excellence for project management and to increase the oversight capabilities for strategic Automation Projects.

Project Management Projects

Project Name	FY14 Description	Project Budget
Oversight Office Transformation	- Document, streamline and automate statewide IT Oversight processes	\$ 300,000
Transformation Initiatives Project Managers	- Project management resources to execute ADOA-ASET transformation initiatives	\$ 450,000
Automation Projects Fund Strategic Execution Team	- Assist agencies in business case development, project planning, risk mitigation planning, oversight, reporting, communication and financial management - Develop templates, processes and tools *Ongoing for the life of Automation Projects Fund	\$ 1,700,000
Total PMO		\$ 2,450,000

Total PMO			\$1,700,000		

ADOA-ASET - E-government Agency Website Platform - \$325,000

E-government is at the heart of the Governor's vision to modernize and transform State Government. In the "The Four Cornerstones of Reform", the Governor defined initiatives to improve licensing timeframes at State agencies. ADOA-ASET currently supports 95 State entities and more than 100 websites. In 2012, the Arizona E-government platform delivered more than 430,000 financial transactions bringing in nearly \$70 million in revenue to the State.

ADOA-ASET is in the process of developing a statewide platform to host and manage agency websites. This new platform will provide standard templates and color options for agencies to choose from. ADOA-ASET will provide training and resources to help agencies create and maintain content on their own websites.

E-government Projects

Project Name	FY14 Description	Project Budget
Agency Website Transformation and CMS Solution Implementation	- Convert websites to new agency web platform - Consolidate website infrastructure	\$ 325,000
Total EGV		\$ 325,000

Total EGV			\$ 325,000		

ADOA-ASET - Web Portal Transition - \$1,975,000

In June of 2013, ADOA-ASET awarded a new E-government contract to Business & Decisions, Eagle Creek Software Services, IBM and Unisys. This also means that the State must transition away from the incumbent vendor platform. The State is currently dependent on many components of the incumbent vendor and we must replace core capabilities, such as payment processing, as well as ensure that applications will continue to focus with the new capabilities.

Web Portal Transition Projects

Project Name	FY14 Description	Project Budget
Web Portal Transition	- Transition from current vendor to new E-government model - Transition payment processing engine, legacy applications, infrastructure and support	\$ 1,975,000

SUBJECT: ADOA/ADC – Review of Adult Inmate Management System (Automation Projects Fund)

Request

Pursuant to A.R.S. § 41-714, the Arizona Department of Administration (ADOA) has requested that the Committee review \$8.0 million in proposed FY 2014 expenditures from the Automation Projects Fund to replace the Adult Inmate Management System (AIMS) at the Arizona Department of Corrections (ADC).

For additional information regarding the Automation Projects Fund, please refer to agenda item 1A.

Recommendation

The Committee has at least the following 2 options:

1. A favorable review.
2. An unfavorable review.

The Information Technology Authorization Committee (ITAC) has approved the project at their May 2013 meeting, with the following conditions:

1. The Request for Proposal (RFP) for the proposed system shall only be issued upon agreement between ADC and Arizona Strategic Enterprise Technology (ASET) regarding the technology requirements and evaluation process identified in the Statement of Work (SOW).
2. ADC may not award the solicitation until an updated Project Investment Justification (PIJ) reflecting the results of its evaluation, including the selected technology approach, scope of work, implementation schedule, and detailed itemization of the development and operational costs for the project, has been submitted for review to ASET and approved by ITAC, in Executive Session if applicable.

(Continued)

3. ADC shall retain the services of the vendor currently engaged in as an Independent Advisory Consultant (IAC) to assist in the development of the RFP, for the duration of the solicitation process. Costs to retain the current vendor, or other qualified vendor, as an IAC for the duration of the project, must be reflected in the updated PIJ.

The JLBC Staff recommends that the Committee consider adopting the same provisions as part of its review.

Analysis

Background

In 1985, ADC implemented AIMS. AIMS is an automated system designed to track a variety of ADC data, including population management, intake processing, inmate identification, and sentence calculations, as well as to assist ADC in numerous reporting requirements to other public and private entities.

The legacy system has reached the end of its useful life for a variety of reasons, primarily the result of its aging programming language, COBOL/CICS. It is difficult to recruit, hire and train programmers that have experience in this programming language, as most are recruited out of retirement. In addition, excessive complexity within the system results in inaccuracy of release date calculations, criminal code changes, and requires duplicate record keeping and many manual adjustments. ADC reports spending over \$2.0 million annually in operational support costs.

Procurement

To prepare for replacing AIMS, ADC contracted with an independent advisory consultant (IAC), Public Consulting Group (PCG), to evaluate the program. The IAC provided a needs assessment, review of alternate solutions, and a comparison of similar systems in other states. In addition, the IAC will assist ADC in the development of the RFP to purchase a modified commercial off the shelf system.

In spring 2013, PCG compared similar offender management systems implemented since 2005 in Maryland, Wisconsin, Kentucky, Virginia, Washington, and Arkansas. In summarizing the PCG survey, ADC noted that "many of the costs associated with these implementations appear to be at the lower end of the cost range provided by ADC," but that "further research is needed to extrapolate this information to further estimate the cost to replace AIMS." Implementation contracts ranged from \$10 million to \$20 million; compared to Arizona, the states surveyed tended to be slightly smaller in terms of inmates but considerably larger in terms of parolees/community supervision.

The new system is expected to provide more detailed data, enhanced user navigation, and improved data integration between other state agencies. Specific technological details of the system will be fully determined once the RFP has been awarded and a contractor has been chosen. However, the new system is expected to be web-based, operated on a hosted platform, and will be customizable.

Current Proposal

ADOA is currently requesting a favorable review of \$8 million in expenditures for the first year of a 3-year, \$24 million project. This amount is based on a RFI issued in January of 2012, and consists of 2 main components, as follows:

- Professional and Outside Services \$7,250,000
- Equipment \$750,000

ADC now estimates that they will spend \$5.2 million in FY 2014, with the remaining \$2.8 million being spent in subsequent years.

(Continued)

Project Financing

The FY 2014 General Appropriation Act (Laws 2013, 1st Special Session, Chapter 1) transferred a total of \$8 million into the Automation Projects fund to finance this project:

- \$5.5 million from the Inmate Store Proceeds Fund
- \$2.5 million from the State DOC Revolving Fund

The remaining \$16 million in FY 2015 and FY 2016, for the completion of the \$24 million project, is expected to be financed from transfers from these same 2 funds into the Automation Projects Fund.

RS:BH/ts

ADC - Adult Information Management System (AIMS) - \$8,000,000

AIMS is built on a CICS/COBOL (1978) programming platform. This programming platform is outdated and most public and private IT organizations have been moving away from CICS/COBOL based systems to newer technology platforms. ADC has had limited success in finding, recruiting, hiring and retaining programmers with CICS and COBOL experience. There are currently no schools offering these mainframe-based programming skills in the State of Arizona. Risk continues to escalate as internal COBOL programmers retire and the pool of potential candidates shrinks. ADC has recently been successful filling two positions with retirees; however, this pool is shrinking.

Release date calculations in AIMS are not always accurate and there are certain types of calculations that must be completed manually due to systems limitations. The AIMS algorithm for sentence calculations is complex. The code spans three major eras of law, with additional complexity due to the overall sentence structure. ADC dependence on AIMS limits its ability to keep up with inmate movement and changes, release calculations, criminal code changes and interfacing with other applications or agencies. Further, each prison must maintain a duplicate paper record on each inmate since AIMS does not have the ability to import the information from court documents, pre-sentence and disciplinary reports, or provide prior felony conviction packets to prosecutors. Information placed in AIMS requires manual sentence verification prior to an inmate's release.

Data entry and data validation tools are extremely limited in the AIMS system. A web-based system would place limits on data entry and create logs that can be reviewed to determine who and when entries were made to avoid future errors. In addition, AIMS does not have the necessary interfaces to communicate with other applications or agencies. For example, DES and ADC recently partnered together to recoup unemployment benefits that had been paid to inmates. These types of interfaces would be used to enhance information sharing and coordination among State and Federal partners.

ADC requests \$8,000,000 (\$24,000,000 over three years) to replace the current AIMS program with a modern adaptable platform for inmate management. This new system will tie into the agency's existing Microsoft computing infrastructure and will be based as closely as possible on a commercial off-the-shelf (COTS) deployment. This deployment will enhance data entry accuracy, real-time reporting, reduce maintenance for programming support and will be in compliance with Statewide Enterprise Architecture computing requirements. When fully implemented, the AIMS replacement program will eliminate the cost associated with manual record keeping and the current requirement to maintain duplicate files.

AIMS Project

SUBJECT: ADOA/ADE - Review of Arizona Education Learning and Accountability System
(Automation Projects Fund)

Request

Pursuant to A.R.S § 41-714, the Arizona Department of Administration (ADOA) has requested that the Committee review \$3.4 million in proposed FY 2014 expenditures from the Automation Projects Fund for 3 projects related to the development of the Arizona Education Learning and Accountability System (AELAS) at the Arizona Department of Education (ADE).

Recommendation

The Committee has at least the following 2 options:

1. A favorable review.
2. An unfavorable review.

The Information Technology Authorization Committee (ITAC) approved 1 of the 3 projects (the "Education Data Fidelity" project) at its August 2013 meeting (the other 2 did not require ITAC approval), with the following conditions:

1. ADE may proceed with the assessment phase of the AELAS "Education Data Fidelity" project to determine the data collection requirements, business processes, technical approach, and legal requirements to implement a compliant student data store. Costs are not to exceed \$630,000 for the assessment phase, and ADE may not proceed with additional development efforts, until a full Project Investment Justification (PIJ) reflecting the technology, scope of work, costs and implementation schedule for the proposed solution has been submitted to Arizona Strategic Enterprise Technology (ASET) and ITAC for review and approval.
2. ADE must present information to ITAC regarding an upcoming Organization Entity Management PIJ, as a component of the AELAS Education Data Fidelity initiative, prior to proceeding beyond an assessment phase which is not expected to exceed \$90,000 in cost.

(Continued)

In addition, ASET has approved a PIJ for the "School Finance Automation" project with the following condition:

1. ADE may proceed with the design, development and implementation of the proposed solution related to the AELAS School Finance automation project; however, should there be significant differences in the scope of work, costs, implementation schedule, or proposed technology, ADE must amend the PIJ for the project to reflect the changes and submit it to the ASET office for review and approval prior to further expenditure of funds.

The third project, the Program Support Office, requires neither ITAC nor ASET approval.

The JLBC Staff recommends that the JLBC consider adopting the ITAC and ASET provisions as part of its review. In addition, the JLBC Staff recommends the following additional provisions:

1. ADE shall return to the Committee for additional review of the "Education Data Fidelity" project if ASET raises serious concerns when reviewing its upcoming full PIJ for the \$920,000 development cost.
2. ADE shall present results of the pending third party analysis of AELAS for review at the next Committee meeting.

Analysis

Background

Pursuant to A.R.S. § 15-249, AELAS is required to maintain a longitudinal student level data required to meet state and federal reporting requirements, incorporate the Student Accountability Information System (SAIS), and be easily accessible over the internet for data collection, compilation and reporting. In 2010, the Governor's Office commissioned a third party evaluation of ADE's current IT systems. The report indicated that many aspects were insufficient, including obsolete and unsupported hardware and software, overly complex customization and insufficient resources to provide ongoing support and development.

Since then, ADE has used state and federal monies to stabilize SAIS in order to reduce down time and enable faster processing and reconciliation of data with the existing system until it can be replaced. This has enabled the system to perform better in the short term, but ADE reports that the system "still has a high error rate, is costly to support and maintain, and catastrophic failure is likely without replacement."

In addition to replacing SAIS, AELAS would establish a new Student Information System (SIS) for storing both student data related to funding (currently in SAIS) and student/teacher/course academic data (not currently in SAIS). ADE envisions that districts would opt into SIS by paying a charge. ADE believes that the charge would be a savings relative to their current standalone systems. AELAS also is intended to create standardized mechanisms for importing and exporting data to/from the SIS in order to reduce data reporting errors ("Education Data Fidelity") and establish a Statewide Longitudinal Data System (SLDS) to provide access to multi-year data for individual students/teachers/courses that is stored in the SIS via data "dashboards."

During the most recent legislative session, ADE requested \$34.8 million over 2 years (\$23.8 million in FY 2014 and \$11.0 million in FY 2015) for AELAS development. This included \$23.5 million for SAIS replacement, \$4.2 million for the SLDS, \$4.1 million for an instructional improvement system, and \$4.0 million for integrating, replacing and upgrading ADE's internal information technology systems. The latter 2 items are not part of ADE's current \$3.4 million request.

Current Request

ADE previously used its own funds to administer the project, which included a combination of state General Fund monies (\$5 million per year in FY 2012 and FY 2013), mandatory fees of \$6 per Full Time

(Continued)

Student Equivalent (FTSE) from Arizona universities and community colleges (approximately \$1.5 million per year in FY 2012 and FY 2013), and federal monies (approximately \$10 million in FY 2012 and FY 2013 combined).

In FY 2014, the Legislature appropriated \$7 million to ADOA to oversee the project and work with ADE to implement a portion of the larger project. Of the \$7.0 million, \$5.4 million is from the state General Fund and \$1.6 million is from continued university and community college AELAS fees.

ADOA is currently requesting a review of \$3.4 million of \$7.0 million in FY 2014 expenditures from the Automation Projects Fund, consisting of 3 components, as follows:

- | | |
|---|---------------|
| • AELAS – Education Data Fidelity (Ed-Fi) | \$1.6 million |
| • Program Support Office (PSO) | \$1.0 million |
| • AELAS – School Finance Automation | \$800,000 |

Following review of this \$3.4 million request, \$3.6 million would remain to be approved by this Committee at a later date, following the necessary PIJ and ITAC approvals.

AELAS – Education Data Fidelity (Ed-Fi)

The Education Data Fidelity (Ed-Fi) project is the mechanism that standardizes how student data can be imported and exported from local education agencies (LEAs) to the “data stores” built in the AELAS SIS project. Currently, uploading information from an LEA to the current SAIS system is time consuming and prone to error. In FY 2014, this project will provide compatibility between SIS and the 4 primary vendors that LEAs utilize, representing 95% of LEAs statewide. ADE is currently requesting a review of \$1.6 million for this project in FY 2014, which includes \$630,000 for assessment and \$920,000 for development. ADOA estimates that an additional \$450,000 will remain to be approved for this project in FY 2014, following the necessary PIJ and ITAC approvals. ITAC approved this project at their meeting on August 12, 2013.

Program Support Office (PSO)

The Program Support Office (PSO) offers quality control functions to ensure that both projects and funds are managed appropriately. Specifically, the PSO creates standards for project design, development and implementation, as well as financial oversight for ADE IT’s contract laborers. ADE is requesting review of \$1.0 million for the PSO in FY 2014, for management of vendors, finances, and oversight. ADOA estimates that there will be no need to return to this Committee for further funding in FY 2014. This project does not require PIJ or ITAC approval.

AELAS – School Finance

SAIS currently maintains 48 different school finance functions that must be performed manually by LEAs and ADE in order to disburse funds from the Classroom Site Fund. This is time intensive for the various stakeholders and prone to error. ADE is requesting review of \$800,000 to automate 13 of these 48 manual functions during FY 2014. Further automation capabilities are out of scope for FY 2014 and would require additional funding in subsequent years. ADOA anticipates that there would be no need to return to this Committee for further funding for this specific project in FY 2014. This project has already received the appropriate PIJ approvals.

Third Party Oversight

On a related note, a contract was awarded to WestEd (a consulting firm) on April 3, 2013 to provide additional third party oversight for AELAS. Since then, the vendor subcontractor for the project (“CELT”) has interviewed approximately 75 AELAS stakeholders, including ADE staff, key education stakeholders, school superintendents and Chief Technology Officers, and ASET staff in order to gather information for analyzing the project. WestEd is scheduled to meet with stakeholders to review a draft of its AELAS report on August 22, 2013 and is scheduled to deliver the final report on August 30, 2013.

ADE – Statewide Longitudinal Data System (SLDS) and the Education Learning and Accountability System (ELAS) - \$7,000,000

The Program Support Office (PSO) creates standards for project design, development and implementation as well as financial oversight for ADE IT's contract laborers. The PSO also prepares reports and other materials required for AELAS program oversight. This is a critical quality control function to ensure current and future projects and funds are managed appropriately.

Arizona Education Learning and Accountability System (AELAS) Student Information System (SIS) is replacing the student data portion of the aging Student Accountability and Information System (SAIS). ADE will be creating standardized data stores and preparing a Request for Proposal (RFP) soliciting education software vendors to design a statewide SIS that Local Education Agencies (LEAs) can purchase at a savings. ADE anticipates implementing at least six LEAs in FY14, with further implementations in later years subject to LEA's opt-in participation. Making the optional statewide SIS available to additional LEAs is out of scope for FY14 and will require additional funding in future fiscal years.

Arizona Education Learning and Accountability System (AELAS) Education Data Fidelity (Ed-Fi) is the mechanism to standardize how student data can be imported and exported into the data stores created in the AELAS SIS project. Ed-Fi uploads LEA data from their own student data system in ADE's format and allows for a reduction of the data collection burden placed upon LEAs. This should significantly reduce the student data reporting errors currently created between SAIS and LEA standalone systems. ADE will integrate the four primary student information system vendors, representing more than 95% of LEAs statewide, in FY14.

The AELAS School Finance project will automate a portion of the School Finance functions of SAIS. This work streamlines and automates 13 of the 48 existing, manual financial payments, significantly reducing processing time and time spent by LEAs and ADE fixing errors. Complete School Finance replacement is out of scope for FY14, and SAIS sustainability remains a significant risk as a result.

Statewide Longitudinal Data System (SLDS) – Arizona Education Data Driven Decision System (AzED³S) provides dashboards of the student data collected in the ADE data warehouse using the newly-constructed data stores from the AELAS SIS project. Work will also include concurrent implementation of the new security protocol funded in previous fiscal years. It is estimated that these dashboards, currently displaying only historical data, will be deployed to 200 LEAs in FY14. Complete roll out will be completed by December 2014 and will require additional funding in later fiscal years.

ADE Projects

Project Name	FY14 Description	Project Budget
Program Support Office (PSO)	- Program Support Office (PSO) consisting of Portfolio Director, Phase Gate Management, Vendor Management, Communications, Risk Management, Financial Management and Oversight Management	\$ 1,000,000

SUBJECT: Arizona Department of Corrections - Review of FY 2013 Bed Capacity Report

Request

Pursuant to a FY 2014 General Appropriation Act footnote, the Arizona Department of Corrections (ADC) has submitted for review its FY 2013 bed capacity report.

Recommendation

The Committee has at least the following 2 options:

1. A favorable review of the department's bed capacity report.
2. An unfavorable review of the department's submission.

During FY 2013, the department reduced its total operating capacity by (179) beds, from 41,989 to 41,810. During the fiscal year, the inmate population increased by 809 from 39,877 to 40,686. The medium and close custody populations represented the majority of the increased population, and the department shifted resources from minimum custody units to meet the needs of the medium and close custody populations.

For FY 2014, the department projects its operating capacity will increase with the opening of 500 medium custody private beds.

Analysis

Apart from any legislative changes, ADC may alter its bed capacity during the year. The department can establish or decommission beds and also has flexibility to shift beds between inmate classifications. These changes affect its bed capacity during the year, thus impacting calculation of the bed surplus and

(Continued)

shortfall. To better track the impact of the department's revisions, the FY 2014 General Appropriation Act requires the ADC to submit bed capacity data for FY 2013, explain any adjustments since FY 2012, and provide projections for FY 2014.

Operating Capacity

The department's operating capacity is the sum of rated and temporary beds at both state operated and private prisons. Rated beds are, by physical design or as defined by law, a permanent part of a unit. Temporary beds are added to areas that were not originally intended to house inmates or double-bunked beds in areas that were intended for single beds. In addition to rated and temporary beds, special use beds are used for investigative detention, disciplinary isolation, maximum behavior control, mental health observation, or medical inpatient care. Due to their short term usage, these beds are not counted as part of ADC's operational capacity.

Table 1 (attached) provides a summary of the adjustments.

Minimum Security

At the end of FY 2012, there was an operational capacity surplus of 1,767 minimum security beds. In response, ADC reduced these type of beds by (1,128). Of this number, 760 beds were reclassified as medium security to address a shortfall in that category. In addition, ADC closed 368 beds entirely at Tucson and Florence.

For FY 2014, the department does not list any projected changes for minimum custody beds. For a breakdown of the capacity changes by prison, please review page 7 of the ADC report.

Medium Security

At the end of FY 2012, there was an operational shortfall of (61) medium beds. In addition, the medium population grew by 695 prisoners in FY 2013. In response, ADC added 757 new medium beds.

This increase was achieved with the 760 converted minimum beds and 189 new temporary beds. These gains were offset by shifting (192) beds to close status.

The department expects to see additional medium custody operational capacity due to the opening of 500 medium custody private beds in FY 2014, but this operational capacity growth will be offset by the projected reclassification of 400 medium custody beds to close custody beds.

Close Custody

At the end of FY 2012, ADC had a close custody surplus of 84 beds. That surplus was depleted as the close custody population grew by 153 prisoners. ADC addressed this growth with the 192 newly converted medium beds.

For FY 2014, ADC plans to convert 400 medium custody beds to close custody.

Maximum Security

At the end of FY 2012, ADC had an operational surplus of 322 maximum beds. ADC reported no change in operational capacity for FY 2013. During FY 2013, the maximum custody population decreased by (47) prisoners.

For FY 2014, ADC projects no change in operational capacity.

(Continued)

Bed Surplus/Shortfall

Table 2 (attached) illustrates 2 different ways to evaluate whether the department is experiencing a bed surplus or shortfall.

When counting only rated beds, ADC has a shortfall of (4,005) beds. *Table 2* provides details on the rated bed shortfall by inmate classification level. While there is an overall rated bed shortfall, there is a surplus of close custody beds. The shortfalls occur in minimum beds (741), medium beds (3,125) and maximum beds (232). The addition of the Red Rock Facility in FY 2014 will address the shortage in rated medium custody beds.

The second method of evaluating bed status is to determine ADC's overall bed capacity, including both rated and temporary beds. After adjusting for 5,129 temporary beds in the overall ADC system, the (4,005) rated bed shortfall becomes a 1,124 total bed surplus. *Table 2* provides details on the operational bed surplus or shortfall by inmate classification level. In terms of the individual bed types, there are surpluses in each bed category, ranging from a surplus of 1 medium custody bed to 631 minimum custody beds.

CHARLES L. RYAN
DIRECTOR

July 29, 2013

The Honorable John Kavanagh, Chairman
Joint Legislative Budget Committee
1716 West Adams
Phoenix, AZ 85007

Dear Representative Kavanagh:

Enclosed you will find the Arizona Department of Corrections Bed Capacity Report which is being submitted pursuant to Laws 2013, Fifty-first Legislature, First Special Session, Chapter 1 (HB 2001).

As required by statute the report reflects the bed capacity of each custody level at each state-run and private institution, divided by rated and total beds. The reporting period is for June 30, 2012 to June 30, 2013 and includes an explanation for each change that occurred within this time period. In addition to the actual bed capacity through June 30, 2013, the enclosed report also includes the projected bed capacity for the period from July 1, 2013 through June 30, 2014 and provides an explanation for any anticipated changes.

Within the ADC beds are defined, categorized, tracked and used in several different ways. For the purposes of this report and by policy the ADC defines beds as outlined below:

- **Rated Beds (R):** Rated beds are by physical design or as defined by law or court order, or as determined in relation to staffing level, food service, water and sewage capabilities, and a permanent part of a unit.
- **Temporary Beds (T):** Temporary beds are added to a unit in addition to rated beds assigned to that unit such as tents, or beds in day rooms. Temporary beds are not part of the physical design of a unit and can result in overcrowding, impact staff and inmate safety and create a strain on the physical plant such as water and sewage capabilities.
- **Operating Capacity (R+T=OC):** Operating capacity is the sum of rated beds and temporary beds only.
- **Special Use Beds (SU):** Special use beds are used for maximum behavior control, mental health observation or medical inpatient care, and investigative detention. Special use beds are short-term and not part of the operating capacity.

During FY 2013 the ADC operating capacity (rated beds + temporary beds = operating capacity) was reduced by 179 beds from 41,989 on June 30, 2012 to 41,810 on June 30, 2013. In addition, special use beds were reduced by 2 from 1,555 on June 30, 2012 to 1,553 on June 30, 2013. Additional detail on changes that occurred during FY 2013 can be found in Section I of the attached report. The changes are summarized as follows:

Explanation of change		Min.	Med.	Close	Max.	Total
1.	Temporary beds opened due to inmate growth/bed need	0	189	0	0	189
2.	Closure of ASPC-Tucson SACRC & ASPC-Florence Picacho	-368	0	0	0	-368
3.	Revision to custody level of existing beds	-760	568	192	0	0
Total Change to Operating Capacity		-1,128	757	192	0	-179

1. Temporary beds opened due to inmate growth/bed need

During FY 2013 the inmate population grew by 809 inmates. The growth intensified the bed shortage in medium custody, particularly among the sex offender and protective custody populations. As a result, 67 medium custody, sex offender beds were added at ASPC-Eyman Cook Unit and 122 medium custody, protective custody beds were added at ASPC-Lewis Barchey Unit.

2. Closure of ASPC-Tucson SACRC & ASPC-Florence Picacho

During FY 2013 ADC closed two minimum custody units: ASPC-Tucson SACRC and ASPC-Florence Picacho Unit. The closure of the ASPC-Tucson SACRC Unit allowed the ADC to accomplish two objectives. First, the physical plant, FTE, and funding were reallocated to serve as a Community Corrections Center in Pima County. The goal of the Community Corrections Center is to promote successful completion of community supervision and promote a long-term reduction to recidivism. Second, the remaining FTE and funding were reallocated to meet critical staffing needs and reduce future funding requests for additional COII positions.

The closure of ASPC-Florence Picacho Unit, which was possible due to surplus minimum custody beds, created an opportunity to reallocate FTE and funding to meet critical staffing needs and reduce future funding requests for additional COII positions.

3. Revision to custody level of existing beds

During FY 2013, there were three revisions to the custody level of existing beds: ASPC-Perryville Santa Maria Unit 384 minimum custody beds were reclassified to medium custody, ASPC-Perryville Lumley Unit 192 medium custody beds were reclassified to close custody and ASPC-Lewis Bachman Unit 376 minimum custody beds were reclassified to medium custody. In each case the units meet the physical plant standards required for the increase in custody level.

Bed changes projected during FY 2014 are anticipated to increase the operating capacity from 41,810 on June 30, 2013 to an estimated 42,310 on June 30, 2014. The projected changes include the addition of the first 500 medium custody beds at ASP-Red Rock authorized by Laws 2012, 2nd Regular Session, Chapter 302 (SB 1531), Section 27. Other bed changes are likely to occur

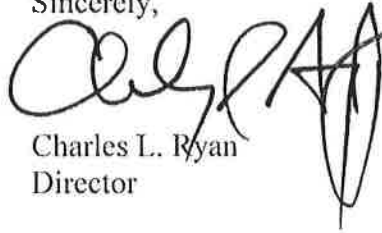

The Honorable John Kavanagh
July 29, 2013
Page 3

between custody level and specialized populations once ASP-Red Rock is activated. The anticipated changes are included in Section II of the attached report.

All prospective bed changes are estimates that will likely be revised during the upcoming year based on population changes and inmate management needs. Bed management is a dynamic process that must be continually monitored and requires separate populations by custody, gender and specialized populations. As required by statute, if the department develops a plan subsequent to its August 1 report to close state-operated prison rated beds or cancel or not renew contracts for privately operated prison beds, the ADC shall submit a bed plan detailing the proposed bed closures for review by the JLBC before implementing these changes.

As always, if I can provide any additional information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles L. Ryan", with a long horizontal line extending to the right.

**ARIZONA DEPARTMENT OF CORRECTIONS
BED CAPACITY REPORT**

Pursuant to Laws 2013, Fifty-first Legislature, First Special Session 2013, Chapter 1 (HB 2001) the ADC is required to "provide a report on bed capacity to the joint legislative budget committee for its review by August 1 annually. The report shall reflect the bed capacity for each security classification at each state-run and private institution, divided by rated and total beds. The report shall include bed capacity data for June 30 of the previous fiscal year, June 30 of the current fiscal year and June 30 of the subsequent year, as well as the reasons for any change within that time period. Within the total bed count, the department shall provide the number of temporary and special use beds."

THRU: Richard Stavneak, Director *RS*

FROM: Matt Gress, Fiscal Analyst *MG*

SUBJECT: Attorney General - Review of FY 2011 and FY 2012 Uncollectible Debts

Request

Pursuant to A.R.S. § 35-150E, the Attorney General (AG) requests Committee review of its FY 2011 and FY 2012 listings of uncollectible debts referred to the AG by state agencies for collection. The total listings are \$17.2 million for FY 2011 and \$30.4 million for FY 2012.

Recommendation

The Committee has at least 2 options:

1. A favorable review.
2. An unfavorable review.

A favorable review by the Committee would allow the State Comptroller to remove debt, certified by the AG as uncollectible, from the state accounting system.

Analysis

The AG's Collection Enforcement Unit functions as a collection service for past due debts owed to state agencies, boards, and commissions. The unit returns 65% of collected monies to the client agencies and retains the remaining 35% for unit operational costs. While the Collection Enforcement Unit is able to collect monies from many individuals and businesses that owe monies to the State, some debts are uncollectible for a variety of reasons. Laws 1999, Chapter 300 created a procedure for the State Comptroller to remove uncollectible debts from the state accounting system after receiving annual notice of uncollectible debt from the AG and review by the Committee.

The AG's office reviewed the cases assigned to the Collection Enforcement Unit. Based on this review, the AG advises that \$17.2 million owed to the State is uncollectible as of FY 2011 and \$30.4 million is

(Continued)

uncollectible as of FY 2012. Of these amounts, approximately 93% of all debts in FY 2011 are classified under 3 categories: 1) debt was discharged in bankruptcy or the debtor is a defunct corporation, 2) the collection cost would exceed amount owed, or 3) the debtor is deceased. Approximately 87% of all debt in FY 2012 is classified under 1 category: debt was discharged in bankruptcy or the debtor is a defunct corporation. The remaining amount is listed as uncollectible for reasons including that the debtor either has no assets, wages, or possesses a negative credit report; the case was settled with the debtor for a lesser amount than owed; or an inability to locate the debtor (see *Table 1*).

Table 1				
Uncollectible Debt by Reason Code				
	<u>FY 2011</u>		<u>FY 2012</u>	
	<u>Amount Recommended for Write-Off</u>	<u>Percentage</u>	<u>Amount Recommended for Write-Off</u>	<u>Percentage</u>
Debt Discharged in Bankruptcy/Defunct Corporation/LLC	\$12,288,700	71%	\$26,523,500	87%
Collection Cost Would Exceed Amount Owed	2,133,700	12%	542,300	2%
Debtor is Deceased	1,661,800	10%	1,456,800	5%
No Assets/No Wages/Negative Credit Report	1,088,800	6%	332,300	1%
Settled	34,100	0.2%	1,514,000	5%
Other	<u>20,700</u>	<u>0.1%</u>	<u>26,500</u>	<u>0.1%</u>
Total	\$17,227,800	100% ^{1/}	\$30,395,500 ^{1/}	100% ^{1/}
^{1/} Note: Numbers do not add due to rounding.				

The largest individual FY 2011 case comprises \$404,800 of the \$17.2 million, or 2.3% of the uncollectible debt total. The largest case is owed to the Department of Revenue (see *Table 2*). Of the \$17.2 million in uncollectible debt from the FY 2011 cases, approximately 90% in debts is owed to 3 agencies: the Department of Revenue, Arizona Department of Transportation, and the Registrar of Contractors. The remaining 10% in debts is owed to 22 other agencies (see *Table 3*).

The 11 largest individual FY 2012 cases in excess of \$300,000 comprise \$9 million of the \$30.4 million, or 30% of the uncollectible debt total. The largest cases are owed to the Department of Revenue and the Corporation Commission (see *Table 2*). Of the \$30.4 million in uncollectible debt from the FY 2012 cases, approximately 90% in debts is owed to 2 agencies: the Department of Revenue and the Registrar of Contractors. The remaining 10% in debts is owed to 28 other agencies (see *Table 3*).

In response to a question raised during the Committee meeting in April 2012, the AG evaluated whether it should begin actively reporting debtors to credit agencies beyond the existing protocol. Currently, a debtor's information is automatically released to credit reporting agencies in 2 circumstances: 1) the AG sues and obtains a judgment against a debtor or 2) the Department of Revenue places a lien on a debtor who has outstanding Department of Revenue debt. The AG responded in October 2012 that after removing non-reportable tax debt pursuant to statutory confidentiality restrictions and debt already reported to credit agencies through the processes mentioned above, reporting the remaining inventory of uncollectible debt could lead to liability to the State. The AG stated that for much of this debt, the liability has not yet been established or limited personally identifiable information, such as social security numbers, exists to accurately identify the debtor. The AG concluded that the human and financial resources needed to establish and regularly maintain a credit-reporting program would "likely exceed" the amount of debt it collects.

June 27, 2013

HAND DELIVERED

The Honorable John Kavanagh, Chairman
Joint Legislative Budget Committee
Arizona House of Representatives
1716 West Adams
Phoenix, Arizona 85007

RE: FY 2011 and FY 2012 Uncollectible Debt Reports

Dear Representative Kavanagh:

As requested by the Joint Legislative Budget Committee ("JLBC") pursuant to A.R.S. § 35-150(E), enclosed are the Uncollectible Debt Reports for the fiscal years ending June 30, 2011 and June 30, 2012 ("the Reports").

The Reports include: 1) debt owed to the State that was referred to the Collection Enforcement Revolving Fund for collection and determined to be uncollectible; and 2) debt owed to the Department of Revenue ("DOR") and other State agencies, boards and commissions that was not referred to the Collection Enforcement Revolving Fund and was deemed uncollectible by the agencies. With respect to the DOR debt listed in the Reports as uncollectible, for FY 2011 the Attorney General's Office is relying upon the certification by DOR set forth in memorandum dated May 18, 2012, from DOR to the Attorney General's Office and entitled, "FY 2011 Certification of Cases for Uncollectible Write-Off and Bankruptcy Discharge" and for FY 2012 the Attorney General's Office is relying upon the certifications by DOR set forth in memoranda dated May 25, 2012 entitled, "Approval Form for Uncollectible Write-Off Requests Deceased Taxpayer Cases Over \$50.00" and "Approval Form for Uncollectible Write-Off Requests Defunct Corporation Cases Over \$50.00" ("Certifications"). The Certifications state that the debt described in the Certifications meets the criteria pursuant to A.R.S. § 42-1004B, and for liabilities discharged in bankruptcy, pursuant to the United States Bankruptcy Code, and that DOR has validated through its internal policies and process that it verified the reasons for abatement, as stated in the Certifications, are true and accurate.

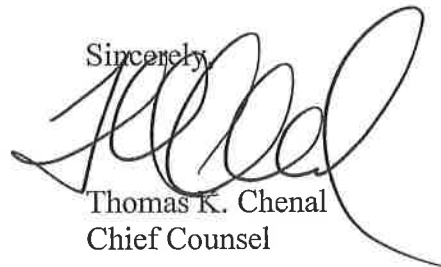

The reporting of a debt as uncollectible, including the act of the State abating the debt, does not necessarily preclude the State from reopening a case and collecting a debt owed to the State at a later date. At times, we have been able to reopen a case and collect a debt because we have identified a debtor's assets or revenue source that previously did not exist or was not able to be located. There are three exceptions to when the State would be able to pursue a debtor post-abatement. They are: 1) debts discharged in bankruptcy; 2) debts where the statute of limitations has expired; and 3) debts that the State has agreed to settle for a lesser amount than what was owed.

The Reports provide a reason each debt is deemed uncollectible. The reasons include case settled, debtor deceased, unable to locate debtor, collection costs would exceed the amount to be collected, debtor has neither assets nor wages, debtor lives and/or works on a Reservation, and debt discharged in bankruptcy/corporation/LLC defunct.

Finally, the Reports also provide the amount uncollected for each debt. This amount may include all or a portion of the original debt and, if applicable, all or a portion of interest and penalties associated with the debt.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'TK Chenal', is written over the word 'Sincerely,' and the printed name below.

DATE: August 13, 2013

TO: Representative John Kavanagh, Chairman
Members, Joint Legislative Budget Committee

THRU: Richard Stavneak, Director *RS*

FROM: Art Smith, Senior Fiscal Analyst *AS*

SUBJECT: Arizona Board of Regents - Review of FY 2014 Tuition Revenues

Request

The Arizona Board of Regents (ABOR) requests Committee review of its expenditure plan for tuition revenue amounts greater than the amounts appropriated by the Legislature, and all non-appropriated tuition and fee revenue expenditures for the current fiscal year. This review is required by the FY 2014 General Appropriation Act.

Recommendation

The Committee has at least the following 2 options:

1. A favorable review.
2. An unfavorable review.

Total FY 2014 tuition and fee collections are projected to be \$1.66 billion, or \$77.8 million higher than FY 2013. These collections are divided into appropriated and non-appropriated funds. Statute allows the universities to retain a portion of tuition collections for expenditures, as approved by ABOR. These "locally" retained tuition monies are considered non-appropriated. Any remaining tuition collections are then submitted as part of each university's operating budget request and are available for appropriation by the Legislature.

Appropriated FY 2014 tuition collections are estimated to be \$959.0 million. This amount is \$9.1 million above FY 2013. The \$9.1 million includes an increase of \$12.9 million for Northern Arizona University (NAU), a net decrease of \$(2.5) million for Arizona State University (ASU) and a net decrease of \$(1.2) million for the University of Arizona (UA). NAU plans to use its \$12.9 million increase for faculty growth, research and deferred maintenance. UA plans on reducing expenditures at its Health Sciences Center by \$(2.8) million as a result of a shift of student program fees and differential tuitions to locally

(Continued)

retained collections for accounting purposes, while increasing expenditures at its Main Campus by \$1.6 million for enrollment growth and instructional expenditures. ASU plans to use \$383,700 for faculty hiring and retention at its Tempe Campus, while reducing expenditures by \$(1.9) million at its East Campus primarily due to lower than expected enrollment, and \$(1.0) million at its West Campus primarily due to a shift of tuition revenue from state collections to locally retained tuition.

Non-appropriated locally retained tuition and fees for FY 2014 are estimated at \$705.3 million, \$68.6 million higher than FY 2013. Of the \$705.3 million amount, about \$457.4 million will be spent on financial aid, \$97.4 million on debt service, \$113.9 million on operating budgets, and \$36.6 million on plant funds.

Analysis

Appropriated Tuition

Attachment 1 shows ABOR changes to resident and non-resident undergraduate tuition from FY 2013 to FY 2014. *Table 1* displays FY 2013 and FY 2014 General Fund and tuition/fee monies for the Arizona University System. The higher tuition rates generated \$9.1 million more in appropriated monies, for a total of \$959.0 million. The universities have set aside \$705.3 million of the \$1.68 billion for non-appropriated purposes.

In total, General Fund and tuition/fee resources will increase by \$105.9 million from \$2.28 billion in FY 2013 to \$2.39 billion in FY 2014 after the tuition/fee increase.

Table 1		
Arizona University System		
FY 2013 and FY 2014 General Fund and Tuition/Fee Revenues		
	(in Millions)	
	<u>FY 2013</u>	<u>FY 2014 After Tuition Increase</u>
<u>Appropriations</u>		
General Fund	\$ 694.0 ^{1/}	\$ 722.2
Tuition/Fees	949.9	959.0
Subtotal	\$1,643.9	\$1,681.2
<u>Non-Appropriated</u>		
Tuition/Fees	\$ 636.7	\$ 705.3
TOTAL	\$2,280.6	\$2,386.5

Table 2 presents FY 2014 appropriated and non-appropriated estimates of ABOR's tuition and fee revenues, and resulting additional revenues by campus. *Table 2* shows that of the \$9.1 million in additional appropriated tuition, Arizona State University (ASU)-Tempe is \$383,700, ASU-East \$(1.9) million, ASU-West \$(1.0) million, NAU \$12.9 million, UA Main \$1.6 million, and UA Health Sciences Center \$(2.8) million. The increase in appropriation tuition revenues for ASU-Tempe is due to a movement of online payments from locally retained to state funds. The decrease in appropriation tuition revenues for ASU-East and ASU-West is largely due to the movement of financial aid expenditures from state funds to locally retained tuition collections and is due to a lesser extent to the movement of Student Recreation/Intramurals from state funds to locally retained tuition collections. *Table 3* shows that of the \$68.6 million in additional non-appropriated tuition and fees, ASU received \$23.0 million, NAU \$6.6 million, and UA \$38.9 million. *Table 4* provides some information on the uses of additional appropriated tuition revenues by university. *Table 5* provides some information on the uses of the additional non-appropriated tuition revenues by university. ABOR has provided further detail in *Attachment 1*.

- ^{1/} The amounts represent combined full-time tuition for fall and spring semesters, as well as mandatory fees. Undergraduates must take at least 12 credit hours to qualify for full-time status. Mandatory fees include AFAT and student recreation charges, but do not include special class or program fees.
- ^{2/} NAU provides a guaranteed tuition rate for each incoming class. ASU previously had a tuition commitment rate for each incoming class, however, both ASU and UA currently do not have tuition guarantees.

Arizona State University

Northern Arizona University

University of Arizona

June 28, 2013

The Honorable John Kavanagh, Chairman
Joint Legislative Budget Committee
Arizona House of Representatives
1700 West Washington
Phoenix, Arizona 85007

Dear Representative Kavanagh:

A footnote included in the General Appropriations Act requires that the Arizona Board of Regents report to the Joint Legislative Budget Committee on any tuition revenue amounts which are different from the amounts appropriated by the legislature, and all tuition and fee revenues retained locally by the universities.

Enclosed for your information is a summary report of tuition revenues that support the FY 2014 state operating budget as approved by the Board at its June 2013 meeting. The increase of \$77.8 million in tuition and fees revenues can be attributed to a combination of increased student enrollments from the estimates made last fall during the budget process, and tuition and fee rate increases approved by the Board of Regents in April 2013.

The current tuition and fee revenue estimate presented in this report is \$1.664 billion. These revenues are allocated between state appropriated funds and the universities' local funds as shown on the attached schedules.

Sincerely,

Nancy Tribbensee

Senior Vice President for Academic, Legal and External Affairs

TO: Representative John Kavanagh, Chairman
Members, Joint Legislative Budget Committee

THRU: Richard Stavneak, Director RS

FROM: Micaela Larkin, Fiscal Analyst ML

SUBJECT: Department of Environmental Quality - Review of Vehicle Emissions Contract
Modification

Request

Pursuant to A.R.S. § 49-545, the Department of Environmental Quality (DEQ) requests Committee review of modifications to the Vehicle Emissions Inspection (VEI) contract with a private vendor that went into effect on July 1, 2013.

Recommendation

The Committee has at least the following 2 options:

1. A favorable review.
2. An unfavorable review.

The proposed contract modification will amend the dates listed in the contract for construction and implementation to correspond to the effective contract date of July 1, 2013. There is no fiscal impact associated with the technical changes to the contract.

Analysis

A.R.S. § 49-545G currently states that any proposed modification or amendment to the contract is subject to prior review by the Committee. Pursuant to federal law, DEQ has operated a VEI program in Pima and Maricopa Counties through a contract with a private vendor. DEQ renewed their existing contract with Gordon Darby Arizona Testing, Inc., effective July 1, 2013.

DEQ now proposes technical changes to modify the VEI contract, and the complete list of date changes can be found in the attachment. DEQ is already administering this revised contract.

Re: Review of Vehicle Emissions Contract Amendment

Dear Representative Kavanagh:

A.R.S. § 49-545 requires the Arizona Department of Environmental Quality to submit any proposed modification or amendment to the Vehicle Emissions Inspection (VEI) contract to the Joint Legislative Budget Committee (JLBC) for review.

As background, the VEI contract was recently awarded to Gordon Darby Arizona Testing, Inc. During the contract negotiations for the ADEQ Vehicle Emissions and Inspections contract, ADEQ and Gordon Darby Arizona Testing, Inc. agreed to set the effective date for the contract to be July 1, 2013. When this timeframe was negotiated, neither party recognized that other dates in the contract, such as those required during construction and implementation, would also need to be revised.

The Department and Gordon Darby Arizona Testing both agree that the dates as currently listed in the contract do not make sense and need to be amended.

The following table displays the proposed date changes to the Scope of Work (SOW) within the contract:

Southern Regional Office
400 West Congress Street • Suite 433 • Tucson, AZ 85701
(520) 628-6733
